WEBSTER'S NEW INTERNATIONAL DICTIONARY

Hon. Sir Charles Moss,

Chief Justice of Ontario, says:

"The superiority of the New International seems very apparent."

Hon. Sir Charles J. Townshend,

Chief Justice of Nova Scotia, says:

"In my view there is no Dictionary of the English Language its superior for general use."

This NEW CREATION is far more than a dictionary, being equivalent in type matter to a 15-volume encyclopedia. It answers with final authority all kinds of questions in language, history, geography, biography, trades, arts and sciences, sports, etc.

400,000 Vocabulary Terms.

Help Your Bookkeeper to Help You

Help him to give you more efficient service. You wouldn't want your stenographer to transcribe your letters with a pen. It wouldn't pay you. Why, then, expect your bookkeeper to work with tools that are antiquated? The

REMINGTON

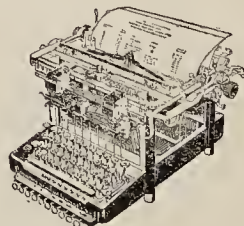

Adding and Subtracting Typewriter

(Wahl Adding Mechanism)

has opened the door of every accounting department to the writing machine. This machine, which writes and adds (or subtracts) in one operation, is the last word in typewriter efficiency.

You know how the typewriter saves time and labor in correspondence. In billing and statement work the Adding and Subtracting Typewriter does the same—and more. It stops errors, prevents errors; it gives you machine accuracy in place of brain fallibility.

The prevention of loss through errors alone makes this machine worth more than its cost to you. And the time and labor saving are clear gain.

Our illustrated booklet, "The New Remington Idea," sent on request, will tell you all about it.

Explanation of the Articles in the Calendar.

Standard times* are given in all columns headed Toronto, Quebec, and Winnipeg.

The times* of the SUN'S RISING AND SETTING† are given for the upper limb, and are corrected for refraction for Toronto, Quebec and Winnipeg.

The standard times* both for the rising and setting of the Moon's centre are given for every day for Toronto, Quebec and Winnipeg.

The column, SUN ON MERIDIAN, gives the time that a watch keeping local mean time should show when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shows to the nearest tenth of a day the Moon's age at Toronto mean noon.

The column, UPPER TRANSIT OF POLE STAR, shows for every day the mean time* at which the Pole Star makes its upper transit across the meridian of longitude 4h. 46m. W. It passes the meridian twice on October 14th.

The time at which the lower transit of the Pole Star occurs may be found by adding 11h. 58m. 2s. to the time of the preceding upper transit.

The column, Sidereal Time, Sun on Meridian, shows for every day the Sidereal Time when the Sun's centre is on the meridian of longitude 4h. 46m. W. (71° 30'). For any other meridian interpolation of these quantities is necessary. For example, on July 7th, 1914, what is the sidereal time when the Sun's centre is on the 82nd meridian west longitude. Here the difference in longitude is 10°.5. The tabulated sidereal time on the 7th is 7h. 2m. 51s., and on the 8th, 7h. 6m. 58s., giving an increase of 247 secs. which, multiplied by 10°.5 and divided by 360, gives 7 secs. corr. to be added to 7h. 2m. 51 secs.

GREATEST ELONGATION OF THE POLE STAR.—This table gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 42°, with the corresponding corrections, which are additive, for latitudes up to 65°. (See pages 31 and 32.)

From the time of the upper transit of the Pole Star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table. These constants are calculated for declination 88° 51' 28". The maximum error in the use of this Table will not exceed 5 secs. in the higher latitudes, and less for the lower latitudes.

MOON'S PHASES.—This Table gives the times (standard 75th meridian)* when the Moon passes the geocentric longitudes of 0°, 90°, 180°, and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

* In the present Almanac the hours are numbered from 0 (midnight) to 23.

† Although these times are calculated for Toronto, Quebec and Winnipeg only, the standard times at other places not differing much from them in latitude may be obtained with sufficient accuracy for ordinary purposes by adding four minutes for every degree west, and subtracting four minutes for every degree east of these places.

STAR TABLE.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following Table, the approximate times of the culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following Table will be on the meridian, *add* the number in the left-hand column of figures to the meridian transit of the pole star given in the calendar, and from the result *subtract* the constant quantity 1h. 26m.

To find the time of *rising* of the star, *subtract* the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the *setting*, *add* the same number to the time of its meridian passage. Those stars marked (....) revolve in

a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

Example.—Find the times of culmination, rising and setting of α Tauri (*Aldebaran*), January 2nd, 1915.

ECLIPSES DURING 1915.

(F. L. BLAKE.)

In the year 1915 there will be two eclipses, both of the Sun.

I.—*An Annular Eclipse of the Sun*, 1915, February 13th, invisible in America. The path of the annular eclipse will pass over the Indian Ocean commencing south of Madagascar, sweeping the north-western part of Australia, crossing New Guinea and ending in the Pacific Ocean in longitude 175° E. and latitude 13° 10' north.

II.—*An Annular Eclipse of the Sun*, 1915, August 10th, invisible in America. The path of the annular eclipse will commence in the Pacific Ocean in longitude 130° East and latitude 23° North, and will follow the central portion of the Pacific about midway between North America and Australia, passing S.W. of the Sandwich Islands and ending in longitude 107° West and latitude 22° South.

The Moon during 1915 will be at its farthest North and South limits on the following dates:—

Jan. 13.....South	July 9.....North
" 27.....North	" 23.....South
Feb. 9.....South max.	Aug. 6.....North
" 23.....North max.	" 19.....South

The correction for an increase of altitude of one inch in the barometer or for a decrease of one degree in the thermometer, is to be added to the *tabular refraction*, but when the barometer is lower than 30 inches, or the thermometer higher than 47°, the corrections become *subtractive*. When great accuracy is required, 0.003 inch should be deducted from the observed height of the barometer for each degree that the thermometer near it is above 50°, and the same quantity added for an equal decrease.

CENSUS OF CANADA, 1911.

Comparing the census years of 1911 and 1901, the population of Canada is shown by provinces and territories in the following table, together with the increase in the period of ten years and the increase per cent, viz.:

PROVINCES.	1911.	1901.	Increase.	Increase p.c.

* Decrease.

The rural population in 1911 was 3,925,679 and the urban population 3,280,964. In 1901 the rural population was 3,349,516 and the urban population 2,021,799. The increase of rural population in the ten years is therefore 576,163 and of the urban 1,259,165, which is 17·20 per cent. for the former and 62·28 per cent. for the latter. In Alberta the increase of rural population in the ten years was 180,327 and of urban 121,314. In British Columbia the increase of rural population was 100,318 and of urban 113,505, and in Manitoba the rural increase was 70,511 and the urban 129,892. New Brunswick lost 1,493 rural and gained 22,262 urban, while Nova Scotia lost 23,981 rural and gained 56,745 urban. Ontario lost 52,184 rural and gained 392,511 urban. Prince Edward Island gained 15 urban, but lost 9,546 rural. Quebec shows gains of both rural and urban population, being 39,951 for the former and 314,383 for the latter. Saskatchewan also shows gains in both classes, being 287,338 for the former and 113,815 for the latter. In Yukon the rural loss was 13,430 and the

urban loss 5,277. In the Northwest Territories, whose population is wholly rural, the loss was 1,648.

From the first census of the Dominion in 1871 to the fifth in 1911, a period of forty years, the population increased from 3,689,257 to 7,206,643 or nearly one hundred per cent. In Ontario during the same period the increase was 902,423, of Quebec 811,716, of Manitoba 430,386 and of British Columbia 356,233. Alberta and Saskatchewan, organized in 1905, show for the former an increase from 1901 of 301,641 and for the latter of 401,153. Nova Scotia made an increase of 104,538 in forty years, and New Brunswick an increase of 66,295. Prince Edward Island's population in the same period fell off by 293, and the decrease in the Northwest Territories is accounted for by the fact that Alberta and Saskatchewan have been organized out of the Territories.

The conjugal condition of the people is given in the following table for the whole of Canada. It shows the population classified by sex and conjugal condition for the five decennial periods 1871-1911.

	Total.....	661	1,530

NOTE.—In this table the population of Canada for 1871 does not include Manitoba, British Columbia, Prince Edward Island nor the Northwest Territories, which were not included in the Dominion Census of that year.

For the Census of 1901 the class of divorced persons was added and for the Census of 1911 the class of the legally separated. In 1901 there were 661 divorced and in 1911 there were 1,530. In 1911 the legally separated numbered 1,286 males and 1,584 females. There were also 29,097 males and 9,363 females not given. There were persons of the three classes in the country previous to 1911, but they were included with the single, married and divorced at proportional rates. The bulk of the "not given" class in the case of men was employed on railway construction and in mines, where it was difficult for the enumerators to get personal access to them or to procure information of them excepting from employers or the men in charge of their boarding or lodging places, and a like remark applies in the case of women who were not found at their homes.

The number of occupied dwellings in the sub-districts of the Dominion in 1911 was 1,413,913 and the number of families 1,488,353, compared with 1,028,892 dwellings and 1,070,747 families in 1901. The average number of persons per dwelling, in 1911, was 5·096 and per family 4·841, compared with averages of 5·220 per dwelling and 5·016 per family in 1901.

The area of Canada is given in the census tables of 1911 as 3,729,665 square miles of land and water, which is 15,909 square miles less than ten years ago. This is due in part to a reduction following the Alaska Boundary treaty, and also to new map measurements. The population per square mile was 1·93 in 1911, and in 1901 computed on the same area it was 1·44. In Alberta the population was 1·47 per square mile in 1911 and in 1901 it was ·28. British Columbia in 1911 had 1·09 per square mile, and in 1901 only ·50. Manitoba in 1901 had 3·46 per square mile, and in 1911 it reached 6·18. New Brunswick increased during the same period from 11·83 to 12·61 per square mile, and Nova Scotia from 21·45 to 22·98. Ontario's increase was nearly 1·30 per square mile, or from 8·37 in 1901 to 9·67 in 1911. Prince Edward Island in 1901 had a population of 47·27 and in 1911 it fell to 42·91. Quebec in the ten years has grown from 4·69 per square mile to 5·69, which is an increase of one per square mile as compared with 1·30 in Ontario. In Saskatchewan the increase has been from ·36 to 1·95, and in Yukon and the Northwest Territories there have been large decreases.

INTERMEDIATE TARIFF

- (2) The rates of Customs duties, if any, set forth in Column 2 "Intermediate Tariff" shall apply:

To goods the produce or manufacture of any British or foreign country to which the benefits of such Intermediate Tariff shall have been extended in the manner hereinafter provided, when imported direct from such foreign country or from a British country.

GENERAL TARIFF

- (3) The rates of Customs duties, if any, set forth in Column 3 "General Tariff" shall apply to all goods not entitled to admission under the Intermediate Tariff or under the British Preferential Tariff.

FRENCH TREATY

- (3) The rates of duties of the French Treaty of 1907 apply to natural and manufactured products originating in France, Algeria, the French Colonies and Possessions, and Territories of the Protectorate of Indo-China, upon entry for duty in Canada, when such products have been conveyed without transshipment from a port of those territories or from a port of a territory enjoying the preferential or intermediate tariff in respect of these products into a sea or river port of Canada.

Note.—Products originating as specified in this paragraph may be imported into Canada subject to entry under this Treaty, when conveyed without transshipment to a sea or river port of Canada from any British Country or from any country accorded most favoured nation treatment in tariff matters by Canada.

- (4) Under the provisions of the French Convention Act, 1908, certain natural and manufactured products of the following countries are entitled to entry for duty in Canada upon the terms and conditions granted in respect of the like natural and manufactured products of France, Algeria, the French Colonies and Possessions, and the Territories of the Protectorate of Indo-China, viz.:

The United Kingdom,

All British Colonies and British Possessions; and also the following countries accorded most favoured nation treatment in tariff matters by Canada:—

Argentina Republic.	Russia.
Bolivia.	Spain.
Columbia.	Sweden.
Denmark.	Switzerland.
Japan.	Venezuela.
Norway.	

WEST INDIAN TRADE AGREEMENT ACT

- (3) There shall be levied, collected, and paid on all goods enumerated in Schedule B to the said agreement, being the produce or manufacture any of the following colonies, parties thereto, namely:—

Trinidad.	British Guiana.
Barbadoes.	St. Lucia.
Antigua.	St. Vincent.
Dominica.	St. Kitts.
Monserrat.	

And for a limited time:—

Bahamas.	British Honduras.
Bermuda.	Grenada.
Jamaica.	Newfoundland

When such goods are imported direct from any British country into Canada, or taken out of warehouse for consumption therein, if imported as aforesaid, duties of customs (a) at the rate of four-fifths of the several rates of duties if any imposed on similar goods when imported from any foreign country, or (b) at the several rates of duty if any

set opposite to each tariff item respectively in the column British Preferential Tariff in Schedule A to the Customs Tariff 1907, and in any amendment thereof which ever shall be the lower rate, and (c) under the same conditions all goods enumerated in Schedule "C" to the said agreement shall be admitted free.

PROOF OF ORIGIN

(4) Proof of origin, as prescribed by the Minister of Customs, shall be furnished with the bill of entry at the Custom House for goods admitted to entry under any of the Tariffs in Schedule A; and that the decision of the Minister of Customs shall be final as to the Tariff or Surtax applicable in any case to imported goods by reason of their origin:

Provided, that goods for which entry is claimed under the Intermediate Tariff shall be bona fide the produce or manufacture of a country which has been admitted to the benefits of such Intermediate Tariff;

Provided further that every manufactured article to be admitted under the British Preferential Tariff shall be bona fide the manufacture of a British country entitled to the benefits of such British Preferential Tariff, and that a substantial portion of the value of the manufactured article has been produced by labor in one or more of such countries.

DUMPING CLAUSE

6. In the case of articles exported to Canada of a class or kind made in Canada, if the export or actual selling price to an importer in Canada be less than the fair market value of the same article when sold for home consumption in the usual and ordinary course in the country whence exported to Canada at the time of its exportation to Canada there shall, in addition to the duties otherwise established, be levied, collected and paid on such article, on its importation into Canada, a special duty (or dumping duty) equal to the difference between the said selling price of the article for export and the said fair market value thereof for home consumption;

Provided that the said special duty shall not exceed fifteen per cent. ad valorem in any case;

Provided also that the following goods shall be exempt from such special duty, viz.:

(a) Goods whereon the duties otherwise established are equal to fifty per cent. ad valorem;

(b) Goods of a class subject to excise duty in Canada;

(c) Sugar refined in the United Kingdom.

(d) Binder twine or twine for harvest binders manufactured from New Zealand hemp, istle or tampico fibre, sisal grass or sunn, or a mixture of any two or more of them, of single ply and measuring not exceeding six hundred feet to the pound.

Provided further that excise duties shall be disregarded in estimating the market value of goods for the purposes of special duty when the goods are entitled to entry under the British Preferential Tariff.

(2) That the expression "export price" or "selling price" in this section shall be held to mean and include the exporter's price for the goods, exclusive of all charges thereon after their shipment from the place whence exported directly to Canada.

(3) That if at any time it appears to the satisfaction of the Governor-in-Council, on a report from the Minister of Customs, that the payment of the special duty by this section provided for is being evaded by the shipment of goods on consignment without sale prior to such shipment, the Governor-in-Council may in any case or class of cases authorize such action as is deemed necessary to collect on such goods or any of them the same special duty as if the goods had been sold to an importer in Canada prior to their shipment to Canada.

(4) If the full amount of any special duty of customs is not paid on goods imported, the customs entry thereof shall be amended and the deficiency paid upon the demand of the Collector of Customs.

(5) The Minister of Customs may make such regulations as are deemed necessary for carrying

out the provisions of this section and for the enforcement thereof.

(6) Such regulations may provide for the temporary exemption from special duty of any article or class of articles, when it is established to the satisfaction of the Minister of Customs that such articles are not made or sold in Canada in substantial quantities, and offered for sale to all purchasers on equal terms.

(7) Such regulations may also provide for the exemption from special duty of any article when the difference between the fair market value and the selling price thereof to the importer as aforesaid amounts only to a small percentage of its fair market value.

SURTAX

7. Articles which are the produce or manufacture of any foreign country which treats imports from Canada less favourably than those from other countries may be subject to a Surtax over and above the duties specified in Schedule "A," such Surtax in every case to be one-third of the duty specified in the General Tariff in the said Schedule "A."

(1) Any question arising as to any foreign country or goods coming under the operations of the provisions in regard to the Surtax shall be decided by the Minister of Customs, whose decision shall be final:

Provided that the Governor-in-Council may make regulations for carrying out the purposes of this Section, and may, by Order-in-Council, from time to time suspend the Surtax from application to the goods of any country.

FISH FROM NEWFOUNDLAND

8. Notwithstanding anything in this Act, fish and other products of the fisheries of Newfoundland may be imported into Canada free of Customs duty until otherwise determined by the Governor-in-Council, by Order published in the *Canada Gazette*.

9. Fish caught by fishermen in Canadian fishing vessels and the products thereof carried from the fisheries in such vessels, shall be admitted into Canada free of duty, under regulations by the Minister of Customs.

DRAWBACK

10. On the materials set forth in Schedule "B" to this Act, there may be paid out of the Consolidated Revenue Fund, the several rates of drawback of Customs duties set opposite to each item respectively in such Schedule, under regulations by the Governor-in-Council.

PROHIBITED GOODS

11. The importation into Canada of any goods enumerated, described or referred to in Schedule "C" hereto is prohibited; and that any such goods imported shall thereby become forfeited to the Crown and shall be destroyed or otherwise dealt with as the Minister of Customs directs; and that any person importing any such prohibited goods, or causing or permitting them to be imported, shall for each offence incur a penalty not exceeding two hundred dollars.

COMBINE CLAUSE

12. Whenever from or as a result of a judgment of the Supreme Court, or Exchequer Court of Canada, or of any superior court, or circuit, district, or county court in Canada, it appears to the satisfaction of the Governor-in-Council, that with regard to any article of commerce there exists any conspiracy, combination, agreement or arrangement of any kind among manufacturers of such articles or dealers therein to unduly promote the advantage of the manufacturers or dealers at the expense of the consumers, the Governor-in-Council may admit the article free of duty, or so reduce the duty thereon as to give to the public the benefit of reasonable competition in the article, if it appears to the Governor-in-Council that such disadvantage to the consumer is facilitated by the duties of Customs imposed on a like article.

(2) Whenever the Governor-in-Council deems it to be in the public interest to enquire into any conspiracy, combination, agreement or arrangement alleged to exist among manufacturers or dealers in any article of commerce to unduly promote the advantage of the manufacturers or dealers in such article at the expense of the consumers, the Governor-in-Council may commission or empower any judge of the Supreme Court, or Exchequer Court of Canada, or of any Superior Court or County Court in Canada, to enquire in a summary way into and report to the Governor-in-Council whether such conspiracy, combination, agreement or arrangement exists.

(3) The judge may compel the attendance of witnesses and examine them under oath and require the production of books and papers, and shall have such other necessary powers as are conferred upon him by the Governor-in-Council for the purpose of such enquiry.

(4) If the judge reports that such conspiracy, combination, agreement or arrangement exists in respect of such article, the Governor-in-Council may admit the article free of duty, or so reduce the duty thereon as to give to the public the benefit of reasonable competition in the article, if it appears to the Governor-in-Council that such disadvantage to the consumer is facilitated by the duties of Customs imposed on a like article.

CANADIAN TARIFF OF CUSTOMS

COMPILED AND REVISED BY O. H. COGSWELL, B.A., OTTAWA

NOTE—For the convenience of the public we have enlarged this edition of the Tariff by the insertion of a large number of items not classified in the official tariff. We have assigned the rates to the best of our information and judgment, and we believe they will be found fairly correct. We however, disclaim all responsibility should the rates assigned not be verified as correct by the rulings of the Department.

Where there are three rates of Duty given, the first is the British Preferential Tariff, the second is the Intermediate Tariff, and the third is the General Tariff. The rate of Duty is per cent. *ad valorem*, except when otherwise specified.

* Items marked thus have the advantage of the Intermediate Tariff rates when the importation is from French Treaty countries, The Netherlands, or Belgium.

† Items marked thus have the advantage of the Intermediate Tariff rates when the importation is from French Treaty countries, The Netherlands, Belgium or Italy.

‡ Items marked thus have the British Preferential rate when the importation is from those colonies that come under the West Indian Trade Agreement Act of 1913.

Rates that have been lowered from the General to the Intermediate Tariff according to the terms of the agreement with the United States of America that came in force on March 31st, 1910, are printed in brackets [].

THE KING AND ROYAL FAMILY.

THE KING.—George V., by the Grace of God of the United Kingdom of Great Britain and Ireland, and of the British Dominions beyond the seas, King, Defender of the Faith, Emperor of India. His Majesty is the second son of the late King Edward and Queen Alexandra, the elder son, Prince Albert Victor, Duke of Clarence, having died in January, 1892. George V. was born June 3rd, 1865. He married on July 6th, 1893, his second cousin, Princess Victoria Mary Augusta Louise Olga Pauline Claudine Agnes of Teck.

THE QUEEN.—Mary, only daughter of the late Duke of Teck, was born at Kensington Palace, May 26th, 1867, and was married at Windsor to His Majesty, then Duke of York, on July 6th, 1893.

The children of King George and Queen Mary are:—

Prince Edward Albert Christian, Duke of Cornwall, born June 23rd, 1894. He received investiture as Prince of Wales, July, 1911.

Prince Albert Frederick Arthur George, born December 14th, 1895.

Princess Victoria Alexandra Alice Mary, born April 23rd, 1897.

Prince Henry William, born March 31st, 1900.

Prince George Edward, born December 20th, 1902.

Prince John Francis Charles, born July 12th, 1905.

The surviving children of the late King Edward VII. besides King George V. are:—

Princess Louise, Dowager Duchess of Fife (Louisa Victoria Alexandra Dagmar), born February 20th, 1867; married July 27th, 1889, Alexander William George, Duke of Fife, died 29th January, 1912. Has two daughters, Alexandra, Duchess of Fife, born May 27th, 1891, married October 15th, 1913, Prince Arthur of Connaught; and Maud, born April 3rd, 1893.

Princess Victoria Alexandra Olga Mary, born July 6th, 1868.

Princess Maud Charlotte Mary Victoria, born November 26th, 1869; married 22nd July, 1896, to Charles, second son of the Crown Prince of Denmark, chosen King of Norway, Nov., 1905. Has one son, Olaf.

The surviving children of her late Majesty Queen Victoria are:—

Her Royal Highness Helena Augusta Victoria, born May 25th, 1846; married to H. R. H. Prince Frederick Christian Charles Augustus of Schleswig-Holstein-Sonderburg-Augustenburg, July 5th, 1866; issue three sons, one of whom died an infant, and one died in South Africa, Oct., 1900, and two daughters.

Her Royal Highness Louise Caroline Alberta, born March 18th, 1848; married March 21st, 1871, to the Marquis of Lorne, ninth Duke of Argyll, who died in 1914.

His Royal Highness Arthur William Patrick Albert, Duke of Connaught, born May 1st, 1850; married March 13th, 1879, to Princess Louise Margaret, daughter of the late Prince Frederick Charles of Prussia, and has issue one son and two daughters. Arthur, married Alexandra, Duchess of Fife; Margaret, married Gustavus Adolphus, Crown Prince of Sweden, and Patricia.

Her Royal Highness Beatrice Mary Victoria Feodora, born April 14th, 1857; married July 23rd, 1885, to Prince Henry of Battenburg, who died Jan. 20th, 1896; and had issue three sons, of whom the youngest, Maurice, born 1891, was killed in action in France, October 27th, 1914, and one daughter, now Queen Victoria of Spain, married King Alfonso May 31st, 1906.

The deceased children of her late Majesty Queen Victoria, are:—Edward VII., born November 9th, 1841; succeeded to the throne, January 22nd, 1901, died May 6th, 1910. He married Princess Alexandra of Denmark, March 10th, 1863. On the death of the King, Queen Alexandra took the title of Queen Mother.

Her Imperial Majesty Victoria Adelaide Mary Louisa, PRINCESS ROYAL, Empress Frederick of Germany, born Nov. 21st, 1840, and married Jan. 25th, 1858, to Frederick, Crown Prince of Prussia, afterwards (March to June, 1888) second German Emperor, who died June 15th, 1888; died August 5th, 1901, and had issue four sons (two deceased), the eldest William, the present German Emperor, and four daughters.

Her Royal Highness Alice Maud Mary, born April 25th, 1843; died December 14th, 1878; married his Royal Highness Prince Frederick Louis of Hesse, July 1st, 1862, who died March 13th, 1892; had issue five daughters and two sons; the second son died by an accident, May, 1873; the youngest daughter died November 15th, 1878.

His Royal Highness Leopold George Duncan Albert, Duke of Albany, born April 7th, 1853; married April 27th, 1882, to Princess Helen of Waldeck, and died March 28th, 1884, having had issue one son, now Duke of Albany, who succeeded his uncle, the Duke of Edinburgh, as Duke of Saxe-Coburg-Gotha, on July 30th, 1900, and one daughter.

THE KING'S CIVIL LIST.

Immediately after the accession of His Majesty George V., there was passed in the Parliamentary session of 1910 the Civil List Act, an Act by which the charges on the consolidated fund for the maintenance of the King and his family are determined.

Until George III. came to the throne in 1760, the income of the sovereign was derived chiefly from Crown lands, from a variety of landed property in England and Wales, Scotland and Ireland, in which the sovereign had a life-interest, and from which he received the rents. In the feudal ages these lands constituted a princely patrimony. In later times this Crown property was greatly reduced by lavish grants to royal favorites. At the Restoration the income from Crown lands was ascertained by a committee of the House of Commons to amount to £217,900 a year, in addition to £4,000 from the Forest of Dean. By the time Charles II. had been on the throne three years he had by his lavish bestowal of the lands on favorites reduced the income to £100,000. William III., by his grants to favorites who had accompanied him from Holland, made further havoc with the Crown domains; so much so that at the accession of Queen Anne Parliament endeavored to save the remnant by an Act (1 Anne, c. 8) which prohibited alienation of Crown lands, and enacted stringent provisions in regard to the length of the term for which they might be leased and the rents reserved.

Since then, and especially since the accession of the late King Edward VII., the income from the Crown Lands has very greatly increased, until at the present time it is greater than the amount granted to the King and Royal Family in the Civil List.

Queen Anne, George I. and George II. derived the larger part of their income from their life-interest in the Crown property, but when George III. came to the throne he surrendered his life-interest in the Crown lands. It was turned over to the nation in return for a fixed Civil List of £800,000, subsequently increased to £900,000. George IV., William IV., Queen Victoria and Edward VII., on their accessions, surrendered their life-interest in the Crown lands in return for a Civil List. The same course was taken by George V. when he came to the throne; and on June 15th, 1910, a committee of the House of Commons was appointed to recommend the new Civil List. It reported on the 6th of July, 1910, and its recommendations were embodied in an Act (1 George V., c. 5), which was passed through all its stages in the House of Lords on August 2nd, 1910. By this Act the King's Civil List was fixed at the yearly sum of £470,000, which was the same amount as that granted to King Edward VII.

CLASSES OF EXPENDITURE.	SUM APPROPRIATED.
I. Their Majesties' Privy Purse.....	£110,000
II. Salaries of His Majesty's household and retired allowances.....	125,800
III. Expenses of His Majesty's household.....	193,000
IV. Works.....	20,000
V. Royal bounty, alms and special services.....	13,200
VI. Unappropriated.....	8,000
Total.....	£470,000

Her Majesty Queen Alexandra in accordance with the Civil List Act passed at the accession of Edward VII. (1 Edward VII., c. 4), enjoys an annuity of £70,000, and a similar provision is made in the Civil List Act of 1910 for Queen Mary in case she survives the King.

The late King Edward's daughters, Princess Louise (Dowager Duchess of Fife), Princess Victoria and Princess Maud (Crown Princess of Denmark), receive an annual allowance of £18,000 during their joint lives, which will be reduced at the death of each of the said princesses by £6,000.

At the death of Edward VII. the provision for the Royal Family amounted in all to £576,000, being £470,000 for the King's Civil List, and £106,000 in respect of allowances to other members of the Royal Family. This amount is somewhat increased by the allowance of £70,000 made to Queen Alexandra. As the Prince of Wales is entitled to the revenues of the Duchy of Cornwall, no special provision was made for him in the Civil List Act of 1910, but it was provided that, in the event of his marrying, an allowance of £10,000 a year should be made to the Princess of Wales, to be increased to £30,000 should she survive his Royal Highness. Each of King George's sons is to receive an annuity of £10,000 on coming of age, to be increased to £15,000 on his marrying. The allowance to daughters is to be £6,000 a year. No provision is made in the Act for children of younger members of the Royal Family.

The annuities to the Royal Family after the resettlement at the accession of George V. stand thus:—

His Majesty (Civil List).....	£470,000
Queen Alexandra.....	70,000
Pensions transferred to Consolidated Fund.....	18,000
Princesses Louise, Victoria and Maud..	18,000
Princess Christian of Schleswig-Holstein.....	6,000
Princess Louise, Duchess of Argyll....	6,000
Duke of Connaught.....	25,000
Princess Beatrice (of Battenburg).....	6,000
Duchess of Mecklinburg-Strelitz.....	3,000
Duchess of Edinburgh.....	6,000
Duchess of Albany.....	6,000
Total.....	£634,000

The revenues of the Duchies of Cornwall and Lancaster are outside the Civil List arrangement. Those of Cornwall, valued at £60,000 a year, are vested in the eldest son of the reigning sovereign, who becomes by birth the Duke of Cornwall, by virtue of a patent of Edward III. in 1337. The Duchy of Lancaster was the private patrimony of Henry Bolingbroke, son of John of Gaunt. It is separate from the other possessions of the Crown in order and government, but united to it in point of inheritance. It also brings in a revenue of £60,000 a year.

THE BRITISH ARMY AT THE OUTBREAK OF THE GREAT WAR

If proof were needed that Great Britain never contemplated an aggressive war on Germany, it is to be found in the Army Estimates for 1914-1915, submitted to the House of Commons on March 5th, five months before hostilities began in Belgium and France in the first week of August, and in other statistical statements presented to Parliament between the beginning of the parliamentary session in February and the declaration of war. Colonel Seely was Secretary for War in the Asquith Administration until his resignation, due to political difficulties at the Curragh—the Aldershot of Ireland—at the end of March, 1914. In the Estimates for the Army, laid before the House on March 5th, Colonel Seely asked for a vote for 186,400 men of all ranks for the regular army, and a net vote of £28,845,000 for all military services, an increase of £625,000 over the sum that was voted for the army for the year 1913-1914. The increase for 1914-1915 was due to a larger vote for the Territorial Force—an increase of £271,000—and an increase of £480,000 in the appropriation for aviation services, on which, if 1914-1915 had been a normal year, the total expenditure would have been £1,000,000.

The accompanying table gives the details of the vote:

EFFECTIVE SERVICES.		Increase or Decrease.

At the time the votes for the Army come before the House of Commons in Committee of Supply, the Secretary for War makes a statement and explains any increases or decreases in the forces, or any new policy affecting the Army that the government may be about to adopt. But before this stage is reached a memorandum is issued to members of Parliament giving details of expenditures and strengths of the various forces.

THE AVIATION SERVICE.

In his memorandum of March 5th, Colonel Seely devoted most attention to the aviation service, and to the position of the Territorial Force. The outbreak of war in August has given a new significance to both these statements.

Good progress, wrote the Secretary for War, has been made during the past year with the development of the military wing of the Royal Flying Corps. By the end of this month the personnel of the 5th and 6th Squadrons will be complete, and the number of officer fliers will have grown to about 200, including officers in the Reserve and those holding certificates but not yet admitted to the school. A special section of the Army Ordnance Department is also about to be formed to deal with the storage and supply of the highly technical and complicated material used in this branch of the Service.

With large numbers of new aeroplanes on order at the present moment and the constant liability of those in hand to become unfit for service, it is hardly possible to give any exact figure for the number of serviceable aeroplanes in possession of the Army which will not have ceased to be correct before it is printed, but as a general indication of the progress made in the past year it may be said that as compared with 100 aeroplanes in existence on March 20th, 1913, there were on February 25th last 161 on hand, and between those dates 87 had been struck off as unserviceable and replaced. An adequate reserve of spare engines and considerable quantities of spare parts have been provided. The provision of motor transport is keeping pace with the formation of the squadrons.

THE TERRITORIAL FORCE.

The history of the reorganization of the old militia, volunteers, and yeomanry into the Territorial Force—a reorganization carried out by Viscount Haldane in 1907—was told at some length in the CANADIAN ALMANAC for 1908, and from year to year since then developments in the new force have been recorded in these pages. How the Territorial Army stood in January, 1914, was explained in Colonel Seely's memorandum. He stated that it then numbered 9,366 officers, and that 239,819 men were of the rank and file. There was, as compared with the position on January 1st, 1913, an increase of 72 officers, but a decrease of 14,220 in the non-commissioned officers and the rank and file.

"The reduction in numbers of men," Colonel Seely continued, "is not due to unsatisfactory recruiting, but is entirely the result of the abnormal intake of recruits during the year 1909, with the consequent exodus when the four-year engagements of these men expired during 1913. Over 51,000 men left in that year, or about 23,000 more than in 1912, though that year was itself abnormal. The recruiting returns for 1913 show a further highly satisfactory advance, and there is every hope that this will be well maintained. There was an actual increase of strength from October 1st to December 31st last of 3,400 men. The attendance at camp showed a considerable improvement during 1913, and the musketry returns were better than in any previous year."

The House of Commons went into Committee on the Estimates on March 13th, when Colonel Seely reminded the House of the distribution of forces that constituted the regular army, gave some particulars regarding the reserves, and supplemented his statement in the memor-

andum regarding the Territorial Force. Concerning the regular army his most important statement was as follows:—According to the latest returns we had at home approximately 121,000 men of all ranks and of all arms. Abroad we had 117,000. Our position if we went to war to-morrow would be as follows:—We should have in India and the colonies 117,000 men, fully mobilised. We should have at home 121,000, and we should be able to call upon our Army Reserve of 146,000, which was above the normal. If we instantly mobilized on a declaration of war we should then mobilize an expeditionary force of about 162,000 men complete in all details—men, horses, rifles, guns and ammunition,—and he was persuaded that there would be no muddling in that matter, and no mistake in the provision of the expeditionary Force.

THE NEED OF RECRUITS FOR THE TERRITORIAL FORCE.

During 1913-1914 there had been much criticism of the Territorial Force, chiefly on the ground of the decrease in its numbers. Directing his attention to this criticism, the Secretary for War admitted that the numbers, as he had anticipated when the army votes were before the House in March, 1913, were still far below the establishment; but he was glad to say they were not so much below as they had expected and feared. The Territorial Force was at that time—March 13th, 1914—approximately 56,000 below strength. The fact that the force was stronger than he had hoped in view of the large number of determinations of engagements which fell in during 1913-1914, was due to the remarkable recruiting successes. They had enlisted 67,000 men, as compared with 57,000 men the previous year. Recruiting, indeed, had been buoyant, especially during the previous few months. Since October 1st there had been an actual gain in strength of about 10,500, and in the months of January and February, 1914, there had been a gain of 7,111 men. He wanted to enter one caveat. These figures were highly encouraging, but he did not ask the House to assume that they were as encouraging as they seemed. He was persuaded that a great many men whose time was up must have refrained from resigning from a sense of loyalty to the Force, and these men would resign before very long. It would be a mistake therefore, to think that they could rest on their oars, and that the Force would soon be up to strength without any special effort. The Force would drop unless the efforts were maintained.

IN CASE OF INVASION.

Answering the question as to what forces Great Britain would have available in case of a sudden invasion, Colonel Seely assured the House that nobody could consider what would happen in case of invasion without taking both the Navy and the Army into account. As to the military forces he suggested, as a way of arriving at some measure of the truth, the consideration of what took place at the time of the annual manœuvres. In last year's manœuvres there were of the mobilized Army a little over 45,000 men, of all arms, present; and in Ireland the troops which were not represented at the manœuvres numbered some 12,000. Broadly speaking, they might say that for the purpose of manœuvres and for any sudden emergency at any time they would have always ready, within a few hours to go anywhere, over 50,000 men of all arms. It was a force clearly of such power and value that the greater part of the problem of

immediate invasion might be said to be solved by its possession. For the purposes of immediate danger our Army was well organized, well equipped, and ready for the duties which it might have to perform.

THE NATIONAL RESERVE.

He might be asked how did the country stand if they went to war to-morrow. The position was far more favorable than a year ago. Last year he expressed his opinion, which was shared by the Army Council, that the overwhelming proportion of men who left the Territorial force and other branches of the Army would come forward in the hour of need and render assistance. He could now give evidence in proof of his statement. A year ago they had 160,000 men in the National Reserve. To-day the total was 217,000. Those men who were willing to serve their country in the time of national emergency had been asked to sign a document, and the results had been most gratifying. Over 13,000 had undertaken to serve in any part of the world in time of national emergency. These 13,000 men, who belong to Class I, had been medically examined, and all were under 42 years of age. Of those in Class II, who had undertaken to serve within these islands there were 45,000. To meet the deficiencies of 13,000 in the Special Reserve, and 56,000 in the Territorial Force, they had 13,000 who were prepared to serve in any part of the world, and 45,000 who would serve in the British Isles. So that the country stood well in the event of immediate war.

Three days before the memorandum of the Secretary for War was published on March 2nd, 1914, there was issued the annual report of the British Army. The statistics were carried down to October 1st, 1913. They showed that the aggregate strength of all divisions of the Army was 713,236, against an establishment of 804,710. In addition there was the National Reserve, whose strength stood at 215,451. The totals for the Regular Army and the Army Reserve are as follow:—

	Establishment.	Strength.
Regular Army, British	179,933	170,722
Regular Army, Indian	75,897	76,528
Staff and Departments, etc.	2,631	2,637
Army Reserve, Regular	145,000	145,090
Army Reserve, Special	73,714	61,427
Total	482,175	456,404

The strength of the British establishment of the Regular Army is 9,211 below the establishment, while 17,287 men are wanted to complete the Special Reserve.

RECRUITING IN THE YEAR BEFORE THE WAR.

The number of recruits joining the Regular Army during the year, excluding 139 re-enlisted men and 668 recruits from Colonial corps, was 28,001, a decrease of 2,225 as compared with the previous twelve months; 18,454 recruits, excluding re-enlisted men, joined the Special Reserve, a decrease of 2,937 as compared with the figures for 1911-12. The percentage of rejections of would-be recruits was lower than in any year since 1907, being 18·0 for various ailments, and 3·43 for want of physical development. Commenting on the quality of the men who offered for the Army in 1913, the report added, that "the improvement of recent years in physique, character, and education had been well maintained."

GOOD TRADE, LARGE EMIGRATION TO CANADA, AND RECRUITING.

Commenting on the falling off in the number of men offering in 1913 for the Army, the author of the report, published March 2nd, 1914, suggested that it was probably due to three causes: (1) increased competition for men by the Royal Navy; (2) good trade and facilities for obtaining work; and (3) the large emigration to Canada and the other oversea Dominions. "A recent Board of Trade Return," reads the part of the report that concerned the large emigration to Canada, "states that during 1913, 178,468 male British subjects emigrated from the United Kingdom. This is a formidable number, and although it may be argued that probably only a small proportion of the total were men who would have enlisted if they had not emigrated, yet it must be remembered that in most cases the man who emigrates leaves a vacancy in the field of employment at home to be filled perhaps by one who in other circumstances would have entered the Army. Whilst there have of late been some hopeful signs of slackening in the appetite of Canada for emigrants of the unskilled labour class, on the other hand it is discouraging from a recruiting point of view to note that Australia has recently inaugurated a scheme offering special facilities for the immigration of lads between 16 and 20, the very ages between which the majority of our recruits now join the Special Reserve and Regular Army."

WHERE THE SHORTAGE OF RECRUITS WAS FELT.

In the regular army, continued the report of March 2nd, the only branches that could not readily have accepted more recruits had they presented themselves, being in excess of their establishment, were the Household Cavalry, Foot Guards, Army Service Corps, and Royal Army Medical Corps. The shortage in strength was, however, inconsiderable in any arm or branch at any time throughout the year except the Infantry of the Line, which decreased in strength during the year by 5,079, and was 6,148 below its establishment on the 1st of October, 1913.

THE ARMY ON A WAR FOOTING.

War was declared on August 4. On the 6th, Premier Asquith, who was Secretary for War, from the end of March to the outbreak of hostilities when he was succeeded by Earl Kitchener, made a motion in the House of Commons asking for an additional half million of men. On September 10, the Premier told the House that of these new men, 439,000 had already enlisted, exclusive of recruits for the Territorials. The record day for recruiting between the beginning of the war and Mr. Asquith's statement of September 10th was Thursday, September 3rd, when 33,000 men enlisted. After Mr. Asquith had communicated these figures to the House he moved a vote for another half million men, and explained that when all these new men had been secured, Great Britain would have a force of nearly 1,200,000 men in addition to Territorials and the Canadian, Australian, New Zealand and Indian contingents. The original estimate for the army—the estimate accepted by Parliament in March when the country was at peace—was for 186,400.

EARL KITCHENER'S GREAT SPEECH AS SECRETARY FOR WAR.

A day or two before Parliament adjourned for an unusually brief autumn recess, Earl Kitchener, the Secretary for War, made a statement in the House of Lords concerning the expeditionary force; the contingents from the over-sea Dominions; and the four armies which at that time—September 17th, 1914—were being organized.

There are now in the field, he said, rather more than six divisions of British troops and two cavalry divisions. These are being, and will be, maintained at full strength by a steady flow of reinforcements. To meet the wastage of war in this field force, our reserve units are available. To augment the Expeditionary Force, further regular divisions and additional cavalry are now being organized from units withdrawn from overseas garrisons whose places, where necessary, will be taken by Territorial troops who, with fine patriotism, have volunteered to exchange a home for an Imperial service obligation. On their way from India are certain divisions from the Indian Army, composed of highly trained and very efficient troops, and a body of cavalry, including regiments of historic fame. The Dominions beyond the seas are sending us freely of their best. Several divisions will be available, formed of men who have been locally trained in the light of the experience of the South African War, and, in the case of Australia and New Zealand, under the system of general national training introduced a few years ago.

FOUR NEW ARMIES.

In response to the call for recruits for the new armies which it is considered desirable to raise, we have had a most remarkable demonstration of the energy and patriotism of the young men of this country. We propose to organize this splendid material into four new armies, and, although it takes time to train an army, the zeal and goodwill displayed will greatly simplify our task. The Divisions of the first two Armies are now collected at our training centres. The third Army is being formed on new campaign grounds. The fourth Army is being created by adding to the establishment of the reserve battalions, from which the units will be detached and organized similarly to the other three armies. The whole of the special reserve and extra special reserve will be maintained at their full establishments, as feeders to the Expeditionary Force. In addition to the four new armies, a considerable number of what may be designated local battalions have been specially raised by the public-spirited initiative of cities, towns, or individuals. Several more are in course of formation, and I have received many offers of this character.

EARL KITCHENER'S TRIBUTE TO THE TERRITORIALS.

Figures have already been given of the strength of the Territorials and the fact was noted that the strength was not up to the establishment. Tens of thousands of men flocked to the colors of the Territorials after the war began; and in his speech in the House of Lords on September 17th, Earl Kitchener paid a noble tribute to the force which Viscount Haldane had organized out of the militia, volunteers and yeomanry in 1907.

"The Territorial Force"—said Lord Kitchener—"is making great strides in efficiency, and will, before many months, be ready to take a share in the campaign. This force is proving its military value to the Empire by the willing subordination of personal feelings to the public good, in the acceptance of whatever duty may be assigned to it in any portion of the Empire. A division has already left for Egypt, a brigade for Malta, and a garrison for Gibraltar. The soldier-like qualities evinced by the force are an assurance to the Government that they may count to the full upon its readiness to play its part wherever the exigencies of the military situation may demand. Nor must I omit to refer to the assistance which we shall receive from the division of the gallant Royal Marines and Blue Jackets now being organized by my right honourable friend the First Lord of the Admiralty. Their presence in the field will be very welcome for their fighting qualities are well known."

NATIONALITY OF RECRUITS.

The latest official recruiting statistics, giving the countries of the United Kingdom from which the recruits were drawn, which were presented to the House of Commons before the adjournment for the autumn recess, were dated September 15th. They covered the forty-two days from August 4th to September 15th, and showed the totals for each country and the percentage of the total male population:

	Recruits.	Percentage.
England.....	396,751	2.41
Scotland.....	64,444	2.79
Ireland.....	20,419	.93
Wales.....	19,966	1.94
Total	501,580	

CARE OF WIVES AND CHILDREN OF THE SOLDIERS.

Mr. Asquith, on the same day that Lord Kitchener made his speech in the House of Lords, explained in the House of Commons the action that the Government had taken for the care of the wives and children of the men of the various fighting forces. With regard to the separation allowance for the Army, said the Premier, the Government have decided for the period of the war, to adopt a scale based on a minimum, inclusive of compulsory allotment, of 12s. 6d. a week, with consequential increases. The scale will be:

- Wife, 12s. 6d., as compared with the present scale of 11s. 1d.
- Wife with one child, 15s., as compared with 12s. 10d.
- Wife with two children, 17s. 6d., as compared with 14s. 7d.
- Wife with three children, 20s., as compared with 16s. 4d.
- Wife with four children, 22s., as compared with 17s. 6d.

The London allowance of 3s. 6d. will remain unaltered. Subject to present conditions, we propose, also, to deal with the case of relatives—such as mothers and sisters—who are dependent upon unmarried soldiers at the front. In cases where the soldier makes an allotment to such dependent, the State will supplement it by a proportionate allowance.

OPENING OF THE WAR SESSION OF PARLIAMENT.

Parliament assembled for the new session 1914-1915 on Wednesday, November 11th. Mr. Asquith, the Premier, in addressing the House of Commons on the war, expressed doubt as to whether it would be of as long duration as some people believed. "However," he continued, "the longer it lasts the more the great resources and strength which the Empire possesses will be available to fill the gaps, to replace the losses, and maintain our position. The Empire is on trial, and the experience of the last three months have inspired us with the confident hope that the longer the trial lasts the more clearly will we emerge from it as the champions of a just cause." In recalling to the House the votes for men and for military forces that had been passed in the preceding session the Premier stated that these three votes for the regular army, not including the Territorial Force, were for 1,186,000 men. "Of that total, he added, "all but 100,000 are already in the service of the Crown."

RECRUITING UP TO NOVEMBER 11TH.

On the eve of the opening of Parliament, on November 10th, it was announced in London that the Government, with a view to stimulating recruiting, was sending to every person whose name was on the electoral rolls for 1915, a blank form to be filled in with the names of the members of his or her household who had already enlisted, and the names of those who were willing to join the forces. With the blank there was enclosed an appeal, signed by the Premier and by Mr. Bonar Law, Leader of the Opposition in the House of Commons, and Mr. Arthur Henderson, Leader of the Labour Group. "We shall need," read this appeal, "all the best the nation can give us of its youth and strength. If we are to repair as far as may be humanly possible the innumerable wrongs inflicted on our allies, if we are to avoid for ourselves the ills which they have suffered, if we are to maintain for our children all that we hold dear in honor and the freedom of our very life as a nation, we must fight with the courage and endurance which won for us the struggles of the past."

On November 20th, the House of Commons passed a vote providing for an additional army of 1,000,000 men. This force is additional to the 1,100,000 men now said to be under arms.

THE BRITISH NAVY AT THE OUTBREAK OF THE GREAT WAR

Up to the outbreak of the Great War, Great Britain had relied for defence chiefly upon her Navy; and with the exception of the four years from 1900 to 1904, when the cost of the Army was swollen by the South African War, the expenditures on the Navy for the last fifty years had always exceeded the amount spent on the

Army. Since 1905 the cost of the Navy has enormously increased, though not in the same proportion as the cost of the navies of Germany, France, Russia and Italy, all of which had doubled or more than doubled their expenditures on naval equipment during these nine years.

THE COST OF THE NAVY UNDER NORMAL CONDITIONS.

When the Naval Estimates were issued on March 12th, 1914, the estimated expenditures by Great Britain for the Navy was placed at £52,261,703, as compared with £37,159,235 for the year 1905-1906. For the seven countries with the navies ranking after that of Great Britain, the comparisons were as follows:

	1905	1914 or 1914-15
France.....	£12,667,856.....	£25,387,306
Russia.....	12,392,684.....	26,149,292
Germany.....	11,300,000.....	23,284,531
Italy.....	5,040,000.....	10,313,009
Austria-Hungary..	3,838,975.....	7,408,196
United States.....	24,444,948.....	30,331,364
Japan.....	2,388,018.....	10,023,919

The personnel of the various navies for the years 1905-6 and 1914 is as follows:

	1905-6	1914
Great Britain.....	£127,657.....	£151,000
Germany.....	40,843.....	79,386
Russia.....	59,822.....	59,427
France.....	54,549.....	69,585
Italy.....	27,492.....	40,063
Austria-Hungary....	11,989.....	23,012
United States.....	50,049.....	67,644

THE NEW NAVAL PROGRAMME.

The cost of the British Navy, had Europe remained at peace, for 1914-1915 would have been £51,550,000, an increase of £5,240,700 as compared with the Estimates for 1913-1914; and of £2,740,700 over the actual cost in 1913-1914, for which supplementary Estimates calling for two and a half millions sterling were presented to Parliament on February 26th, 1914. The Estimates for 1914-1915 called for an increase of 5,000 men and for a ship-building programme of four battleships of the dreadnought type, four light cruisers and 12 torpedo boat destroyers, together with submarines, torpedo boats and subsidiary craft. The total cost of this ship-building programme was estimated at £14,817,000 of which it was expected that only £1,950,000 would be spent during the year. For the completion of the ship-building programmes of previous years £16,423,000 was asked from Parliament when the Naval Estimates were presented—making the total cost of new construction in 1914-1915, as then estimated, £18,373,000, as compared with £14,595,527, the cost of new construction in 1912-1913 and £17,360,000 in 1913-1914.

MORE MEN AND MORE HORSE-POWER FOR THE FLEET.

Of the £2,740,700 increase in the Navy Vote, £420,000 was for the pay and victualling of a larger number of officers and men; £400,000 for fuel and fuel services due to the increased horse-power of the fleet; and the formation of an oil fuel reserve, including tank vessels and storage; £300,000 for the development of the air service; £800,000 for guns, torpedoes and ammunition, and the remainder for increased expenses due to the larger shipbuilding programme. The vote in detail was as follows:

Wages, etc., of officers, seamen, boys, coastguards and Royal Marines.....	£8,800,000
Victualling and clothing for the Navy.....	3,092,000

Medical establishment and services	£292,100
Civilians employed on Fleet Service	115,300
Educational services.....	175,000
Scientific services.....	64,700
Royal Naval Reserve.....	489,000
Shipbuilding, repairs, maintenance:	
Personnel.....	£ 3,989,800
Material.....	7,087,400
Contract work....	14,287,800
	<hr/> 25,365,000
Naval Armaments.....	5,554,300
Works, buildings, repairs.....	3,595,500
Admiralty Office.....	483,500
Naval and Marine pensions and gratuities.....	1,605,900
Civil Superannuation allowances..	399,400

PROGRESS ON NEW SHIPS.

After war broke out there were no statements of the progress of the shipbuilding programme, and no information was made public concerning extra work undertaken under the large credits voted at once by the House of Commons. On April 1st, 1914, Mr. Winston Churchill, First Lord of the Admiralty, informed the House of Commons that the five battleships of the 1913-1914 shipbuilding programme had been laid down, and good progress made on them; also on eight light cruisers, two of which were then already afloat. At that time eight light cruisers of the new shipbuilding programme had also been laid down, and substantial progress had been made on 13 torpedo boat destroyers also of the new programme. Between March 31, 1913 and March 31, 1914, the following ships were completed and became available for service:

Battleships—Iron Duke, Audacious, Ajax and Centurion.

Battle Cruisers—Queen Mary and Australia (the latter for the Commonwealth of Australia).

Light Cruisers—Fearless, Birmingham, Nottingham, Lowestoft and Sydney. (The last of these also for Australia).

Destroyers—Ambuscade, Contest, Spitfire, Sparrowhawk, Hardy, Shark, Paragon, Garland, Lynx, Midge, Ardent, Fortune, Porpoise, Unity, Laertes, Lysander, Lark, Linnet, Laforey, Laval.

Submarines—Seven of the E Class and two of the AE. The latter for Australia were then on the way out.

There were then under construction 13 battleships, 1 battle cruiser, 16 light cruisers, 30 destroyers, 24 submarines, and a number of vessels for oil-carrying and other fleet services.

THE STRENGTH OF THE NAVIES OF THE WORLD.

A comparison of the British Navy with the navies of the other great powers shows that the "sixty per cent. stronger than the next strongest navy" standard, which was formulated by Mr. Winston Churchill, in his speech on the Navy Estimates in 1912, had been well maintained. The old standard was that the British Navy must be ten per cent. stronger than the combined navies of the next two naval powers. If this standard had been adhered to it would mean that the British Navy must exceed by ten per cent. the combined navies of Germany and the United States—as the United States

now takes third place among the naval powers of the world. Such a standard, said Mr. Winston Churchill, on March 17, 1914, had now become quite meaningless. "If you left out the United States," continued the First Lord of the Admiralty, "as common sense would dictate, the next two powers would be Germany and France, which is not a very helpful or reasonable standard to adopt. As a matter of fact in 1914-1915 we shall be conforming to both these tests, absurd and unreasonable though they be. The 60 per cent. standard was adopted by the Admiralty in 1908 or 1909, and publicly announced by me two years ago. That is a building standard for new construction only, and it refers to capital ships only. For cruisers we are following the 100 per cent. standard, and have been for many years, and there are other standards for other classes. The 60 per cent. standard was described by me as follows:—To develop 60 per cent. superiority in vessels of the dreadnought type over the German Navy on the basis of the German fleet law before its latest amendment, and to build at the rate of two keels to one for every ship added to the class by the last amendment or by subsequent amendments. That is the standard that we are following. It is not, of course, eternal; still less could it be made an international binding agreement."

THE NAVIES OF THE POWERS AT WAR.

When war broke out, Great Britain had 34 battleships of the modern dreadnought type, and Germany had 21 fighting ships of the same class. Of the other combatants France had ten modern battleships; Russia, six; and Austria three. Including ships of older types, the figures were Great Britain, 68; Germany, 37; France, 21; Russia, 8; and Austria, 11. Italy had then four modern ships and eleven battleships in all; so that calculating that Great Britain might have had to face the whole of the Triple Alliance without the aid of any other country, the position would have been 34 British dreadnoughts to 28 of the Triple Alliance; and 60 battleships of all classes on the British side to 59 battleships of all classes belonging to Germany, Austria and Italy. With France, Russia and Japan ranged up on the same side as Great Britain, and Italy refusing to go to the aid of her allies, the disproportion of naval strength at the opening of the Great War is a full explanation of Germany's unwillingness to trust her fleet in open waters, and of the ability of Great Britain to keep open the trade routes of the world.

Besides the battleships and battle cruisers, the British Navy in 1914 included an enormous number of smaller vessels. The actual fighting fleet numbered 47 protected cruisers, 65 light cruisers, 25 torpedo boat destroyers, of the largest type—known as fleet leaders, 201 torpedo boat destroyers, and 69 submarines, besides the numerous fleet of small torpedo boats. The number of transports, colliers and attendant craft that could be reckoned as belonging to the Navy when the war broke out was unlimited, because the government in addition to its permanent fleet of these service vessels could draw upon private shipping companies for such vessels—large and small—as might be necessary for the war. Passenger steamers of the larger modern types were taken over by the Government under contracts which they had long had with the steamship companies, and

converted into auxiliary and armed cruisers, for the protection of the trade routes.

The British fleet in March 1914, included no paper strength. The policy of the Admiralty for the last ten years has been to "scrap all boats that were no longer fit for active service," and between 1904 and 1914, 123 fighting ships of the larger classes, including 23 battleships, had either been broken up, sold, or sent to the bottom of the sea after having been used as targets.

THE FAILURE OF THE CANADIAN NAVAL AID BILL.

An explanation of the emergency which made so necessary to Great Britain the help that had been expected from Canada, was forthcoming in the House of Commons, at Westminster, during the debate on the Navy Estimates. "I feel", said Mr. Churchill, in the course of his explanations of the naval situation, "that some of my friends are justified in asking what has occurred to make the Canadian ships so urgently necessary. In July 1912, the Cabinet, having made a new and searching examination into the Mediterranean problem, decided that a British battle squadron must be maintained in that sea. In accordance with that policy I propose to place in the Mediterranean at the end of 1915, a battle squadron, based on Malta, of eight battleships, six of which will be dreadnoughts or Lord Nelsons, and to substitute this force for the four battleships now stationed there. This will make our force in the Mediterranean at the end of 1915, eight battleships, four large armoured cruisers and four light cruisers and sixteen destroyers. That, we consider, will be an adequate representation of our strength for all purposes in the Mediterranean for that year. In order to do this and maintain our independent margin in home waters, it is necessary either that the three Canadian ships should have been laid down in June of last year or that the completion of the 1913-1914 programme should be hastened. The failure of the Canadian Naval Aid Bill obliged us to adopt the second expedient. With the acceleration of these three ships, it will be possible, without impairing our strength at home, to maintain a battlesquadron in the Mediterranean from the latter part of 1915 until the middle of 1916. In the circumstances it is necessary for us to repeat, though on a smaller scale, the course adopted last year, and to begin two ships of the 1914 programme at the earliest possible moment, so as to have them ready in the third quarter of 1916. There are good prospects that the deadlock which has arisen in Canada, will be relieved by the joint action probably of both parties, and that Canada will be able to take some share in her own naval defence and in the common defence of the Empire. Canada as a great and wealthy community ought to make some provision for her own naval defence."

AVIATION SERVICES.

The British aviation services are considered as belonging to both army and navy. There is a rough distinction which allots dirigible balloons to the navy and aeroplanes to the army. This division is, however, more theoretical than practical; and Mr. Churchill gave considerable attention to the air services when the navy estimates were before the House of Commons. Great Britain has never gone in for the enormous dirigible balloons of the Zeppelin type which are a feature of the

German army. Small dirigible balloons which can be packed in boxes and easily transported form part of the equipment of all expeditionary forces of the British army; and both army and navy men are trained in the use of dirigibles and aeroplanes at the Government flying school near Aldershot. When Mr. Churchill went to the Admiralty at the end of 1905, there were four aeroplanes belonging to the British Government. In March, 1914, the Admiralty had 130 aeroplanes, of which 62 were sea-planes, and there were 120 pilots and 20 officers who had taken their air-craft certificates. In the air service altogether there were then 125 officers and 500 men, and by the end of 1914 Mr. Churchill expected that the numbers would be 180 officers, and 1,400 or 1,500 men. "The sea-plane," added Mr. Churchill, when giving these particulars, "has a great future before it. In numbers, quality and experience we are far in front of any other country in sea-plane work, and it is clear that there is a large field of activity open to the sea-plane for purposes of scouting. The first function is scouting at sea, either from the land or from a sea-plane ship, which will take a number of sea-planes out with the fleet, and will enable them to reconnoitre from a moving base. In the second place they will be very useful for watching the coast. We rely for our security on our east coast against raids very largely upon patrol flotillas, which are grouped at strategic points, and can be summoned and diverted to any point where an attempted landing is being made. No assistance can be more valuable than the assistance rendered by aeroplanes in bringing information in regard to which time is vital to the bases where the patrol flotillas are held in readiness."

HORNETS OF THE AIR.

The sea-planes fly by night as well as by day. In ordinary weather they carry wireless telegraphy which enables them to signal 120 miles. "Quite recently," said Mr. Churchill on March 17th, "They have been able to receive a message while in the air." "These sea-planes," he added "would be of great value for the defence of vulnerable points—oil tanks, magazines, workshops, power-houses, and all the other nerve centres of naval power, which have for the last few years been exposed to the indefinite menace of aerial attack. Passive defence against such attack is hopeless and endless. Something may be done and has to be done by the provision of guns and searchlights which train through the entire arc. But the only real security which sound military principles will rely on is that you should be master of your own air. The war aeroplane, flying over its own country, unhampered by floats and close to its own base, must be a far more efficient fighting instrument than any similar air-craft that goes across the sea. When it comes to manœuvring, with the carrying of guns or bombs, the home aeroplane will have decisive advantages over the intruder. In the military wing we are in a position of effective strength, and any hostile air-craft, aeroplane or sea-plane which would reach our coast during the coming year would be promptly attacked in force by a swarm of very formidable hornets."

RECRUITING FOR THE NAVY.

In regard to the personnel of the navy, Mr. Churchill announced on March 17th, that the recruiting for the

navy in 1913-1914 had been very satisfactory. "Not only," he added, "have we got the full number authorized, but we have got the proper proportion of almost every rank and rating. In spite of good trade we have had to raise the standard so as not to overshoot the numbers authorized by parliament. We were 2,000 short of the approved numbers at the beginning of the year. This has been made up, and the additional 5,000 sanctioned by Parliament has now been attained. The additional 5,000 asked for in 1914-1915 raises the total to 151,000 men and officers at the end of the year. In the period 1905-1914 there will have been 17,285 added to the Fleet. In the same period the German increase will be 18,581. The additional increase of 5,000 for which we ask compares with a German increase for this year of 6,210."

READINESS OF THE NAVY.

"We can at this moment," added Mr. Churchill, "man fully our whole fleet on mobilization. There is no shortage of any kind. If war breaks out to-morrow, every ship can be sent to sea with its full complement, and this was also true of the fleet which existed last year." The increase of 5,000 men Mr. Churchill further explained was not for the war fleet of the present but for the fleet of 1916-1917. "It will take time he explained to train the men, and we must not have the ships ready without the men to man them. Above all we must not act too late. In these circumstances we ask authority from parliament to raise an additional 5,000 men. This involves a new and continuous charge of about £400,000 a year, but there will be no difficulty in obtaining the men."

LOSSES AND GAINS UP TO NOVEMBER 14TH, 1914.

In the 102 days from the declaration of war to Nov. 14th, 1914, the losses to the British Navy included five armoured cruisers—Aboukir, Cressy, Hogue, Monmouth and Good Hope; five light cruisers—Amphion, Pegasus, Pathfinder, Hermes and Hawk; one armoured merchantman—the Oceanic; two gunboats and a submarine. There has also been reported the loss of the battleship Audacious, which loss at the time of writing had not been confirmed by the Admiralty. During the same period the Germans lost, in addition to the Goeben and Breslau, which passed into the Turkish navy, one armoured cruiser—Yorcke; seven protected cruisers—Emden, Königsburg, Mainz, Köln, Ariadne, Madgeburg and Hera; four converted cruisers—Kaiser Wilhelm, Trafalgar, Spreewald and Princess Alice; one converted mine-layer—Koenigin Luise; three destroyers and one submarine.

There were added to the British Navy during the same 102 days, in addition to the three monitors in building for Brazil on the Tyne, which were taken over by the British Admiralty and named Severn, Humber, and Mersey, four battleships of the dreadnought type—Agincourt, Benbow, Emperor of India, and Erin; one battle cruiser of the dreadnought type—Tiger; three unarmoured cruisers—Arethusa, Aurora and Undaunted; two flotilla leader destroyers—Broke and Faulkner; and eight large destroyers, three of which have a speed of 34 knots, the other five a speed of 32 knots. The British Navy was consequently considerably more powerful on November 14th, 1914, than it was at the outbreak of the war.

GREAT BRITAIN'S FINANCIAL POSITION AT THE OUTBREAK OF THE WAR

It seems desirable, in a year when the British Empire is embarked in the greatest war in history, to include in the Canadian Almanac some details of the financial position of Great Britain when the war began. War was declared on August 4th, 1914. Statistics as to revenue and debt, however, are not available for a later date than March 31st, the day on which the fiscal year in Great Britain comes to an end.

THE NATIONAL DEBT.

On the eve of the last great European war in which Great Britain was engaged—the war with the French Republic and later with Napoleon, which began in 1793—the National Debt, an institution which dates no further back than the Revolution of 1688—stood at £230,000,000. The beginning of this debt was in 1693, when the Bank of England was chartered, and its capital of £1,200,000 was lent to the Government at eight per cent. interest. By the time peace was made at Ryswick in 1697, the debt amounted to £21,500,000. At the accession of George I in 1714, it stood at £54,000,000; and by 1748, the date of the peace of Aix-la-Chapelle, it had mounted to £78,000,000. At the end of the Seven Years War—1756-1763—it was £139,000,000. In the twelve years that intervened between the Peace of Paris, and the beginning of the American Revolution in 1775, the debt had been reduced to £129,000,000; but at the end of the American Revolution in 1783, it had reached £268,000,000, and at that time it involved an annual charge of £9,437,862.

THE DEBT AND THE NAPOLEONIC WARS.

There was some reduction between 1783 and the beginning of the war with France in 1793, when, as has been stated, the National Debt stood at £230,000,000. The figures moved quickly upwards between 1793 and the Peace of Amiens in 1802; and the second war with France, which ended in 1815, added £420,000,000. When peace was re-established after Waterloo, the debt stood at £885,000,000, and involved an annual charge of £32,000,000 on British tax payers—a charge equal to more than half the expected net return from income and land and house taxes in the fiscal year 1914-1915. Although there were some quite large liquidations between 1815 and 1865, the Crimean War of 1854-1856 gave the National Debt an upward impetus, and in 1865 it stood at £800,457,258.

THE LOW-WATER MARK OF THE DEBT.

This was the high-water mark of the period between the Crimean War and the stupendous conflict now raging in Continental Europe; and by 1899—the year in which the war in South Africa began—the debt reached its lowest point of the period between 1815 and 1914. At the time Kruger declared war, the debt stood at £635,393,734. By 1905, as a result of the South African War, it had mounted to £796,736,491. Liquidation proceeded satisfactorily from 1905 to the end of the fiscal year 1913-1914. In 1907-1908 the debt was reduced by £8,204,000; in 1908-1909 the reduction was £16,838,000; for 1909-1910 it was £12,657,000; and by March 31st, 1914, the debt, funded and unfunded, had been brought down to £707,654,110.

While from time to time, as for instance in the wars with France in the middle of the eighteenth century, immense amounts of this indebtedness had been incurred in defending Great Britain's over-sea possessions, the people of England and Wales, Scotland and Ireland,

are the only people who at any time have been called upon to pay the interest on the National Debt or to contribute to the sinking fund by which it has been reduced.

GREAT BRITAIN'S NORMAL REVENUE AND EXPENDITURES.

The expenditures of Great Britain for 1913-1914 were £205,985,000. Mr. Lloyd George, Chancellor of the Exchequer in the Asquith Administration, submitted his budget for 1914-1915 to the House of Commons on May 4th, 1914. War clouds were even then hovering over eastern Europe; but the budget and the taxes authorized by Parliament were for a normal year. The Chancellor of the Exchequer then expected that the expenditures for 1914-1915—including £51,550,000 for the Navy and £28,845,000 for the various British military forces—would amount to £210,455,000; and as he anticipated that with the taxes as they were in 1913-1914, there would be a deficit of £5,330,000, changes were made in the income tax, in the super-income tax, in the death duties, and in the settled estate duty to produce more revenue. A new tax was imposed on foreign investments; and from these changes in taxation the Chancellor of the Exchequer expected an increase of £8,800,000 in the total revenue.

THE NORMAL SOURCES OF REVENUE.

No account was, of course, taken by Mr. Lloyd George of reduced receipts due to the decline in trade after the outbreak of the war, and he thus summarized his expectations of the yield of the taxes levied in the fiscal year 1914-1915.

Customs and Revenue Duties	£73,000,000
Estate Duties	28,000,000
Stamp Duties	9,900,000
Land Tax and House Duty	2,700,000
Income Tax	45,000,000
Super-income Tax	3,330,000
Land Value Duties	750,000

Total Tax Revenue....£164,875,000

The difference between £164,875,000 and £210,455,000—the total estimated expenditures—was expected to come from the Post Office, which it was expected, would turn in a revenue of £31,750,000, and from crown lands and dividends paid on the shares Great Britain has owned since 1876 in the Suez Canal Company.

A MILLION AND A QUARTER INCOME TAX PAYERS.

The expectation of the Chancellor of the Exchequer was that in 1914-1915, 28,851 persons would pay super-income tax, and that the yield of this sub-division of the income tax would be £7,770,000. Payers of super-income tax are people in receipt of incomes over £3,000 a year; and the estimate was that in 1914-1915 there would be 13,255 paying on incomes between £3,000 and £4,394; 7,820 on incomes between £4,395 and £6,928; 3,390 between £6,929 and £10,072; 2,760 between £10,072 and £17,624; and 1,590 on incomes over £17,624.

The total number of income tax papers in 1914-1915 was estimated by Mr. Lloyd George at 1,240,000, of whom he expected that only 154,000 would pay at the full rate of 1s. 4d. in the pound without any of the deductions or allowances conceded to men and women whose incomes are not in excess of £500 a year. Parliament was in session in the winter of 1914-1915, on account of the war; but up to the time that these pages of the Canadian Almanac went to press, no new taxes to meet the stupendous cost of the war had been imposed.

CANADA AND THE EUROPEAN WAR.

Immediately war was declared, Canadians offered their services; so numerous were the applicants that the first contingent of 33,000 troops, fully equipped, embarked for England on the 27th of September, 1914, but a few weeks after the opening of hostilities. At the present time (November, 1914), a second contingent which will reach at least 15,000, and possibly more, is being made ready.

There are 10,000 officers and men at present doing guard duty and protective service in Canada, and many more such forces can be raised without delay, if they be needed.

In this connection, it may be pointed out that the ability for Canada to forward such a formidable force has been entirely due to the freedom of the seas, secured by the British Navy. Without such a power, of course, not a man could have been moved. It is a feat to be proud of, when we realize that the second greatest navy in existence has been rendered powerless to prevent the transport of this land force from the new world to the old.

GIFTS TO THE MOTHER COUNTRY.

Every Province in Canada has spontaneously come to the front and presented the Mother Country with gifts of articles most required, and cargoes of the products of our fields and forests have safely reached their destination. Private citizens of means have contributed large sums in connection with the raising of certain Canadian units and helping Canada in every way in its efforts to aid in the victorious result of the present campaign.

The following list taken from a British Government return shows gifts of war supplies from Canada and the other Overseas Dominions and Colonies. Besides those mentioned many other gifts both public and private have been made.

Canada—Dominion Government, 98,000,000 lbs. of flour; Alberta, 500,000 bushels of Alberta oats; Nova Scotia, 100,000 tons of Nova Scotia coal; Quebec, 4,000,000 lbs. of cheese; Prince Edward Island, 100,000 bushels of oats, also cheese and hay; Ontario, 250,000 bags of flour; Saskatchewan, 1,500 horses, value \$250,000; New Brunswick, 100,000 bushels of potatoes; British Columbia, 25,000 cases of canned salmon; Manitoba, 4,900,000 lbs. of flour. Australia—Messrs. Cullen and Wallace, Rutherglen, Victoria, 1,000 gallons of port wine; collected by Brisbane Newspaper Company, Limited, 50 cases condensed milk, butter, bacon, beef, condensed milk and arrowroot. Barbados Government, £20,000—accepted in form of sugar. British Guiana Government, 1,000 tons of sugar. Falkland Island Government, £2,500; collected privately, £750, to National Relief Fund. Jamaica Government, sugar. Leeward Islands Government, £5,000—accepted for Prince of Wales' Fund. Mauritius Government, 1,000,000 lbs. of sugar for army, 1,000,000 lbs. of sugar for navy. Southern Rhodesia—the Agricultural Union, maize.

THE DUKE OF CONNAUGHT'S MESSAGE.

His Royal Highness the Duke of Connaught, on the departure of the Canadian Expeditionary Force for Europe, sent them the following message on behalf of the Canadian people. It was read aboard each transport to the officers and men, and was greatly appreciated. The message was as follows:

"On the eve of your departure from Canada I wish to congratulate you on having the privilege of taking part, with the other forces of the Crown, in fighting for the honour of the King and Empire.

"You have nobly responded to the call of duty, and Canada will know how to appreciate the patriotic spirit that animates you.

"I have complete confidence that you will do your duty, and that Canada will have every reason to be proud of you.

"You leave these shores with the knowledge that all Canadian hearts beat for you, and that our prayers and best wishes will ever attend you. May God bless you and bring you back victorious."

(Signed) ARTHUR, F.M.

Governor-General of Canada.

LORD KITCHENER'S ADDRESS TO THE SOLDIERS.

Lord Kitchener has appealed to British subjects to raise more troops, and they are forthcoming, and Canada will not be found lacking in her duty to contribute her full share of trained defenders.

The following soldierly advice was issued by Lord Kitchener in August last to the British soldiers on the eve of their departure to the war. Every soldier was instructed to keep a copy in his active service pay-book.

"You are ordered abroad as a soldier of the King to help our French comrades against the invasion of a common enemy.

"You have to perform a task which will need your courage, your energy and your patience.

"Remember that the honor of the British Army depends on your individual conduct.

"It will be your duty not only to set an example of discipline and perfect steadiness under fire, but also to maintain the most friendly relations with those whom you are helping in this struggle.

"The operations in which you will be engaged will for the most part take place in a friendly country, and you can do your own country no better service than in showing yourself in France and Belgium in the true character of a British soldier by being invariably courteous, considerate and kind.

"Never do anything likely to injure or destroy property, and always look upon rioting as a disgraceful act.

"You are sure to meet with a welcome and to be trusted. Your conduct must justify that welcome and that trust.

"Your duty cannot be done unless your health is sound, so keep constantly on your guard against any excesses.

"In this new experience you may find temptation both in wine and women. You must entirely resist both temptations, and while treating all women with perfect courtesy, you should avoid any intimacy.

"Do your duty bravely. Fear God and honor the King."

(Signed)

KITCHENER,

Field Marshal.

 (a) The Victoria Cross (in imitation of the French Cross of the Legion of Honour) was instituted by Queen Victoria at the close of the Crimean campaign, 1856. It is granted to soldiers and sailors of any rank for a single act of valour, the performance of some signal deed of devotion in the enemy's presence. It is a Maltese Cross, made of gun metal, with a Royal Crown in the centre surmounted by a lion and the words "For Valour" inscribed on a scroll below the Crown. The ribbon is red for the army and blue for the navy. A pension of £10 a year accompanies the decoration.

MILITIA AND DEFENCE OF CANADA.

Previous to the confederation of the Provinces, the defence of this country was entirely in the hands of the Imperial Government, who for that purpose maintained troops in each Province, supported by various local volunteer militia corps. This volunteer militia had, when called upon, rendered most efficient service in times of trouble.

After Confederation the British Government gradually withdrew all the Imperial troops from this country, and at present none remain.

By the British North America Act the command in chief of all naval and military forces of and in Canada was vested in the Sovereign, and the control of the same was placed in the hands of the Dominion Parliament. A Department of Militia and Defence was at the same time established, the first Minister being Sir George E. Cartier, and the first Militia Act was passed in 1868, 31 Vic., chap. 40. The Act was subsequently amended in various ways, especially in 1904, when a new Militia Act was passed (ch. 23, 4 Ed. VII.). By it the Militia of Canada is declared to consist of all the male inhabitants of Canada of the age of 18 years or upwards and under 60, not exempted or disqualified by law, this population being divided into four classes, as follows:

The first class comprises those aged 18 or upwards and under 30, being unmarried or widowers without children.

The second class comprises those between the ages of 30 and 45, being unmarried or widowers without children. The third class comprises those between 18 and 45, being married, or widowers with children.

The fourth class comprises those between 45 and 60.

The following persons are exempt from enrolment and active service at any time: Members of the King's Privy Council for Canada, Judges, Members of the Executive Councils of Provinces, Deputy Ministers of the Federal and Provincial Governments, clergymen and ministers of all religious denominations, professors in colleges and teachers in religious orders, the wardens and officials of all penitentiaries and lunatic asylums, persons physically disabled, and any person being the only son of a widow and her only support. Certain other persons are exempt from service except in case of war.

The Active Militia, or any portion thereof, may be ordered to drill or train for a period of not more than 30 days in each year.

The Militia is divided into Active and Reserve Forces. The Active force is composed of men raised either by voluntary enlistment or by ballot, and the Reserve force consists, practically, of the whole of the efficient men not serving in the Active Militia of the time being.

The period of service, for the Active Militia, is three years; for the Reserve Militia, such as is prescribed.

RIFLE ASSOCIATIONS.

1. Their formation and government are laid down by regulations promulgated in Militia General Orders 88, dated June 1, 1903.

2. Are of two following classes:—

(a) *Military*—consists of persons in the Active Militia, and are managed by officers of the respective units.

(b) *Civilian*—consists of persons in the Reserve Militia, who, while members of any such club or association, are enrolled in such reserve. Are managed under such regulations as may from time to time be issued.

3. Rifle Associations organized under these regulations come under the control of the Department of Militia and Defence.

4. To form an association in a locality requires not less than forty men residing therein, and aged over sixteen years. They must be members of the Active Militia (for Military Associations); or subscribe to the oath of allegiance to His Majesty (for Civilian Associations).

5. A captain is appointed to every Civilian Association, who, with a committee of two members, manage the affairs of the association.

6. The annual subscription to be not less than \$1 each member.

7. A member may resign on three months notice to the captain. The former must return all government property in his possession before the resignation can be accepted.

8. An association may be disbanded for grave irregularities or mismanagement.

9. A member may be expelled by a two-third vote of the association to which he belongs.

10. No man is allowed to belong to more than one association.

11. The District Officer Commanding is charged with the organization, etc., after the necessary papers have been forwarded by him, are recommended at head-

quarters and approved by the Minister of Militia and Defence.

12. An association maintaining a membership of less than forty must disband.

13. In the event of a national emergency, any person who is or has been duly enrolled in any Rifle Association in Canada shall be deemed to be already enrolled in the Reserve Militia of the Dominion.

14. *Rifle*.—The arm used is the '303 rifle, either of Government issue or of *bona fide* Government pattern, and bearing the Government viewer's mark.

15. Associations may be supplied with rifles for the use of members on the captain's requisition and on his furnishing a bond signed by three responsible members, for the safety, preservation, and safe return when required to do so, of all rifles issued to them. (*Note*.—Each rifle is valued at \$25).

16. Under the conditions of the bond, ten rifles may be issued to each association of forty members, and five additional rifles for every twenty additional members, until the stock of rifles available for this purpose be exhausted.

17. *Ammunition*.—200 rounds a year to each member of a Military Association; 100 rounds to each member of a Civilian Association; free issue.

Extra ammunition as follows:—

Lee-Enfield, per 1,000	\$15.00
Miniature Cartridges, per 1,000	3.00

Regulations, published in pamphlet form, give full details and information as to organizing, etc., rifle associations; officers' duties, returns, also standard rules, instructions as to targets and marking, care of arms, rifle ranges, etc. (issued by Dept. of Militia and Defence).

When demanding ammunition on repayment, the amount should be deposited in a Canadian chartered bank, to the credit of the Receiver General, and the Deposit Receipt annexed to the requisition.

CANADIAN TEAMS TO WIMBLEDON AND BISLEY AND OFFICERS THEREOF FROM 1872 TO 1914.

Canada has always been represented by a team of its best shots at the annual Prize Meeting of the National Rifle Association of England. The first matches were held in 1872, at Wimbledon, but since 1890 they take place at Bisley. The most coveted of all prizes, the Queen's—now the King's prize (£250), was won four times by a Canadian: Pte. T. H. Hayhurst, 13th Regt., Hamilton, Ont., in 1895, Pte. J. S. Perry, 6th Regt., D.C.O.R., Vancouver, B.C., in 1904, Pte. W. J. Clifford, 10th Regt. (Royal Grenadiers), Toronto, Ont., in 1911, who also won the Prince of Wales' prize; Pte. W. A. Hawkins, 48th Regt., Toronto, Ont., in 1913. Many

other important prizes have also been captured by Canadians. The Kolopore Cup, contested for by the Mother Country and the Colonies was won nine times by the Canadians: in 1872, '75, '81, '84, '89, '96, '05, '06, and '09. Eight men compose the team.

Canada sends to Bisley twenty representatives to take part in the various matches open to them, and these men are selected by competition held at Ottawa under the Dominion of Canada Rifle Association.

Owing to European War, no D. R. A. matches took place in 1914, and therefore no list can be given of the team to shoot at Bisley, in 1915, if latter meet takes place.

THE CANADIAN RIFLE LEAGUE.

(HEADQUARTERS, OTTAWA, ONT.)

In 1893 the Canadian Rifle League was formed, with Headquarters at Toronto, the moving spirit and chief organizer being Lient. W. R. Pringle, of the 10th Regiment, Royal Grenadiers. Rifle associations from all over the Dominion affiliated, and a series of simultaneous matches on given dates was inaugurated. In 1895, the Honorable the Minister of Militia and Defence granted free ammunition to the League teams, and with one exception this has been the rule since.

Four matches are held annually over King's ranges (200, 500 and 600 yards), and prizes given to the leading teams. Marksmen's certificates, signed by the Minister of Militia and Defence, and the Chief of the General Staff, are issued as follows :

For an average of 94 points out of a possible 105, a first-class special certificate ; for 90 points, a first-class certificate ; for 80 points, a second-class certificate.

The competitions are divided into four series as follows :

The first (military) for teams of city corps of the Active Militia ; the second (military) for units other than city corps ; the third, or civilian series, for teams of Civilian Rifle Associations ; the fourth (sections "A" and "B"), Cadet Corps. The entrance fee per team is \$10. Fees for additional teams from the same organization, \$5 each. Organizations bringing five new men to the Dominion of Canada Rifle Association Meeting get free entry for one team to the C.M.R. League competitions for the following year.

By Militia Order of June 10, 1903, the C.R. League was placed under the supervision of the Militia Department, Ottawa.

The annual meeting of the League takes place at Ottawa during the D. R. Association competitions.

The leading teams in the competitions of 1913 were as follows :

FIRST SERIES:—

1. 103rd Regt., Calgary, 1st Team 4,012

SECOND SERIES:—

1. 76th Regt., Truro, N.S., 1st Team..... 3,936

POSTAL INFORMATION

For List of Officials of Post Office Department, see Dominion Government.

Letter Rates, &c.

Canada.—Letters posted in Canada, addressed to any place within the Dominion, 2 cents per oz. If unpaid, such letters cannot be forwarded, but will be sent to the Dead Letter Office. If partially prepaid, the letter will be forwarded to its destination and double the deficiency charged on delivery. Letters mailed at any office for delivery at or from the same office are charged 1 cent per oz., and must be at least partially prepaid; otherwise they are sent to the Dead Letter Office. All postage must be prepaid by postage stamps.

Post Cards.—From any place in Canada to any place in Canada or to the United States or Mexico, 1 cent each. British and Foreign, 2 cents each.

Private Post Cards.—Besides the Post Cards issued by the Post Office Department, pictorial and other cards of private manufacture duly prepaid by means of postage stamps may be mailed in Canada for delivery within Canada or for transmission to other countries. Private Post Cards for delivery in Canada, U. S. and Mexico, must not exceed a size of 6 inches in length by $3\frac{5}{8}$ inches in width, nor be less than $3\frac{1}{4}$ inches in length by $2\frac{1}{4}$ inches in width. Cards for other countries must not exceed $5\frac{1}{2}$ inches in length by $3\frac{1}{2}$ inches in width, nor be less than 4 inches in length by 3 inches in width. Cards of dimensions not conforming to these regulations are treated as insufficiently paid letters if they bear written communications.

The right-hand half of the face of the ordinary official post cards and of private post cards is to be strictly reserved for the address, postal directions and postage stamps. The left-hand half of the face and the entire back of the card are available for the purposes of the sender, subject to restrictions as to attaching articles to post cards.

Cards bearing the title "Post Card" or its equivalent are admitted to the mails at the rate for printed matter provided they conform to the general regulations respecting printed papers.

United Kingdom, Egypt, and British Possessions and Protectorates.—Postage on Letters, 2 cts. per oz.

Foreign Countries, except United States and Mexico.—Postage on Letters, 5 cents for a letter weighing one ounce or less. For letters weighing over one ounce 5 cts. for the first ounce and 3 cts. for each subsequent ounce or fraction of an ounce.

United States and Mexico.—The rate on letters to the United States and Mexico is the same as in Canada, and at least one rate (2 cents) must be prepaid.

Double the deficient postage is charged on all unpaid or insufficiently paid letters for other countries except the United States and Mexico. Only the deficient postage is collected on over-weight letters for the U. S. and Mexico which are prepaid one rate.

Express or Special Delivery Letters.—Arrangements have been made for the delivery by special messenger daily, except Sunday, between 7 a.m. and 10 p.m., of letters bearing, in addition to the usual prepayment of two cents an ounce, a "Special Delivery" stamp of the value of 10 cts. or ordinary postage stamps of the value of 10 cts., and the words "Special Delivery" legibly written on the upper left hand corner of the envelope, addressed to the following cities in Canada: In Ontario—Toronto, Hamilton, London, Brantford, Kingston, Peterboro', Guelph, Stratford, Windsor, Chatham, Berlin, St. Catharines, Sarnia, St. Thomas, Fort William, Port Arthur, Owen Sound, Niagara Falls, Sault Ste. Marie, Galt, Brockville, Belleville and Ottawa; in Quebec—Montreal, Sherbrooke, St. Hyacinthe, Trois Rivières, Hull and Quebec; in New Brunswick—St. John, Moncton and Fredericton; in Nova Scotia—Halifax, Amherst and Sydney; in Manitoba—Winnipeg and Brandon; in Saskatchewan—Regina, Saskatoon, and Moose Jaw; in Alberta—Calgary, Lethbridge, Strathcona, Medicine Hat and Edmonton; in British Columbia—Victoria, New Westminster and Vancouver; in P. E. Island—Charlottetown. The "Special Delivery" stamp of the value of ten cents may be obtained at any Money Order post office.

Fully paid registered letters bearing "Special Delivery" stamps or ordinary stamps of the value of 10 cts., in addition to the postage and registration fee and the words "Special Delivery," come under the operations of this scheme of special delivery.

International Reply Coupons.—Persons desiring to prepay replies to letters addressed to correspondents in almost all Postal Union Countries, can purchase at any Post Office in this Country coupons exchangeable for postage stamps of the value of 25 centimes (5 cents), at the price of 6 cents.

Registration.

Persons posting letters containing value should be careful to require them to be Registered, and to obtain from

the Postmaster a certificate of receipt for Registration.

The charge for Registration in addition to the Postage is, on all classes of matter, five cents.

Both the Postage charge and Registration fee should, in all cases, be prepaid by stamp.

Registration is not an absolute guarantee against the miscarriage or loss of a letter; but a Registered Letter can be traced where an Unregistered Letter can not, and the posting and delivery or non-delivery can be proven.

The sender of a registered article for delivery in Canada or in any other Postal Union Country, can obtain an acknowledgment of its receipt by the addressee at a cost of 5 cents in addition to the ordinary postage and registration fees.

Indemnity for Registered Articles.

Domestic - (1) In case of the loss in the Postal Service of a registered article posted in Canada for delivery in Canada the addressee, or at the request of the addressee, the sender, is entitled to an indemnity, which in no case shall exceed twenty-five dollars, or the actual value of the lost registered article when the same is less than twenty-five dollars, provided no other compensation or reimbursement has been made therefor.

(2) The indemnity will be paid, provided the loss of the registered article is reported to the Department within one year of the date of posting, upon receipt of sworn statements of the persons concerned,—

(a) that according to the best of knowledge and belief the registered article has been lost in the mails.

(b) as regards the value of the contents of the lost registered article.

(c) as regards the ownership of the same.

(3) No indemnity is given for a registered article which has not been entirely lost in the mails.

(4) No indemnity is given for an article upon which the registration fee has not been paid.

British and Foreign.—Except in cases beyond control (*e.g.*, tempest, shipwreck, earthquake, and war), the Postal Administrations of all countries and Colonies included in the Postal Union undertake to pay an indemnity of 50 francs (\$10) when it is proved to their satisfaction that a letter or packet duly admitted to Registration has been entirely lost whilst in their custody.

1. Newspapers and Periodicals.

Newspapers and periodicals printed and published in Canada and posted from the office of publication.

The general postage rate on newspapers and periodicals *printed and published in Canada* not less frequently than once a month, mailed by the publishers at the post office in the place where they are published, and addressed to regular subscribers or to newsdealers (not resident in the place of publication) in Canada, Mexico, the United Kingdom, and (provided they can be forwarded by direct mail steamers or *via* England) in the following British Possessions:—Barbados, Bermuda, British Guiana, British North Borneo, Ceylon, Cyprus, Falkland Islands, Fiji, Gambia, Gibraltar, Hong Kong, Jamaica, Leeward Islands, Malta, Mauritius, New Zealand, Northern Nigeria, Sarawak, Seychelles, Sierra

Leone, Southern Nigeria, Trinidad and Tobago, Turk's Islands, Union of South Africa (comprising the Provinces of Cape of Good Hope, Natal, Orange Free State and Transvaal), Zanzibar, and Newfoundland, is a bulk rate of $\frac{1}{4}$ cent per pound. The following exception, however, is to be noted:—Newspapers and periodicals published not *more* frequently than once a week and not *less* frequently than once a month, are entitled to pass free to regular subscribers and newsdealers in Canada within a circular area of 80 miles in diameter, having as centre either the place of publication or any established Post Office not more than 40 miles distant therefrom, the choice of a centre within these limits resting with the publisher; and such newspapers and periodicals may also be delivered free to subscribers at the office at which they have been posted, except in cities where the letter carrier system is established. In the latter case ordinary transient newspaper rates are charged.

Copies of legitimate daily newspapers can be mailed by the publishers in Canada to regular subscribers and newsdealers in the United States on prepayment in cash at the rate of 1 cent per pound or fraction thereof and other newspapers and periodicals sent to the United States either by publishers or other individuals are subject to the rate of 1 cent per 4 ounces.

The postage on *bona fide* specimen newspapers, and on papers and periodicals published less frequently than once a month, is 1 cent per lb.

2. British and Foreign Newspapers.

British and Foreign newspapers and periodicals and Canadian newspapers and periodicals posted by newsdealers to regular subscribers.

British and foreign publications as well as Canadian publications, if authorized by the Department may be posted by newsdealers in Canada to subscribers in Canada or Mexico at the rate of 1 cent per lb. They cannot however be posted at that rate for local delivery at places where there is a free letter carrier service. Newsdealers may also post recognized Canadian newspapers and periodicals to regular subscribers in the United Kingdom and British Possessions as mentioned above, at the bulk rate of 1 cent per pound.

3. Transient Newspapers.

Transient newspapers and periodicals include all newspapers and periodicals posted in Canada, *other than Canadian newspapers sent from the office of publication, and British, Canadian and foreign newspapers posted by newsdealers.* When addressed to any place within the Dominion, the United States or Mexico, and, when published in Canada, and addressed to any place in the United Kingdom, or British Possessions as mentioned above, they must be prepaid the following rate by Postage Stamp:—

One cent per four oz. or fraction of four oz.

To countries other than those mentioned above the rate is one cent for two oz. or fraction thereof.

Transient newspapers and periodicals not published in Canada are subject to the ordinary printed matter rate of 1 cent per 2 ozs. when addressed to the United Kingdom or British Colonies.

Books, etc.

A Book Packet may contain any number of separate books. Limit of weight for domestic post (also for United States and Mexico), 5 lbs. (unless consisting of a single book, in which case a weight of 10 lbs. is allowed); for British and foreign post, 4 lbs. 6 ozs. Limit of size, domestic: 30 inches in length by 1 foot in width or depth, but a length of 3 feet 6 inches will be allowed, provided the combined length and girth do not exceed 6 feet; foreign: 18 inches in any direction, unless in the form of a roll, when a length of 30 inches is allowed provided the diameter does not exceed 4 inches.

Book packets must be open at *both ends or both sides*, and must not contain any letter or sealed inclosure.

Books for the use of the blind are free of Canada postage, and correspondence passing between blind persons in raised characters is chargeable at the rate of 1 cent per 2 ozs.

The rate on Book Packets for delivery in Canada, Great Britain, the United States and all Postal Union Countries, is 1 cent per 2 ozs.

Certain Miscellaneous Matter.

Miscellaneous matter, described as under, may pass between places in the Dominion of Canada upon prepayment of the rates indicated below. The regulations do not admit of the transmission by mail to the United Kingdom (or other countries beyond the sea) of miscellaneous matter as such; but a great part of the matter referred to under that head may be forwarded to the United Kingdom and other countries at the rate applicable to books, etc.:—

Matter (other than newspapers and periodicals), wholly in print without reference to process, such as circulars, catalogues, calendars, hand-bills, books, pamphlets, printed forms, maps, prints, drawings, plans (without written specifications) engravings, lithographs, photographs (when not on glass or in cases containing glass, official or private post cards in quantities, sheet music (whether printed or written) instruction books in music, visiting cards, the manuscript of books or newspapers (whether hand-written or type-written) indented or perforated sheets of paper containing characters which can be read by the blind, botanical entomological and mineralogical specimens and the following partly-written and partly-printed matter:—militia and school returns, customs manifests, voters' lists, school or college examination papers, printers' proof sheets with corrections, exhibition entry tickets, municipal assessment rolls, Dominion and Provincial Government returns on official blanks, and all Dominion and Provincial Government documents, statute labor returns and municipal returns in general, etc., on which the rate of postage is 1 cent for each 2 ozs. or fraction thereof. To come within this class the material printed upon must be either paper, cardboard or parchment.

Writing paper specially prepared for the use of the blind transmitted from a recognized Institution for the Blind in Canada to blind persons for their own use is allowed to pass at the rate of 1 cent for each 4 ozs. or fraction thereof; but before any Institution can post such paper at the above rate the Post Office Department

at Ottawa must be satisfied as to its claim to be considered an Institution for the Blind.

No letter or other communication intended to serve the purpose of a letter must be sent or inclosed in any such package or thing mentioned, and the same must be sent in covers open at the ends or sides, or otherwise so put up as to admit of the contents being, if necessary, easily withdrawn for examination by the officers of the Post Office to ensure compliance with this provision (if enclosed in sealed envelopes notched at the ends or sides, or with the corners cut off, letter rate of postage will be charged).

The limit of weight for a packet of miscellaneous matter is 5 lbs., and the general limit of size is 30 inches in length by 12 inches in width or depth, but a length of 3 ft. 6 in. is allowed, provided that the combined length and girth of any packet do not exceed 6 feet.

Legal and commercial papers generally are liable to *letter rate* of postage when posted for delivery within the Dominion of Canada.

Printed or written *requests for return* are recognized on books, miscellaneous matter, samples and parcels of merchandise, addressed to places within the Dominion, and same will be *returned direct to the sender*, subject to the payment by the sender, on delivery to him through the Post Office, of the full amount of postage to which the article was in the first place liable, together with any charges rated thereon on account of any deficiency in the original prepayment.

British and Foreign Post—Commercial Papers.

"Commercial Papers" are understood to comprise all papers or documents written or drawn wholly or partly by hand (except letters or communications of the nature of letters or other papers or documents having the character of an actual and personal correspondence), documents of legal procedure, deeds drawn up by public functionaries, copies of or extracts from deeds under private seal and (whether written or printed on stamped or unstamped paper) way bills, bills of lading, invoices and other documents of a mercantile character, documents of insurance and other public companies, all kinds of manuscript music, the manuscript of books and other literary works, also open letters and post cards of ancient date which have already fulfilled their original purpose and pupils' exercises in original and corrected form but without any comment on the work. The rate is 1 cent per 2 ozs., but each packet must have a minimum prepayment of 5 cents; this prepayment will cover a weight of 10 ozs. No packet must exceed 18 inches in any direction unless in the form of a roll, when a length of 30 inches is allowed, provided the diameter does not exceed 4 inches. The weight must not exceed 4 lbs. 6 ozs.

Samples within the Dominion.

Samples of Merchandise and Goods for sale, not having saleable value and not exceeding 12 ozs. in weight, may be posted in Canada, to be forwarded to any place within the Dominion, on prepayment by Postage Stamp of a rate of 1 cent for each 2 ozs. or fraction thereof under the following regulations:

If insufficiently prepaid the packet will be forwarded charged with double the deficient postage, provided at least 1 cent is prepaid.

Packages of Samples addressed to any place in Canada, may be registered by affixing thereto stamps to the value of 5 cents in addition to the postage rate, and provided such packet be handed into the Post Office for registration.

Samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds drugs, &c., which cannot be sent in open covers, may be enclosed in bags of linen, or such like material, fastened in such a manner that they may be readily opened.

The packet may bear on the *outside* the address of the sender, in addition to the address of the person for whom it may be intended; and also a trade mark or number, and the price of the sample enclosed; *inside*, there must be no enclosure but the samples themselves. The particulars, however, of the trade marks, numbers, and prices may be marked on the articles themselves instead of on the outside of the packet, at the option of the sender.

Articles of saleable value even when intended to serve as samples are not admissible at sample rate.

Goods sent for sale or in execution of an order, however small the quantity may be, or any article sent by one private individual to another, which are not actually trade samples, are not admissible.

Liquids, oils, etc., may be sent by mail in the Dominion if put up carefully in strict accordance with the directions given in the Postal Guide and ascertainable at any post office.

Samples for United Kingdom, United States and Foreign Countries.

Samples of Merchandise, when addressed to places in the United Kingdom, must not exceed 5 lbs. in weight; to the United States, Mexico, and other foreign countries, 12 oz.; and must be prepaid by postage stamp at the following rates:—For the United States and Mexico 1 cent for each 2 oz. or fraction of 2 oz.; for the United Kingdom and other countries:—1 cent per 2 oz. or fraction of 2 oz., with a minimum prepayment of 2 cents covering a weight of 4 oz.

Samples of liquids, oils, glass, etc., are admitted as samples provided they are put up in strict accordance with the directions given in the Postal Guide.

Parcel Post in Canada.

Articles of Mail Matter acceptable at Parcel Post rates include farm and factory products, merchandise of all descriptions such as dry goods, groceries, hardware, confectionery, stationery (including blank books, etc.), seeds, cuttings, bulbs, roots, bedding plants, scions or grafts, and all other matter not included in the first class, and not excluded from the mails by the general prohibitory regulations with respect to objectionable matter.

Parcels containing intoxicating liquors or explosives are expressly prohibited.

The rates of postage on articles accepted for transmission by Parcel Post are as follows:

(a) Five cents for the first pound and 1 cent for each additional pound or fraction thereof, up to four pounds, and 2 cents for each subsequent pound up to eleven pounds within a radius of twenty miles from the place of mailing, irrespective of Provincial boundaries.

(b) Ten cents for the first pound and 4 cents for each subsequent pound or fraction thereof, for all points in the Province in which a package is posted, outside of the twenty mile radius.

(c) Ten cents for the first pound and 6 cents for each additional pound or fraction thereof, for all points outside the Province in which a parcel is posted, and beyond the twenty mile radius, with an additional charge of 2 cents a pound for each Province that has to be crossed to the destination of the parcel, not including the Province in which it is to be delivered up to a maximum of 12 cents a pound.

The three Provinces, Nova Scotia, New Brunswick and Prince Edward Island, are to be considered as one zone.

An additional charge to meet the extra cost of transportation will be made on parcels addressed to or posted at offices in certain outlying districts when such parcels have to be conveyed more than 100 miles by a continuous stage service, such districts to be designated by the Postmaster General.

The charge on any parcel shall not be greater than 1 cent an ounce.

The postage on Parcel Post packets must be prepaid by means of postage stamps securely affixed to the parcels.

An insufficiently prepaid Parcel Post packet is forwarded to destination subject on delivery to payment of double the deficiency, provided at least 1 cent is prepaid. After the additional postage required on any short paid parcel has been collected from the addressee, "postage due" stamps are to be affixed to the parcel and cancelled by the Postmaster.

Parcel Post packets totally unpaid will be sent to the Branch Dead Letter Office.

Parcels must be prepared for mailing in such manner that the contents can be easily examined.

It is desirable that the sender's address should appear either inside the parcel or on the cover. This must be kept distinct from the address proper.

Parcels are, when re-directed, chargeable with additional postage at the rate which would have been chargeable had they been originally mailed from the office of re-direction to the new address, except in cases where the original and the re-directed addresses are both within the delivery of the same Post Office.

The limit of weight for a Parcel Post packet is eleven pounds, and the general limit of size is thirty inches in length by one foot in width or depth, but parcels will be accepted up to 3 ft. 6 in. in length, provided that the combined length and girth do not exceed six feet.

Further information respecting the domestic Parcel Post regulations is obtainable at any Post Office.

Merchandise for United States.

There is strictly speaking no Parcel Post service from Canada to the United States, but packets of merchandise open to inspection, and not exceeding 4 lbs. 6 oz. in

weight, may be posted in Canada for any place in the United States, at the rate of 1 c. for each ounce or fraction of an ounce, to be prepaid by postage stamps. Articles thus sent are subject to customs examination on arrival in the United States, and to the collection of any duty to which they may be found liable.

Parcel Post with the United Kingdom, Newfoundland and other British Colonies and Foreign Countries.

Closed parcels may be exchanged with the United Kingdom, Newfoundland and most foreign countries and British colonies under the following Regulations:—

1. Every Parcel must be fully prepaid by postage stamps.
 2. The dimensions of a Parcel addressed to the United Kingdom must not as a general rule exceed 30 inches in length or 1 foot in width or depth, nor must the combined length and girth of any parcel exceed 6 feet, a length of 3 feet 6 inches is allowed, however, in the case of parcels containing articles such as golf sticks, umbrellas, etc. The dimensions of a Parcel addressed to countries other than the United Kingdom must not exceed 2 feet in length by 1 foot in width or depth. There are some exceptions to this rule, as may be ascertained at any Post Office.
 3. A Parcel must not contain a letter or any writing in the form of a letter, or any explosive, combustible, or dangerous articles.
 4. All Parcels must be securely and substantially packed and closed.
 5. Oils, liquids, etc., can only be forwarded if put up with the same security required in connection with their transmission as samples in the ordinary mails. Fragile articles should be packed with special care.
 6. Each Parcel must be plainly directed, and such direction must include the name and full address of the person for whom the parcel is intended.
 7. For each Parcel the sender must fill up a Customs Declaration. On this form the sender will supply an accurate statement of the contents and value of the Parcel; also the address thereof, with signature and place of abode of the sender. The Customs Declaration must be securely affixed by mucilage or paste to the parcel to which it relates.
- Parcels from the United Kingdom or any other place beyond the Dominion will be liable to Canadian Custom duties, and under existing regulations must be examined for the purpose by an Officer of the Customs *in the presence of the persons addressed.*

Rates and limits of weight vary. See Postal Guide, or enquire at Post Office.

Parcels must be handed to the Postmaster; in no case should they be dropped into a letter box or other receptacle for mail matter.

Prohibited Articles.

All explosive, dangerous or destructive substances, glass bottles or glass in any form liable to break, and all matter subject to speedy decay, all obscene or immoral books, publications, pictures, etc., libellous post cards and letters the covers of which bear words of an offensive character, and letters and circulars relating to illegal lotteries or other fraudulent schemes

Useful Hints.

Register all valuable letters. Transmit money by Postal Notes or Money Orders. Make complaints and inquiries in writing, and address the Postmaster-General at Ottawa. Preserve, and request correspondents to preserve, envelopes of missent or delayed letters. Send to the Postmaster-General envelopes of letters about which you seek information or make complaint. In addressing letters add the name of the *County* and *Province* in which the office addressed is located. Place stamp on the right-hand upper corner of the address side. Put your own name and full address in or on letter, to insure return if it cannot be delivered. In affixing postage stamps moisten the envelope, *not the stamp*. When stamps are moistened the gum is apt to be removed.

Post Office Money Orders.

Owing to the outbreak of the European War, money order business was suspended with Austria, Belgium, Denmark, France, Germany, Holland, Hungary, Italy, Norway, Sweden, Switzerland and any of the countries and places served through those countries, also with Constantinople, Egypt and Luxemburg. The Post Office also made an extra charge of four cents per pound or fraction of a pound on all Orders drawn on the United Kingdom and "Through" countries and all countries and colonies where sterling money is used, and limited the amount which one person could obtain in one day to \$100.00.

In view of these facts and also that the regulations might be still further changed, the usual Table of Foreign Money Orders is omitted from this year's Almanac.

CAPACITY AND DISTRIBUTION OF GRAIN ELEVATORS
IN CANADA.

There was a public elevator at Collingwood, Ontario, at least as early as 1871; and from 1873 to 1885, when under the Treaty of Washington of 1871, and its protocols of 1873, Canadian vessels on the Great Lakes had conditional privileges in the coastwise trade of the United States—privileges confined to inland waters—grain was transported from Chicago and other American lake ports to Collingwood, thence by rail to Toronto, and from Toronto was carried in Canadian vessels to Oswego and Ogdensburg. But the country elevator of the type now common in the prairie provinces seems never to have been established in Ontario, where it was the custom to haul grain in farmers' wagons up an inclined way, and pass it into warehouses from which it was delivered by gravity through shutes into the railway cars.

The first terminal elevator in Canada west of the lakes was built at Port Arthur in 1884; and it was not until 1887 that the existing type of country elevator began to dot the prairie country of Manitoba. The first terminal elevator east of the Great Lakes was built at Montreal by the Canadian Pacific Railway Company in 1885. In the grain year 1913-1914—the year which ended August 31, 1914—the total capacity of all the licensed elevators in the western and eastern divisions—divisions created by the Dominion grain code—was 154,765,000 bushels. The distribution of this vast capacity was as follows:

PROVINCES.	STATIONS.	ELEVA-TORS.	WARE-HOUSES.	CAPACITY, BUSHELS.
Manitoba.....	347	689	6	23,270,000
Saskatchewan..	647	1,465	5	42,995,000
Alberta.....	195	397	11	14,793,000
British Columbia....	6	7	2	562,000
	1,195	2,558	24	81,620,000

	6	27	43,195,000
Totals for West-ern Division.	1,201	2,585	24	124,815,000

PROVINCES.	STATIONS.	ELEVA-TORS.	WARE-HOUSES.	CAPACITY, BUSHELS.
Ontario.....	10	14	18,350,000
Quebec.....	3	5	8,500,000
New Brunswick	2	3	2,500,000
Nova Scotia...	1	1	500,000
Totals east of lakes.....	16	23	29,850,000
Grand Totals..	1,217	25,08	24	154,665,000

At the end of the nineteenth century, or to be more exact in the grain year 1900-1901, there were in Canada only 426 elevators and 97 grain warehouses of a total capacity of 18,329,352 bushels. It was 1905-1906 before the total capacity reached 50,000,000 bushels; and not until 1910-1911 was the hundred-thousand bushel mark passed. In 1905-1906 the only elevators owned and operated by the Dominion Government were those at Halifax and St. John. During the grain season of 1913-1914 the Dominion Government owned and operated a large transfer elevator at Port Colborne; a terminal elevator at Port Arthur; large storage elevators at Moose Jaw and Saskatoon; and elevators for the Dominion Government were also in building at Port Nelson on Hudson Bay, at Calgary, and at Vancouver.

Public ownership of country elevators in the period between 1911 and 1914 became well-established in Manitoba, Saskatchewan and Alberta, in which provinces there were at the end of the grain year 2,552 of these elevators. Of the 687 country elevators in Manitoba, 176 were in 1914 owned by the provincial government; in Saskatchewan, where there were 1,465 elevators, 192 were owned and operated by a grain growers' co-operative company, with Regina as its headquarters—an organization largely aided by the provincial government; while of the 397 elevators in Alberta, 82 were owned by a similar company similarly aided by the government at Edmonton. All these governments, it should perhaps be added, went directly or indirectly into the ownership of country elevators at the urging of the Grain Grower's Association. The same statement applies to the Dominion Government as regards the terminal and storage elevators west of the great lakes.

STEAMSHIP AND STEAMBOAT LINES

IN THE DOMINION OF CANADA.

NOTE.—The numbers opposite each line of steamboats correspond with the numbers used in the list of Post Offices and Railroad Stations following. Inasmuch as steamboat lines are not fixed as are railroads but are constantly changing, this list must be used by shippers and travellers with caution.

a This mark signifies that the line is subject to interruption by the Seasons—Winter in some parts of the country, low water in other parts; "d" or "Daily" means every day except Sunday.

POST OFFICES AND RAILROAD STATIONS IN THE DOMINION OF CANADA.

*The Offices printed in Italics are authorized to issue and pay Money Orders and Postal Notes. The Offices marked * are Savings Bank Offices. † Places marked thus are not Post Offices. Capital letters on right of the Electoral District column indicate the several Provinces of the Dominion, thus:—O, Ontario; Q, Quebec; N S, Nova Scotia; N B, New Brunswick; P E I, Prince Edward Island; M, Manitoba; B C, British Columbia; Alta, Alberta; Sask, Saskatchewan*

The numbers and names placed opposite every place indicate the Railroad or Steamship line on which the place or nearest railway station is situated. See list of Railroads and Steamboats on pages 183 to 188. For Express Companies, see pages 178 to 182.

In the foregoing list the asterisk denotes members of the British House of Lords entitled to the designation of "Right Honourable." Barons Aylmer and de Blaquière are of the peerage of Ireland and not members of the House of Lords. The title of Baron de Longueuil existed prior to the Treaty of Paris (1763), and was duly recognized by Queen Victoria pursuant to that treaty. Sir Wilfrid Laurier, Sir Robert Borden, Sir Charles Tupper, and Sir Charles Fitzpatrick are styled Right

Honourable as members of the English Privy Council. Members of the Canadian Privy Council are designated above by a † and have also the title of Honourable. Judges are distinguished by a † and are also by courtesy or custom Honourable. The English practice is to give the title of Knight Bachelor to members of the Judicial bench, and the Attorney and Solicitor-Generals. *** Senator; hence, honourable.

THE IMPERIAL SERVICE ORDER.

This civil order of distinction was instituted by King Edward VII, August 8, 1902, to more fully recognize the faithful and meritorious services rendered by members of the Civil Services of the various parts of the Empire. The following is a synopsis of the statutes relating thereto :—

- (a) Name.—The Imperial Service Order.
- (b) Consists of the Sovereign, the Prince of Wales, and such Companions as may be appointed.
- (c) Only members of the administrative or clerical branches of Civil Services are eligible to Companionships.
- (d) Number of Companions.—Limited to 425, of whom 250 for the home Civil Service and 175 for Civil Services of Colonies and Protectorates.
- (e) Eligibility.—At least twenty-five years' meritorious service. In Colonies or Protectorates recognized as unhealthy, it is reduced to sixteen years. The periods are not compulsory in special cases of *eminently* meritorious service.
- (f) Description of decoration.—A badge or medallion of gold and enamel, bearing on one side the Imperial and Royal Cypher, and on the reverse "For Faithful Service," both in dark blue enamel on a plaque or shield of Gold, surrounded by a wreath of laurel, surmounted by the Imperial Crown.
- (g) Decoration to be worn on left breast suspended by a ribbon one inch wide.
- (h) Names of those upon whom the decoration is conferred will be published in the *London Gazette*.
- (i) Companions have the privilege of adding the letters "I.S.O." after their names.
- (j) Members of this order are not deprived of eligibility to other orders of knighthood, and *vice versa*.

THE IMPERIAL SERVICE MEDAL.

It is also provided that members not eligible for companionships in the Imperial Service Order may, on retirement after service of twenty-five years or sixteen years, as above explained, receive the "Imperial Service Medal," which is of silver and of a design similar to that of the badge of Companions of the Imperial Service Order.

THE DISTINGUISHED SERVICE ORDER.

This Naval and Military Order of Distinction was instituted by Queen Victoria, September 6th, 1886, as a means of rewarding individual instances of meritorious or distinguished service in war.

Synopsis of the statutes relating thereto:—

(1) This Order is designated the "Distinguished Service Order."

(2) It consists of the Sovereign, and of such Companions as the Sovereign shall appoint.

(3) The Kings and Queens Regnant of the United Kingdom of Great Britain and Ireland, Emperors and Empresses of India, are Sovereigns of the Order.

(4) No person is eligible for this distinction who does not actually hold, at the time of his nomination, a Commission in the Navy, in Land Forces, of Marines, or in the Indian or Colonial Naval or Military Forces, or a Commission in one of the Departments of the Navy or Army, the holder of which is entitled to Honorary or Relative Rank, nor may any person be nominated unless his services shall have been marked by the especial mention of his name, by the Admiral or Senior Naval Officer commanding a Squadron or detached Naval Force, or by the Commander-in-Chief of the Forces in the Field, in despatches for meritorious or distinguished service in the Field, or before the enemy.

(5) Foreign Officers who have been associated in Naval and Military operations with the British Forces are eligible to be Honorary Members of this Order.

(6) Appointment is made by Warrant under Royal Sign Manual, and countersigned by one of the Principal Secretaries of State.

(7) This Order ranks next to and immediately after the Order of the Indian Empire, and the Companions take precedence immediately after the Companions of the said Order of the Indian Empire and shall rank among themselves according to the dates of their respective nominations.

(8) The Badge of the Order consists of a gold cross, enamelled white, edged gold, having on one side, in the centre, within a wreath of laurel, enamelled green, the Imperial Crown in gold, upon a red enamelled ground, and on the reverse, within a similar wreath and on a similar red ground, the Imperial and Royal Cypher V.R.I., and is suspended from the left breast by a red riband, edged blue, of one-inch in width.

(9) The names of these upon whom the decoration is conferred are published in the London *Gazette*, and a registry thereof is kept in the office of the Secretary of State for War.

ORDERS OF KNIGHTHOOD, &c.

The Order of Baronets, the lowest hereditary rank, was instituted in 1611; a Baronet is designated "Sir John Smith, Baronet"—usually written Bart. Taking precedence of Baronets are members of The Most Honourable Privy Council, who are addressed "Right Honourable."

The Order of the Bath, instituted in 1399, and revived in 1725, is divided into three classes—Knights Grand Cross, G.C.B.; Knights Commanders, K.C.B.; and Companions, C.B.

The Order of St. Michael and St. George, instituted in 1818, has also three classes—G.C.M.G., K.C.M.G., and C.M.G.

The Royal Victorian Order, instituted in 1896, has five classes—G.C.V.O., K.C.V.O., C.V.O. Members 4th and 5th classes—M.V.O.

In all Orders of Knighthood the Knights Grand Cross and the Knights Commanders have the prefix "Sir" with the initials of their class following the name. Companions and Members bear no title, but have the letters C.B., C.M.G., M.V.O., as the case may be, attached to their names.

Knights Bachelors are gentlemen unconnected with any order who have received the honour of Knighthood, and are entitled to the prefix "Sir" and to "Knt." after name. They wear no insignia, and rank immediately after Knights Commander of the Victorian Order.

It follows that members of any order of Knighthood may be entitled to several prefixes and affixes, as: Field Marshal The Rt. Hon. Earl Roberts of Kandahar, Pretoria, and Waterford, K.G., K.P., G.C.B., G.C.S.I., G.C.I.E., U.C.; The Rt. Hon. Sir Wilfrid Laurier, G.C.M.G.; The Hon. Sir C. Tupper, Bart, G.C.M.G., C.B.

REGULATIONS REGARDING THE WEARING OF ORDERS, MINIATURE DECORATIONS AND MEDALS WITH EVENING DRESS.

In amplification of the Regulations issued by the Lord Chamberlain's Office on the 13th June, 1912, His Royal Highness the Governor General has been pleased to authorize the following special regulations for the Dominion of Canada.

1. Orders, Miniature Decorations and Medals will be worn with evening dress on the following occasions:—

(a) On all State occasions when the Governor General or Administrator is present.

(b) At dinners and evening parties given by the Governor General or, in his absence, by the Administrator.

(c) At all official military dinners not covered by existing regulations.

2. Orders, Miniature Decorations and Medals may be worn with evening dress on the following occasions:—

(a) At the Opening and Prorogation of Provincial Legislatures.

(b) On all official occasions at the residence of the Lieutenant Governor of a Province, within that Province.

3. The above are the only occasions when Orders, Miniature Decorations, and Medals will be worn with evening dress.

Largest City Circulation of any Canadian Newspaper

Total Oct. 1914, 87,019. In City, 82,186

THE EVENING TELEGRAM's local circulation is greater than the combined local circulation of the *Star* and *News*, or the combined local circulation of the *Globe*, *Mail* and *Empire* and *World*. No other Canadian Newspaper has a circulation in the City of its publication within 30,000 of that of the EVENING TELEGRAM.

THE value of this concentration is acknowledged not only by Toronto retail advertisers, but by general Canadian and U. S. manufacturers marketing their products in Toronto.

MANUFACTURING INDUSTRIES.

The census of the Manufactures of Canada, taken in June, 1911, for the calendar year 1910, denotes a gratifying movement of the country's industrial prosperity during the last decade. Compared with the census of 1901 for the year 1900, it shows an increase in the ten years of 4,568 in the number of working establishments, of \$800,667,122 in the value of capital, of 176,030 in the number of persons employed, of \$127,759,066 in the earnings of salaries and wages, and of \$684,922,264 in the value of products.

The following table gives the principal statistics for the two census years, 1900 and 1910, together with the total increase and the increase per cent. in the decade, viz. :—

COPYRIGHT IN CANADA.

The law of copyright in Canada is to be found in the Revised Statutes of Canada, 1906, Chapter 70, which embodies the provisions of the original Act. Its leading features may be briefly summarized as follows:—

Any person domiciled in Canada, or in any part of the British Possessions, or any citizen of any country which has an International Copyright Treaty with the United Kingdom, who is the author of any book, map, chart or musical composition, or of any original painting, drawing, statue, sculpture or photograph, or who invents, designs, etches, engraves or causes to be engraved, etched, or made from his own design, any print or engraving, and the legal representatives of such person or citizen, shall have the exclusive right to print, reprint, publish, reproduce and sell such works or compositions in whole or in part, and of allowing translations to be printed, reprinted or sold. Sec. 4.

Exception is made as to immoral, licentious, irreligious, treasonable and seditious literary, scientific or artistic work which is not the legitimate subject of such registration or copyright. Sec. 7.

The right of copyright endures for twenty-eight years from the time of recording the copyright. After the expiration of twenty-eight years the copyright may be extended for a further term of fourteen years to the author if he is alive, or if he is dead, to his widow or child or children, but in such case the title of the work secured must be a second time registered and all other conditions fulfilled which are required in regard to original copyrights, and the author or proprietor must publish a notice of such registration once in the *Canada Gazette*. Secs. 19, 20 and 48.

In no case shall the said sole and exclusive right and liberty in Canada continue to exist after it has expired elsewhere. Sec. 5.

A subsequent edition need not be registered unless it contains very important alterations or additions. Sec. 13.

The conditions for obtaining such copyright are:—

(1) That such literary, scientific or artistic work shall be printed and published, or reprinted and republished in Canada, or in the case of works of art, that they shall be produced or reproduced in Canada. Sec. 49.

(2) In the case of paintings, drawings, statuary and sculpture, a written description must be furnished to the Minister of Agriculture. In the case of books, maps, charts, musical compositions, photographs, prints, cuts and engravings, three copies must be furnished to the Minister, one of which is deposited in the library of the Parliament of Canada, and one in the British Museum. Secs. 11 and 12.

(3) The statutory fee must be paid to the Minister of Agriculture. Sec. 24.

(4) There must be inserted in the several copies of every edition on the title page, or on the page immediately following, if it is a book, or if it is a map, chart, musical composition, print, cut or engraving, or photograph, there must be impressed on the face thereof, or if it is a volume of maps, charts, music, engravings or photographs, upon the title page or frontispiece thereof the word, "Copyright, Canada, 19.. (year of registration), by (name of copyright proprietor)," but as regards paintings, drawings, statuary, and sculpture, the signature of the artist is deemed a sufficient notice of such proprietorship. Sec. 14.

A temporary copyright may be obtained when a literary work intended to be published in pamphlet or book form is being first published in separate articles in a newspaper or periodical. The title of the manuscript and a short analysis of the work must be deposited at the Department, and every separate article so published must be preceded by the words, "Registered in accordance with the Copyright Act." Sec. 9.

Temporary copyright secures to the proprietor all the privileges granted by the Copyright Act during the time of preliminary publication. Before being published, however, in book form, the work must be registered. Three copies of the work must be deposited with the application form and the fee.

An interim copyright may be obtained by the author of any literary, scientific or artistic work, or by his legal representatives pending the publication or republication thereof in Canada, by depositing at the Department a copy of the title or designation of such work intended for publication or republication in Canada, but such interim registration does not endure for more than one month from the date of the original publication elsewhere within which period the work must be printed or reprinted and published in Canada. Sec. 15.

The following fees are payable to the Minister of Agriculture:—On registering a copyright \$1.00. On registering an interim copyright 50 cents. On registering a temporary copyright 50 cents. On registering an assignment \$1.00. Certified copy of registration 50 cents. Registering any decision of a court of justice, for every folio 50 cents, etc. Sec. 24.

An action for the recovery of any penalty provided by the Copyright Act must be commenced within two years after the cause of action arises. Sec. 44.

If a book, as to which there is subsisting copyright, under the Copyright Act, has been lawfully published in any part of the British Dominions other than Canada, and if the author has lawfully granted a license to reproduce in Canada an edition or editions of such book designed for sale only in Canada, the Minister may prohibit the importation into Canada of any copies of such book, except with the written consent of the licensee, provided that two copies may be specially imported for the *bona fide* use of any public free library or any university or college library, or for any library of any duly incorporated institution or society for the use of its members. Sec. 28.

An assignment of a copyright, whether as to the whole interest or a part thereof, must be made by an instrument in writing made in duplicate and registered at the department. Both duplicates must be sent to the Department of Agriculture with the statutory fee. One is retained at the department and the other is returned with a certificate of registration to the person depositing it. Sec. 17.

International copyright, regulated by the Berne Convention, 1886, modified by the Act of Paris, 1896, is binding in the following countries:—Great Britain, the British Dominions, Germany, Russia, Belgium, Spain, France, Haiti, Italy, Switzerland, Tunis, Luxembourg, Monaco, Denmark, Japan and Sweden. An author belonging to any one of the countries named has the same rights in the other countries as the laws of his own country allow him. An author not belonging to one of the countries, who publishes for the first time in one of these countries, also has these rights. An author has the exclusive right of authorizing translations of his work during the entire period of his copyright in the country of origin of the work, but unless he has published such a translation within ten years the exclusive right ceases to exist. Serial stories and short stories are protected. Other articles are protected if the periodical bears upon it a general prohibition against translation; but political articles, news of the day and miscellaneous articles are not protected.

Under the Berne Convention the subject or citizen of a Union Country enjoys in Canada the same copyright protection as in his own country.

As to the existing arrangements between Great Britain and the United States with regard to the rights of citizens of each country to obtain copyrights in the other country, it is understood that a United States citizen can obtain copyright in Great Britain by simply exposing for sale a certain number of copies of his work on the day of publication within the British Empire, whereas the British citizen who desires to obtain a copyright in the United States has to have the type of his book set up in the United States and the book manufactured there.

Both the British Empire and the United States require first publication. Simultaneous publication in another country does not invalidate the copyright. Publications on the same day are treated as simultaneous.

The Rules and Forms respecting applications for copyright may be obtained at the Department of Agriculture, Copyright and Trade Marks Branch.

Inventors Can Use Our Machine Shop and Tools

AS many inventors are desirous, and capable, of making their own working models, yet have not the proper machine shop equipment and facilities, we have decided to devote sections of our modern shops to this purpose.

Our buildings will be partitioned off with the necessary machines and tools, and inventors are assured of absolute privacy.

We are the only Manufacturing Patent Attorneys in Canada, and can give you every desired assistance in your work.

PATENTS IN CANADA.

The Patent Office is a Branch of the Department of Agriculture, and the Minister of Agriculture for the time being is the Commissioner of Patents.

Any person who has invented any new and useful art, machine, manufacture or composition of matter, or any new and useful improvement in any art, machine, manufacture or composition of matter, which was not known or used by any other person before his invention thereof, and which has not been in public use or sale with the consent or allowance of the inventor thereof for more than one year previously to his application for patent therefor in Canada, may, on a petition to that effect, presented to the Commissioner, and on compliance with the other requirements of the Act, obtain a patent granting to such person an exclusive property in such invention.

No patent shall issue for an invention which has an illicit object in view, or for any mere scientific principle or abstract theorem.

Any person who has invented any improvement on any patented invention, may obtain a patent for such improvement; but he shall not thereby obtain the right of vending or using the original invention, nor shall the patent for the original invention confer the right of vending or using the patented improvement.

The Patentee or his legal representatives must, within two years from the date of the patent or an authorized extension thereof, commence and continuously carry on in Canada the construction or manufacture of the

invention patented in such manner that any person desiring to use it may obtain it, or cause it to be made for him at a reasonable price at some manufactory or establishment for making or constructing it in Canada. If after twelve months from the granting of the patent, or an authorized extension thereof, the Patentee or his legal representatives imports, or causes to be imported, into Canada the invention for which the patent is granted, such patent shall be void as to the interest of the person so importing.

The Commissioner, upon satisfactory cause being shown, may grant to the Patentee or his legal representatives an extension for a further term not exceeding one year beyond the twelve months during which he may import into Canada the invention; such application must be made within three months before the expiry of the said twelve months.

An Inventor obtaining a patent for his invention in a foreign country before obtaining a Canadian patent, may obtain the latter if same be applied for within one year from the date of the issue of the first foreign patent; and if within three months after the date of issue of a foreign patent the Inventor gives notice to the Commissioner of his intention to apply for a Canadian Patent for such invention, then no other person having commenced to manufacture the same device in Canada during such period of one year shall be entitled to continue the manufacture of the same after the Canadian patent has been obtained without the consent or allowance of the inventor.

Upon application for a patent, or within six months after issue of the patent, the Commissioner may order that, instead of the above provisions as to manufacture in Canada within two years, such patent shall be subject to the following conditions:—Any person, while the patent continues in force, may apply to the Commissioner for a license to make, construct, use and sell the patented invention, and if the Commissioner is satisfied that the reasonable requirements of the public have not been satisfied by reason of the neglect or refusal of the Patentee or his legal representatives to make, construct, use or sell the invention, or to grant licenses for so doing to others on reasonable terms, he may make an order under his hand and the seal of the Patent Office requiring the owner of the patent to grant a license to the person applying therefor upon such terms as to royalties, etc., as the Commissioner deems just, and if the Commissioner makes such an order, and the owner of the Patent refuses or neglects to comply therewith within three Calendar months after a copy of it is addressed to him or to his duly authorized agent, the patent and all rights and privileges thereby granted shall cease and determine.

An application for a patent is made by a petition wherein the title or name of the invention is set forth, and in which the applicant declares that he is the inventor of the invention, as well as placing his domicile at some known and specified place in Canada, and such petition must be verified by affidavit or affirmation of the applicant that he believes he is the inventor of the said invention, and that the statements in the petition are true. Should the inventor be dead, such oath or affirmation may be made by his assignee or legal representative, and with the petition must be filed a specification (in duplicate) of the invention which shall correctly and fully describe the mode of operating same, the contrivances and things claimed as new, and for the use of which exclusive property and privilege is claimed, and shall bear the name of the place where, and date when, made, and shall be signed by the applicant and by two witnesses. In the case of a machine, the specification shall fully explain the principle and several modes in which it is intended to apply, and work out the same; and where the invention admits of illustration by means of drawings, the applicant shall also send in drawings in duplicate, showing clearly all parts of the invention. In all cases in which the invention admits of representation by model, the applicant, if required by the Commissioner, shall also furnish a model of convenient size; and when the invention is a composition of matter, the applicant shall also, on like request, furnish specimens of the ingredients and composition sufficient in quantity for the purpose of experiment.

In the case of conflicting applications for any patent, provision is made for submitting same to the arbitration of three skilled persons, two of whom shall be chosen by the applicants and the third by the Commissioner, and the decision or award in writing of such arbitrators, or of any two of them, shall be final.

A patent is granted for a term of eighteen years, but at the time of the application it is optional for the applicant to pay the fee for the term of six years, or twelve years only, as desired, and, unless further re-

newal payments are made, the patent expires on such dates respectively.

The patent may be assigned, but unless same duly registered in the Patent Office shall be null and void as against any subsequent assignee.

Every person who, without the consent in writing of the Patentee, makes, constructs, or puts into practice any invention for which a patent has been obtained, or who procures such invention from any person not authorized by the patentee, and who uses it, shall be liable to the patentee, or his legal representative, in damages.

Any action for infringement of the patent may be brought in any Court of record having jurisdiction to the amount of the damages claimed in the Province in which the infringement is alleged to have taken place. Proceedings may also be taken in the Exchequer Court, which has jurisdiction over the entire Dominion of Canada.

Every patentee shall stamp or engrave on each patented article sold or offered for sale by him the year of the date of the patent of such article, thus:—"Patented 1898," or as the case may be; or when, from the nature of the article, this cannot be done, then by affixing to it, or to every package where one or more of such articles is or are enclosed, a label marked with a like notice. For violation of this provision there is imposed a penalty not exceeding \$100.00, and, in default of payment thereof, imprisonment for a term not exceeding two months.

Falsely marking an article as patented with the intent of counterfeiting or imitating the stamp, mark, or device of the patent of another person, or of deceiving the public, or offering for sale as patented any article not patented in Canada, is a misdemeanour, and for which there is a fine not exceeding \$200.00, or imprisonment for a term not exceeding three months, or both.

Any intending applicant for a patent who has not yet perfected his invention, and is in fear of being despoiled of his idea, may file in the Patent Office a description of his invention so far, with or without plans, of his own will, and the Commissioner, on payment of the prescribed fee, shall cause the said document, which shall be called a caveat, to be preserved in secrecy, and, if application is made by any other person for a patent interfering in any way therewith, the Commissioner shall forthwith give notice, by mail, of such application to the person filing such caveat, who shall, within three months thereafter, if he wishes to avail himself of the caveat, file his petition, and take the other steps necessary on an application for a patent. The application for the patent must be made within one year from filing of caveat, otherwise the Commissioner is relieved from the obligation of giving notice.

The Government of Canada may, at any time, use any patented invention by paying to the Patentee such sum as the Commissioner reports to be a reasonable compensation for the use thereof.

All specifications, drawings, models, disclaimers, judgments, and other papers, except caveats, shall be open to the inspection of the public at the Patent Office, under such regulations as are adopted in that behalf.

The following fees are payable:—Full fee on patent for 18 years, \$60.00; partial fee for 12 years, \$40.00; partial fee for 6 years, \$20.00; for further term of 12 years, \$40.00; for further term of 6 years, \$20.00; on filing caveat, \$5.00; on registering assignment patent, \$2.00; for copy of patent, with specification, \$4.00.

The disbursements for filing an application in Great Britain are \$25.00; France, \$20.00; Germany, \$5.00, and \$7.50 before issuing patent; Australia, \$20; Russia, \$75.00; British India, \$20.00. The German and French patents cover not only Germany and France but also their colonies. The Russian patent extends to all of the Russian possessions.

The disbursements for filing an application in the Australian States, namely, Queensland, Victoria, New South Wales, South Australia, Western Australia and

Tasmania are \$5.00 on filing of the application, \$10.00 on allowance of same and \$25.00 for preparation of the sealing of patent; New Zealand, \$20.00; Mexico, \$75.00; Natal, \$50.00; Japan, \$75.00; Jamaica, \$150.00.

ONTARIO WORKMAN'S COMPENSATION ACT.

MEMBERS OF THE BOARD.

Chairman—Samuel Price, K.C. *Vice-Chairman*—Alexander W. Wright. *Commissioner*—George A. Kingston.

At the last session of the Ontario Legislature an Act was passed entitled The Workman's Compensation Act. Under this Act a Board is constituted known as the Workman's Compensation Board, appointed by the Lieutenant-Governor in Council. The Board consists of three Commissioners, the Chairman, salary \$10,000, the Vice-Chairman, salary \$3,500, and one Commissioner, salary \$7,500. These commissioners hold office during good behaviour but must retire at the age of seventy-five years. This Board exercises like powers to the Supreme Court and has very wide jurisdiction under the Act. It arranges for assessments, settles amounts of compensation, and generally manages all the business arising out of The Workman's Compensation Act.

The Commissioners must not be interested in any way in any industry to which the Act applies, nor must they be interested in any accident insurance company or in any machinery or device to be used for the prevention of accidents.

The salaries of the Board are paid by the Ontario Government, which also pays an annual contribution of \$100,000 towards the expenses of the Act.

Industries are divided into two classes, first those in which the employers are liable to contribute to the accident fund by means of assessments levied by the Board. These industries are divided into classes in accordance with the following schedule:

SCHEDULE 1.

INDUSTRIES THE EMPLOYERS IN WHICH ARE LIABLE TO CONTRIBUTE TO THE ACCIDENT FUND.

Class 1.—Lumbering, logging, river-driving, rafting, booming, saw-mills, shingle-mills, lath-mills, manufacture of veneer and of excelsior, manufacture of staves, spokes, or headings.

Class 2.—Pulp and paper mills.

Class 3.—Manufacture of furniture, interior wood-work, organs, pianos, piano actions, canoes, small boats, coffins, wicker and rattan ware, upholstering, manufacture of mattresses, or bed springs.

Class 4.—Planing mills, sash and door factories, manufacture of wooden and corrugated paper boxes, cheese boxes, mouldings, window and door screens, window shades, carpet sweepers, wooden toys, articles and wares, or baskets.

Class 5.—Mining, reduction of ores and smelting, preparation of metals or minerals.

Class 6.—Quarries, sand, shale, clay or gravel pits, lime kilns, manufacture of brick, tile, terra-cotta, fire-proofing, or paving blocks, manufacture of cement, asphalt or paving material.

Class 7.—Manufacture of glass, glass products, glass-ware, porcelain or pottery.

Class 8.—Iron, steel or metal foundries, rolling mills, manufacture of castings, forgings, heavy engines, locomotives, machinery, safes, anchors, cables, rails, shafting, wires, tubing, pipes, sheet metal, boilers, furnaces, stoves, structural steel, iron or metal.

Class 9.—Car shops.

Class 10.—Manufacture of small castings or forgings, metal wares, instruments, utensils and articles, hardware, nails, wire goods, screens, bolts, metal beds, sanitary, water, gas or electric fixtures, light machines, typewriters, cash registers, adding machines, carriage mountings, bicycles, metal toys, tools, cutlery, instruments, sheet metal products, buttons of metal, ivory, pearl or horn.

Class 11.—Manufacture of agricultural implements, threshing machines, traction engines, waggons, carriages, sleighs, vehicles, automobiles, motor trucks, toy waggons, sleighs or baby carriages.

Class 12.—Manufacture of gold or silverware, plated-ware, watches, watch-cases, clocks, jewellery, or musical instruments.

Class 13.—Manufacture of chemicals or explosives, corrosive acids or salts, ammonia, calcium carbide, gasoline, petroleum, petroleum products, celluloid, gas, charcoal, artificial ice, gunpowder or ammunition.

Class 14.—Manufacture of paint, colour, varnish, oil, japans, turpentine, printing ink, printers' rollers, tar, tarred, pitched or asphalted paper.

Class 15.—Distilleries, breweries, manufacture of spirituous or malt liquors, alcohol, wine, vinegar, mineral water or soda waters.

Class 16.—Manufacture of non-hazardous chemicals, drugs, medicines, dyes, extracts, pharmaceutical or toilet preparations, soaps, candles, perfumes, non-corrosive acids or chemical preparations, shoe-blackening or polish.

Class 17.—Milling, manufacture of cereals or cattle foods, warehousing or handling of grain, or operation of grain elevators.

Class 18.—Packing houses, abattoirs, manufacture or preparation of meats, or meat products, or glue.

Class 19.—Tanneries.

Class 20.—Manufacture of leather goods and products, belting, saddlery, harness, trunks, valises, boots, shoes, gloves, umbrellas, rubber goods, rubber shoes, tubing, tires or hose.

Class 21.—Manufacture of dairy products, butter, cheese, condensed milk or cream.

Class 22.—Canning or preparation of fruit, vegetables, fish or foodstuffs, pickle factories, and sugar refineries.

Class 23.—Bakeries, manufacture of biscuits or confectionery, spices or condiments.

Class 24.—Manufacture of tobacco, cigars, cigarettes or tobacco products.

Class 25.—Manufacture of cordage, ropes, fibre, brooms or brushes, work in manilla or hemp.

Class 26.—Flax mills, manufacture of textiles or fabrics, spinning, weaving and knitting manufactories, manufacture of yarn, thread, hosiery, cloth, blankets, carpets, canvas, bags, shoddy or felt.

ONTARIO WORKMAN'S COMPENSATION ACT—*Continued.*

Class 27.—Manufacture of men's or women's clothing, white wear, shirts, collars, corsets, hats, caps, furs or robes.

Class 28.—Power laundries, dyeing, cleaning or bleaching.

Class 29.—Printing, photo-engraving, engraving, lithographing, embossing; manufacture of stationery, paper, cardboard boxes, bags of wall-paper; and book-binding.

Class 30.—Heavy teaming or cartage; safe-moving or moving of boilers, heavy machinery, building stone and the like; warehousing, storage.

Class 31.—Stone-cutting or dressing; marble works; manufacture of artificial stone.

Class 32.—Steel building and bridge construction; installation of elevators, fire-escapes, boilers, engines or heavy machinery.

Class 33.—Brick-laying, mason-work, stone-setting, concrete work, plastering; and manufacture of concrete blocks.

Class 34.—Structural carpentry.

Class 35.—Painting, decorating or renovating; sheet metal work and roofing.

Class 36.—Plumbing, sanitary or heating engineering, operation of passenger or freight elevators, theatre, stage or moving pictures, including the operation of passenger or freight elevators used in connection with an industry to which this schedule does not apply or in connection with a warehouse or shop or an office or other building or premises.

Class 37.—Sewer construction, deep excavation, tunnelling, shaft-sinking and well-digging.

Class 38.—Construction, installation or operation of electric power lines or appliances, and power transmission lines.

Class 39.—Construction or operation of telegraph and telephone lines.

Class 40.—Road-making or repair of roads and machinery.

Class 41.—Construction or operation of railways.

Class 42.—Shipbuilding.

Class 43.—Navigation.

Class 44.—Dredging, subaqueous construction or pile driving.

The Board has power to re-arrange any of the classes, or form new classes, or, if thought advisable, may subdivide any class into sub-classes.

Separate accounts are to be kept of the amounts collected and expended in each class, but the Accident Fund is deemed to be one and indivisible.

When in the opinion of the Board the ways, works, machinery or appliances in any industry are defective or inadequate, the Board may levy an additional assessment on such industry or may exclude it from the class in which it is included.

ALTERATIONS TO SCHEDULE 1.

By an Order-in-Council passed 26th November, 1914, the following alterations and additions were made to Schedule 1:

Lumber yards (including the delivery of lumber) carried on in connection with saw mills, and the creosoting of timbers, are added to Class 1.

Manufacture of artificial limbs, cork articles, cork carpets and linoleum, and picture framing and cabinet work are added to Class 3.

Lumber yards (including the delivery of lumber) carried on in connection with planing mills or sash and door factories, and manufacture of matches and shade rollers are added to Class 4.

Cooperage, not including the making of staves or headings, is added to Class 4.

Boring and drilling, including sinking artesian wells (except when done by an employer coming under Class 13) and manufacture of calcium carbide, carborundum and alundum are added to Class 5 and removed from any other class in which they might otherwise respectively be.

Manufacture of sewer pipe, plaster blocks or plaster board, and manufacture of slate or roof tile are added to Class 6.

Classes 6 and 31 are united as Class 6.

Manufacture of shot is added to Class 8.

Manufacture of dry batteries, cameras, sporting goods, fire arms, wind mills, ivory articles, rubber stamps, pads or stencils is added to Class 10.

Machine shops not elsewhere included in Schedule 1 or Schedule 2, and the industry of carrying on a blacksmith shop, are added to Class 10.

Classes 9 and 11 are united as Class 11.

Manufacture, transmission and distribution of natural or artificial gas and operations connected therewith, the cutting, storing, handling and delivery of natural ice, as well as the handling and delivery of artificial ice, and the manufacture of wood alcohol and celluloid articles are added to and included in Class 13, and wood alcohol is withdrawn from any other class in which it might otherwise be.

Manufacture of fireworks, gunpowder, ammunition, nitroglycerine, dynamite, gun-cotton and other high explosives is constituted into sub-class (a) of Class 13.

Manufacture of methylated spirits is added to Class 15.

Manufacture of yeast, baking powder and mucilage is added to Class 16.

Operation of threshing machines, clover mills and ensilage cutters is added to Class 17.

Manufacture of fertilizer not incidental to any other industry is added to Class 18.

Manufacture of whips, trusses and imitation leather is added to Class 20.

Manufacture of salt and the manufacture of starch of all kinds are added to Class 22 and are removed from any other class in which either of them might otherwise have been included.

Classes 21, 22 and 23 are united as Class 22.

Manufacture of tents, awnings and articles not otherwise specified made from fabrics or cordage; the erecting of awnings by the manufacturer; and the manufacture of asbestos goods, hair cloth and other hair goods are added to Class 26.

Classes 25 and 26 are united as Class 26.

Manufacture of feathers and artificial flowers is added to Class 27.

Manufacture of papier maché articles is added to Class 29.

Teaming and cartage, including the hauling for hire by means of any vehicle, howsoever drawn or propelled, of any commodity or material, and scavenging, street cleaning, and removal of snow or ice, are added to Class 30.

Bridge building, not included in Schedule 2, and the erection of windmills are added to Class 32 of Schedule 1 and excluded from any other class in Schedule 1 in which they might otherwise have been included.

ONTARIO WORKMAN'S COMPENSATION ACT—Continued.

Lathing, the installation of pipe organs, and house wrecking and house moving are added to Class 33.

Classes 33 and 34 are united as Class 33.

Gas and steam-fitting are added to Class 36.

The operation of freight or passenger elevators where no workman is specially employed therefor is withdrawn from Schedule 1, and, subject thereto, the operation of freight or passenger elevators in any industry included in any class in Schedule 1 is transferred from Class 36 to the class in which such industry is included, but the operation of freight or passenger elevators elsewhere than in such an industry shall remain and be in Class 36.

Maintenance and operation of a waterworks system is added to Class 37.

Deep excavation is withdrawn from Class 37 of Schedule 1 and excavation work for cellars, foundations and canals; and trenching, less than 6 feet deep, for gas pipes, water pipes or wire conduits; and all excavation work where the depth is more than 6 feet and the width is less than half the depth are added to Class 37.

Electric wiring of buildings and installation of lighting fixtures, construction or operation of an electric light system and construction or operation of power plants and electric light works, not included in Schedule 2, are added to Class 38.

Construction or operation of telephone lines and works for the purposes of the business of a telephone company or used or to be used in connection with its business, when constructed or operated by the company as mentioned in paragraph 4 of Schedule 2, except where such telephone lines or works are within the legislative authority of the Parliament of Canada, is removed from Schedule 2 and added to class 38.

Classes 38 and 39 are united as Class 38.

Making or repairing of roads of all kinds not included in schedule 2 is added to Class 41.

Manufacture of asphalt material and paving material is transferred from Class 6 to Class 41.

Classes 40 and 41 are united as Class 41.

Fishing, navigation, and operation of all kinds of vessels, stevedoring, operation of and work upon wharves, towing, operation of dry-docks and marine-wrecking, not included in schedule 2, are added to Class 43 of Schedule 1; and the construction or operation of steam vessels and works for the purposes of the business of a navigation company or used or to be used in connection with its business when constructed or operated by the company as mentioned in paragraph 6 of Schedule 2, is removed from Schedule 2 and added to Class 43 of Schedule 1.

Classes 42, 43 and 44 are united as Class 43.

All industries, trades, businesses and occupations mentioned in section 73 of the Act and not otherwise classified and not included in Schedule 2 shall form a class to be known as Class 73.

INDUSTRIES EXCLUDED FROM THE ACT.

Subject to any provision elsewhere contained respecting operation of elevators, each of the following industries is excluded from the operation of Part I, namely:

- (a) The business of florist or seedsman, seed-growing, gardening and horticulture.
- (b) Hand laundries.
- (c) The business of window-cleaning.
- (d) Barber shops and shoe shine establishments.
- (e) Manufacture of plaster statuary.
- (f) Undertaking and funeral directing.

(g) Mail carrying.

(h) Educational, hospital and surgical work.

(i) Wholesale and retail mercantile business.

(j) Hotel keeping and restaurant keeping.

(k) Public garages, livery stables, auction and sales stables, and conveyances of passengers or passengers and baggage by vehicle.

(l) Taxidermy.

(m) Junk dealing.

(n) The business of an architect.

(o) Excavation other than as specified in Regulation 33.

(p) Every industry carried on as part of, and in immediate connection with, and for the purpose of an exclusively retail business dealing in men's or women's clothing, whitewear, shirts, collars, corsets, hats, caps, furs or robes.

INDUSTRIES CONNECTED WITH RETAIL BUSINESS.

Each of the following industries when carried on as part of, or in immediate connection with, and for the purpose of an exclusively retail business is excluded from the operation of Part I, namely:

- (a) Watch, clock and jewellery-making and repairing.
 - (b) Boot and shoe making and repairing.
 - (c) Harness making and repairing.
 - (d) The business of an optician.
 - (e) Tinsmithing and tinsmith repairing in shop only.
 - (f) Pipe cutting.
 - (g) Paper cutting.
 - (h) Drug manufacturing.
 - (i) Sausage manufacturing.
 - (j) Meat cutting.
 - (k) Coffee grinding
- and like operations or work.

SMALL INDUSTRIES.

Where less than six workmen are usually employed therein, each of the following industries is withdrawn from the class in Schedule 1 in which it would otherwise be included, namely:

- (a) The cutting or splitting of firewood.
- (b) The manufacture of cheese or butter and the operation of creameries or dairies.
- (c) The construction or operation of telephone lines or works.
- (d) The manufacture of artificial limbs.
- (e) Power laundries, dyeing, cleaning or bleaching establishments.
- (f) Mining (including prospecting and development work) except in producing mines where the workmen are in the employ of the owner, lessee or recorded holder thereof.
- (g) Operation of threshing-machines, clover mills and ensilage cutters.
- (h) Scavenging, street cleaning and removal of snow or ice.
- (i) Manufacture of feathers and artificial flowers.
- (j) Confectioners.

Where less than four workmen are usually employed therein, each of the following industries, when not incidental to an industry under Schedule 1, is withdrawn from the class in Schedule 1 in which it would otherwise be included, namely:

- (a) Machine shops.
- (b) Repair shops.

ONTARIO WORKMAN'S COMPENSATION ACT—Continued.

- (c) Tinsmith shops.
- (d) Carrying on a blacksmith shop.
- (e) Cabinet work.
- (f) Upholstering.
- (g) Picture-framing.
- (h) Maintenance or operation of a waterworks system.
- (i) Manufacture of rubber stamps, pads or stencils.

OTHER REGULATIONS.

The interpretation of words and phrases provided for in section 2 of The Workmen's Compensation Act shall apply to these and all other regulations of The Workmen's Compensation Board.

Except where otherwise specifically provided, every industry which, if carried on by an employer carrying on no other industry, would not be under the operation of Part I, is excluded from the operation of Part I where it is carried on by an employer who is also carrying on an industry or industries which is or are under the operation of Part I.

Subject to any other Regulation of the Board, every undertaking which consists of work or service (for example, the delivery of goods), for which no direct charge is made and which is incidental to an industry under Part I carried on by the employer who performs or renders such work or service, is added to or included in the class in which such industry is included; and when such industry is incidental to an industry not under Part I it is excluded from the operation of Part I.

Subject to any other Regulation of the Board, every undertaking which consists of work or service for which a direct charge is made and which is connected with but not a part of an industry (whether such industry is under Part I or not) carried on by the employer who performs or renders such work or service, and which work or service if carried on separately would be an industry under the operation of Part I, is added to or included in the class of industries in which such undertaking if carried on by itself would be included.

In the second division are included industries in which the employers are individually liable to pay the compensation. These are set out in the following schedule:

SCHEDULE 2.

INDUSTRIES THE EMPLOYERS IN WHICH ARE INDIVIDUALLY LIABLE TO PAY THE COMPENSATION.

1. The trade or business of a municipal corporation, a public utilities commission, any other commission having the management and conduct of any work or service owned by or operated for a municipal corporation, a board of trustees of a police village and a school board.
2. The construction or operation of railways operated by steam, electric or other motive power, street railways and incline railways, but not their construction when constructed by any person other than the company which owns or operates the railway.
3. The construction or operation of car shops, machine shops, steam and power plants and other works for the purposes of any such railway, or used or to be used in connection with it when constructed or operated by the company which owns or operates the railway.
4. The construction or operation of telephone lines and works for the purpose of the business of a telephone company, or used or to be used in connection with its business when constructed or operated by the company.

5. The construction or operation of telegraph lines and works for the purposes of the business of a telegraph company, or used or to be used in connection with its business when constructed or operated by the company.

6. The construction or operation of steam vessels and works for the purposes of the business of a navigation company, or used or to be used in connection with its business when constructed or operated by the company.

7. The operation of the business of an express company which operates on or in conjunction with a railway, or of sleeping, parlor or dining cars, whether operated by the railway company, or by an express, sleeping, parlor or dining car company.

FORMATION OF ASSOCIATIONS AND COMMITTEES.

The employers in any of the classes for the time being included in Schedule 1 may form themselves into an association for accident prevention, and may make rules for that purpose. They may also appoint a committee of themselves consisting of not more than five employers to watch over their interests.

If the Board is of opinion that an association so formed sufficiently represents the employers in the industries included in the class, the Board may approve such rules, and when approved by the Board and by the Lieutenant-Governor in Council they shall be binding on all the employers in industries included in the class.

COMPENSATION FOR ACCIDENTS.

All accidents to workmen are to be compensated for excepting where injury:

(a) Does not disable the workman for the period of at least seven days from earning full wages at the work at which he was employed, or

(b) Is attributable solely to the serious and wilful misconduct of the workman unless the injury results in death or serious disablement.

Compensation is computed from the date of the disability. The following is a synopsis of the schedule of compensation, but persons interested should consult the Act, where full details are given:

COMPENSATION.

Where death results from an injury the amount of the compensation shall be:

(a) The necessary expenses of the burial of the workman not exceeding \$75.

(b) Where the widow or an invalid husband is the sole dependant a monthly payment of \$20.

(c) Where the dependants are a widow or an invalid husband and one or more children, a monthly payment of \$20, with an additional monthly payment of \$5 for each child under the age of 16 years, not exceeding in the whole \$40.

(d) Where the dependants are children a monthly payment of \$10 to each child under the age of 16 years, not exceeding in the whole, \$40.

(e) Where the workman was under the age of 21 years, and the dependants are his parents or one of them, a monthly payment of \$20, ceasing when the workman would have attained the age of 21 years or at such later period as the Board may deem just.

(f) Where the sole dependants are persons other than those mentioned in the foregoing clauses a sum reasonable and proportionate to the pecuniary loss to such dependants occasioned by the death, to be determined by the Board, but not exceeding in the whole \$40 per month.

ONTARIO WORKMAN'S COMPENSATION ACT—Continued.

The compensation payable as provided above shall not in any case exceed 55 per cent. of the average monthly earnings of the workman, and if the compensation payable would in any case exceed that percentage it shall be reduced accordingly, and where several persons are entitled to monthly payments the payments shall be reduced proportionately.

If a dependant widow marries, the monthly payments to her shall cease, but she shall be entitled in lieu of them to a lump sum equal to the monthly payments for two years and such lump sum shall be payable within one month after the day of her marriage.

A monthly payment in respect of a child shall cease when the child attains the age of 16 years or dies.

ALLOWANCE FOR DISABILITY.

Where permanent total disability results from the injury the amount of the compensation shall be a weekly payment during the life of the workman equal to 55 per cent. of his average weekly earnings during the previous twelve months if he has been so long employed, but if not then for any less period during which he has been in the employment of his employer.

Where temporary total disability results from the injury the compensation shall be the same, but shall be payable only so long as the disability lasts.

Where permanent partial disability results from the injury the compensation shall be a weekly payment of 55 per cent. of the difference between the average weekly earnings of the workman before the accident and the average amount which he is earning or is able to earn in some suitable employment or business after the accident and the compensation shall be payable during the lifetime of the workman.

Where temporary partial disability results from the injury the compensation shall be the same, but shall be payable only so long as disability lasts.

CLAIMS FOR COMPENSATION.

The Board determines all claims for compensation and the workman has no right to bring any legal action against his employer in case of accident.

No agreement can be made between the workmen and the employer in connection with the amount of compensation unless it is approved of by the Board, and the employer cannot deduct from the wages of his workman any part of the assessment which he must pay towards the Accident fund.

Injured workmen must submit to medical examination when called upon and provision is made in the Act for a Medical Referee.

Where the employer is individually liable as set out in Schedule 2 above he may, with the approval of the Board, commute the payments in a lump sum and the Board may in certain circumstances require the employer to deposit with them a capital amount, the income from which is sufficient to pay the compensation awarded to an injured workman.

INDUSTRIAL DISEASES.

The following are the principal provisions relating to industrial diseases:

Where a workman suffers from an industrial disease and is thereby disabled from earning full wages at the work at which he was employed or his death is caused by an industrial disease and the disease is due to the nature of any employment in which he was engaged at any time within twelve months previous to the date of his disablement, whether under one or more employments the workman or his dependants shall be entitled to compensation as if the disease were a personal injury, by accident and the disablement were the happening of the accident, unless at the time of entering into the employment he had wilfully and falsely represented himself in writing as not having previously suffered from the disease.

If the workman at or immediately before the date of the disablement was employed in any process mentioned in the second column of Schedule 3 and the disease contracted is the disease in the first column of the schedule set opposite to the description of the process the disease shall be deemed to have been due to the nature of that employment unless the contrary is proved.

Nothing in this section shall affect the right of a workman to compensation in respect of a disease to which this section does not apply if the disease is the result of an injury in respect of which he is entitled to compensation.

SCHEDULE 3.

DESCRIPTION OF DISEASE.	DESCRIPTION OF PROCESS.
Anthrax.	Handling of wool, hair, bristles, hides, and skins.
Lead poisoning or its sequelæ.	Any process involving the use of lead or its preparations or compounds.
Mercury poisoning or its sequelæ.	Any process involving the use of mercury or its preparations or compounds.
Phosphorus poisoning or its sequelæ.	Any process involving the use of phosphorus or its preparations or compounds.
Arsenic poisoning or its sequelæ.	Any process involving the use of arsenic or its preparations or compounds.
Ankylostomiasis.	Mining.

THE BRITISH GOVERNMENT.

THE ASQUITH ADMINISTRATION.

In August, 1914, when the war broke out, Viscount Morley, Mr. John Burns and Mr. C. P. Trevelyan resigned. These resignations entailed a number of promotions and changes in the Ministry. At the War Office there were two changes. Colonel Seely resigned in March in consequence of criticism on his management of Irish difficulties, and was succeeded by Mr. Asquith. On the outbreak of the war Mr. Asquith resigned in favor of Lord Kitchener, who became the non-party head of the War Department. There was little change in the balance of parties in the House of Commons,—Liberals 261, Unionists 288, Labor 37, Nationalists 84; giving a coalition majority of 94 to the Asquith Government.

Prime Minister and First Lord of the Treasury—Rt.

Hon. Herbert Asquith. (Salary, £5,000).

Lord Chancellor—Viscount Haldane (£10,000).

Lord President of the Council, Earl Beauchamp (£2,000).

Secretary for Scotland—Rt. Hon. Thomas McKinnon Wood (£2,000).

Chancellor of the Exchequer—Rt. Hon. D. Lloyd George (£5,000).

First Lord of the Admiralty—Rt. Hon. W. S. Churchill (£4,500).

Chief Secretary for Ireland—Rt. Hon. Augustine Birrell (£4,425).

President of Board of Trade—Rt. Hon. Walter Runciman (£5,000).

President of the Local Government Board—Rt. Hon. Herbert L. Samuel (£5,000).

President of the Board of Education—Rt. Hon. J. A. Pease (£2,000).

President of Board of Agriculture—Lord Lucas (£2,000).

Chancellor of Duchy of Lancaster—Rt. Hon. C. F. G. Masterman (£2,000).

Postmaster-General—Rt. Hon. C. E. Hobhouse (£2,500).

First Commissioner of Works—Lord Emmott (£2,000).

Attorney-General—Sir J. A. Simon, K.C. (£7,000 and fees).

The foregoing form the Cabinet.

Lord Lieutenant of Ireland—Earl of Aberdeen (£20,000).

Lord Chancellor of Ireland—Mr. Ignatius O'Brien, (£8,000).

Junior Lords of Treasury—Mr. W. Wedgwood Benn, Mr. J. W. Gulland and Mr. Wm. Jones (£1,000 each); Mr. Henry Webb (unpaid); Sir Arthur Haworth (unpaid).

Under Secretaries of State:

Home—Mr. Ellis Griffith (£1,500).

Foreign—Mr. F. D. Acland (£1,500).

Colonial—Lord Islington (£1,500).

War—Mr. H. J. Tennant (£1,500).

India—Mr. Charles Roberts (£1,500).

Secretary to the Admiralty—Dr. T. J. Macnamara (£2,000).

Civil Lord of the Admiralty—Mr. George Lambert (£1,000).

Parliamentary Secretaries:

Treasury—Mr. Percy Illingworth (£2,000).

Board of Education—Dr. Christopher Addison (£1,200).

Board of Trade—Mr. J. M. Robertson (£1,200).

Local Government Board—Mr. J. Herbert Lewis (£1,200).

Board of Agriculture—Sir Henry Verney (£1,200).

Financial Secretary to the Treasury—Rt. Hon. E. S. Montagu (£2,000).

Financial Secretary to the War Office—Mr. Harold Baker (£1,500).

Paymaster-General—Lord Strachie (unpaid).

Solicitor-General—Sir Stanley Buckmaster, K. C. (£6,000 and fees).

Lord Advocate for Scotland—Mr. Robert Munro, K. C. (£5,000).

Solicitor-General for Scotland—Mr. Thos. B. Morison (£2,000).

Master of the Horse—Earl of Grenard (£2,500).

Treasurer of the Household—Hon. F. E. Guest (A700).

Comptroller of the Household—Lord Saye and Sele (£700).

Vice-Chamberlain—Mr. G. Howard (£700).

THE OFFICE OF PRIME MINISTER.

By Royal Warrant dated December 6th, 1905, an important change was made in the status of the Prime Minister. Until 1894 the office of Prime Minister, although it had existed for so long, had no official recognition. "Departmentally," Mr. Gladstone once wrote in reference to the Prime Minister, "he is no more than the first-named of five persons by whom jointly the powers of the Local Treasurerships are to be exercised. He is not their master, or otherwise than by mere priority their head, and he has no special function or prerogative under the formal constitution of the office. He has no official rank, except that of Privy Councillor. Eight members of the Cabinet, including five Secretaries of State and several other members of the Government, take official precedence of him. His rights and duties as head of the administration are nowhere recorded. He is almost, if not altogether, unknown to the statute law."

The first official recognition of the office came on March 3rd, 1894, when the "Court Circular" stated that Queen Victoria had offered to the Earl of Roseberry the "post of Prime Minister, vacated by the Right Hon. W. E. Gladstone, M.P." Even after this first official recognition the precedence of the Prime Minister was not determined; and there was no determination of his precedence until the Royal Warrant of December 6th, 1905, which announced "our Royal will and pleasure that in all times hereafter the Prime Minister of us, our heirs and successors, shall have precedence next after the Archbishop of York." Consequently the Prime Minister now has his place between the Archbishop of York and the Lord Chancellor of Ireland, and precedence over every member of his Government except the Lord Chancellor.

THE GOVERNMENT DEPARTMENTS.

THE TREASURY.

Chancellor of the Exchequer—Rt. Hon. D. Lloyd-George.

First Lord of the Treasury—Rt. Hon. Herbert Asquith.

Financial Secretary to the Treasury—Rt. Hon. E. S. Montagu.

Parliamentary Secretary to the Treasury—Mr. Percy Illingworth.

Junior Lords of the Treasury—Mr. W. Wedgwood Benn, Mr. J. W. Gulland, Mr. William Jones, Mr. Henry Webb, Sir Arthur Haworth.

The Treasury, of which the Chancellor of the Exchequer is the political head, provides the means for meeting the charges for the military, naval, and civil services. The Parliamentary heads of each of the spending and administrative departments of the Government are responsible for the estimates for their respective departments; but it is the duty of the Chancellor of the Exchequer, with the permanent Secretary of the Treasury, to check all these estimates before they are submitted to the House of Commons in Committee of Supply. The Cabinet becomes responsible for estimates which have been submitted to Parliament, and the rejection or reduction of an estimate by the House of Commons is tantamount to a defeat of the Government. The duties which bring the Chancellor of the Exchequer most prominently before the country, are those in connection with the Budget. The first Lord of the Treasury is one of its Parliamentary heads; but the duties of the First Lord are little more than nominal, and the

office is usually held by the Leader of the House of Commons. The Parliamentary Secretary to the Treasury is the official title of the Government whip in the House of Commons. The Junior Lords are his assistants. The Financial Secretary represents the Treasury in the House of Commons.

THE FOREIGN OFFICE.

Secretary of State for Foreign Affairs—Sir Edward Grey.
Under Secretary—Mr. F. D. Acland.

All diplomatic intercourse is conducted by the Secretary of State for Foreign Affairs, who is usually of the House of Lords. The office is next in rank and importance to that of Premier, and is sometimes held in conjunction with that office. Ambassadors and consuls receive their instructions from the Foreign Office. Foreign ambassadors in London have their audiences with the Secretary of State, and he also conducts the negotiations for international treaties. The Under Secretary represents the Department in the House of Commons.

THE COLONIAL OFFICE.

Secretary of State for the Colonies—Rt. Hon. Lewis Harcourt.

Under Secretary—Lord Islington.

The Colonial Office dates back to 1660, when a Committee of the Privy Council was appointed for the Plantations, as the Colonies were then called. This Council was continued until 1768, when colonial affairs were placed under the control of a Secretary of State. When the United States secured their independence in 1783, the office of Colonial Secretary was abolished, and colonial affairs were managed from the Home Office. In 1794 the colonies were placed under the care of the Secretary at War. This arrangement was continued until 1854, when the War Department was reconstructed, and separate Secretaryships of State were established for War and for the Colonies. The colonies are divided into three classes. In the first are the Crown colonies, in which the Crown has entire control of legislation, and which are administered from the Colonial office. India and Cyprus are examples of Crown Colonies. In the second class are the colonies with representative institutions, but not responsible government. In these the Crown has a veto on legislation and retains control of the public offices. Such colonies are Ceylon and Jamaica. The third class includes the colonies having responsible government, such as Canada and the Australasian colonies. Since August, 1917, the Colonial Office has been organized in 3 departments (1) Dominion Department, concerned exclusively with the self-governing colonies; (2) Crown Department concerned with Crown Colonies; and (3) Department having charge of legal and financial business. There was then appointed a Permanent Secretary for the Imperial Conference—Mr. H. W. Just being the first holder of the Office.

THE INDIA OFFICE.

Secretary of State for India—Marquis of Crewe.

Under Secretary—Mr. Charles Roberts.

The India Office in its present form dates from 1858, when an Act of Parliament was passed which directed that all the powers and duties hitherto exercised by the old East India Company, or the old Board of Control, should in future be exercised and performed by one of His Majesty's Principal Secretaries of State. At the same time there was established a council to assist the Secretary for India. It consists of not less than ten members nominated by the Secretary. The majority of these members must be men who have served or resided ten years in India, and have not left India more than ten years previous to the date of their appointment. Members hold office for ten years, and under the direction of the Secretary for India, conduct all the business transacted in London in relation to the government of India.

THE HOME OFFICE.

Secretary of State for Home Affairs—Rt. Hon. Reginald McKenna.

Under Secretary—Mr. Ellis Griffith.

The Home Department has the control of the London police force, and also the oversight of the police forces in the counties and municipal boroughs; and, generally speaking, the Department is responsible for the internal peace of the country. Prisons, convict establishments,

criminal lunatic asylums, executions, and all matters connected with the post-judicial execution of the criminal law, come within the purview of the Home Office. It is also responsible for the administration of the factory code, and the laws relating to mining.

THE WAR OFFICE.

Secretary of State for War—Lord Kitchener.

Under Secretary—Mr. H. J. Tennant.

Financial Secretary to the War Office—Mr. Harold Baker.

The Secretary for War has control of the army at home and abroad, and is responsible for its efficiency to the Sovereign and to Parliament. He directs all movements of troops, and all appointments made by the Commander-in-Chief are subject to his approval.

THE ADMIRALTY.

First Lord of the Admiralty—Rt. Hon. Winston S. Churchill.

Civil Lord of the Admiralty—Mr. George Lambert.

Secretary to the Admiralty—Dr. T. J. Macnamara.

The Admiralty, which has charge of the Royal Navy, is administered by Lords Commissioners. The head of the Department, who is always of the Cabinet, is known as the First Lord of the Admiralty. The other Lords Commissioners or Junior Lords are officers without seats in Parliament, and are respectively at the heads of the departments into which the Admiralty is divided. The foreign movements of ships are at the instance of the Cabinet, the Foreign Office, and the Colonial Office, and it is from these authorities that the Lords of the Admiralty receive their orders. In time of war the orders go from the Cabinet. At other times the movements of vessels are directed by the Foreign Office and the Colonial Office.

THE BOARD OF EDUCATION.

President—Rt. Hon. J. A. Pease.

Secretary—Dr. Christopher Addison, M.D.

The Education Department exercises supervision over the various departments of state-aided education, and distributes the grants for education annually made by Parliament. These grants date from 1833; and in 1839 the Committee of Council for Education was established. The Vice-President was always of the House of Commons, and he was practically the Minister of Education. On the 1st of April, 1900, the Committee of Council for Education came to an end, and the powers it had exercised since 1839, enormously increased, however, since 1870, were transferred to a new State Department known as the Board of Education. The new Board was created under an Act of Parliament passed in the ordinary session of 1899. It consists of a President, the Principal Secretaries of State (these are the Secretaries for Foreign Affairs, for Colonial Affairs, for the Home Department, for War, and for India), the First Commissioner of the Treasury, and the Chancellor of the Exchequer. With the creation of this new Board there was for the first time a direct and general connection between the Government and secondary schools in England. Heretofore the Committee of Council had been concerned chiefly with elementary education, except as regards the Science and Art Department. Now, however, inspectors representing the Board of Education may visit the secondary schools, and a connection is established between these schools and the municipal councils. With the new Board of Education there was also created a Consultative Committee, which was to keep a register of teachers, and advise the Board on any matters referred to it. Universities and other bodies concerned in education are represented on the Consultative Committee. At the formation of the Balfour Government in 1902, and the retirement of Sir J. Gorst, Vice-President, the Marquis of Londonderry became the first President of the Board and Sir W. R. Anson the first Secretary.

THE LOCAL GOVERNMENT BOARD.

President of the Local Government Board—Rt. Hon. Herbert Samuel.

Parliamentary Secretary to the Local Government Board—Mr. J. H. Lewis.

This Department dates from the reform of the Poor Law in 1834. From 1834 to 1847 its chief was not of the Ministry nor in Parliament. Up to 1871 it was occupied exclusively with the administration of the

Poor Law. In 1871 it took over from the Home Department numerous duties in connection with municipal government and public health, and its title was changed to the Local Government Board.

THE BOARD OF TRADE.

President of the Board of Trade—Rt. Hon. Walter Runciman.

Parliamentary Secretary to the Board of Trade—Mr. J. M. Robertson.

The Board of Trade is in charge of the administration of the laws relating to limited liability companies, to bankruptcy; and it also has the oversight of all matters connected with the mercantile marine, harbours, canals, railways, and street car lines and electric lighting. The Labour Bureau is a department of the Board of Trade. Its work is confined to the collection and compilation of information of all kinds relating to labour. The Board of Trade also collects information relating to trade and commerce abroad.

THE POST OFFICE.

Postmaster-General—Rt. Hon. C. E. Hobhouse.

Assistant Postmaster-General—Captain Cecil Norton.

The Post Office in England controls the telegraphs, as well as the home and foreign mail departments. The telegraphs have been a Government undertaking since 1869. The Post Office savings banks, of which there are over 12,000, receive sums up to a maximum of £50 in one year, or £200 in all. They also do a life insurance, and an annuity business on lines intended to meet the needs and convenience of the working classes.

The National Insurance Act of 1910 was worked partly through the Post Office, as is also the Old Age Pension Act of 1908.

THE BOARD OF AGRICULTURE.

President of the Board of Agriculture—Lord Lucas.

Parliamentary Secretary to the Board of Agriculture—Sir Henry Verney.

The principal duties of this Department are the administration of the laws for preventing and stamping out cattle disease. It supervises the landing of live cattle imported from abroad.

OFFICE OF PUBLIC WORKS AND BUILDINGS.

First Commissioner of Works—Lord Emmott.

This Department has the custody and supervision of all Royal Palaces and parks, and also of buildings such as the Houses of Parliament, the Palace at Westminster, the Law Courts, and the public offices at Whitehall.

DEPARTMENT OF THE LORD CHAMBERLAIN.

Lord Chamberlain—Lord Sandhurst.

Comptroller of the Household—Lord Saye and Sele.

The Lord Chamberlain's Department has the general supervision of the Royal Household "above stairs," and also various duties towards the Sovereign and the Court. It is through the Lord Chamberlain that presentations at Court are arranged. In cities where there are royal palaces, he acts as the licenser of theatres. The Examiner of Plays is in the Department of the Lord Chamberlain. His sanction is necessary for the production of a play in any theatre in England at which a charge for admission is made.

IRISH AND SCOTCH DEPARTMENTS.

Chief Secretary for Ireland—Rt. Hon. Augustine Birrell.
Sec'y for Scotland—Rt. Hon. Thomas McKinnon Wood.

These Departments for Ireland and Scotland respectively exercise functions very similar to those of the Home Department in England.

Officers of the House of Commons.

Rt. Hon. James William Lowther, elected Speaker in June, 1905 (salary £5,000), was again unanimously re-elected on the opening of the new parliament in February, 1910. Mr. J. H. Whitley, in October, 1911, became Deputy Speaker and Chairman of Committees of Ways and Means (salary £2,500). Sir Courtenay Peregrine Ibert is Clerk of the House (salary £1,800); Henry David Erskine, Sergeant-at-Arms (salary £1,000); and the Venerable A. B. O. Wilberforce, Speaker's Chaplain, with a salary of £400.

MINISTERIAL PENSIONS.

Pensions are granted to ex-holders of Ministerial offices whose private fortunes are inadequate to their maintenance in their station in life. The number of these pensions, the three classes into which they are grouped according to offices held—£800, £1,500, £2,000 a year—and the conditions governing their award are determined by the Political Offices Pensions Act of 1869 (32 and 33 Victoria, c. 60)—an Act which was passed as an amendment to the Pensions Act of 1834. The present pensioners are Lord George Hamilton since 1892 in the first class; Mr. Henry Chaplin and Lord Balfour of Burleigh in the second class. No new pensions have been granted since the Balfour Government went out of office in December, 1905.

THE BRITISH PARLIAMENT.

The British House of Commons, since the Franchise and Redistribution Acts of 1884-5, consists of 670 Members. Geographically, the seats held by these Members are distributed as follows:—

England	465
London	61
Boroughs.....	165
Counties	234
Universities	5
Wales	30
Boroughs	11
Counties	19
Scotland	72
Burghs	31
Counties.....	39
Universities	2
Ireland.....	103
Boroughs	16
Counties	85

Total.....	670

Qualifications for the Parliamentary franchise are various, but generally speaking the franchise is on a democratic basis; so much so, that it is possible for every man who is a householder, and who has been in occupation for a year previous to the enrolment of electors, to vote at a Parliamentary election. There is also a lodger franchise; but in this case the franchise is based upon the rental value of the rooms. It is also governed by the conditions of the tenancy, and but comparatively few men qualify for the lodger franchise, which, unlike the householder franchise, must be

claimed every year. A decision in the law courts, *Kent v. Pittal*, 1905, has brought into prominence the occupier franchise, which is granted to men renting rooms over which they have complete control. These men are not lodgers, and they hold the franchise on the same basis as the householder. Tens of thousands of working men voters were added to the electoral lists in 1906 as a result of this decision, but more recent decisions have considerably curtailed the numbers of men admitted to this form of the franchise.

The electoral rolls are compiled by the local overseers of the poor, as most of the franchises are based on the payment of the poor rate. The rolls are then gone over in open court by the revising barristers, who hold their sessions every year, as a new list of voters is compiled each year. In England the new register comes into effect on December 1st.

At the general election in December, 1910, which was taken on the same register as the election in January, 1910, out of the 7,795,717 voters on the register, 6,189,369 went to the polls; 3,269,770 voting for Liberal, Labor and Nationalist candidates, and 2,919,599 for Conservatives and Unionists.

On an old register, it is generally conceded by both parties that the Liberals suffer more than the Conservatives, on account of the disfranchisement of an undue proportion of working class Liberal voters through removal out of the constituencies.

In the Budget for 1911, which was introduced in the House of Commons on May 16th, provision was made for the payment of salaries of £400 to members of Parliament. The Liberal party had long been pledged to this reform, but the immediate occasion for the change was the embarrassment caused to the Labor party through the decision of the House of Lords in the case of Osborne versus the Amalgamated Society of Railway Servants, that Trade Unions may not legally use their funds for financing Parliamentary Representation. Previous to 1911 Members of the House of Commons received neither salaries nor indemnities. There are no mileage allowances or railway privileges, and Members do not enjoy the privilege of franking their correspondence through the mails.

Parliamentary candidates pay all the costs of elections, including the returning officer's fees and expenses. Deposits to cover these outlays must be made to the returning officer before a candidate can go to the poll. In the counties, the High Sheriffs, or their deputies, act as returning officers. In the self-contained boroughs—that is, in the boroughs which return Members, and are not part of a county division—the Mayor acts as returning officer.

Elections are not held all on one day. A general election usually extends over a month, and, if an elector is qualified in several constituencies, he can vote in each. Only freeholder voters can exercise the franchise in this way, as residence is not a necessary qualification for a freehold vote.

The chief issue in the election of December, 1910, was again the veto power of the House of Lords. The election of January, 1910, gave a popular majority against the veto, but the death of King Edward in April, so shortly after the assembling of the newly elected Parliament, brought about a truce, and a conference of the leaders of the Liberal and Conservative parties was held through the summer of 1910. The first meeting of the conference was held on June 17th, and the failure of the conferees to come to any agreement was announced in November 10. The meetings were in secret, and no report of proceedings has as yet been made public. After this failure, Parliament was dissolved on November 29, and the abolition of the veto of the House of Lords was placed first on the programme of the Liberal party in the elections, the first pollings of which took place on December 3rd, and the last on December 19th. Other questions at issue were social reform, tariff reform, woman's suffrage, and Home Rule for Ireland. The Parliament bill—the Lords' Veto Act—was introduced in the new House of Commons on February 21st, 1911; was sent to the House of Lords after third reading on May 15th; passed the House of Lords on August 10th, and received the Royal Assent on August 18th.

At the time of the dissolution on November 29th, parties in the House of Commons which had been elected in January, 1910, stood as follows:—

Liberals.....	275	} 397
Labor Party.....	40	
Nationalists.....	72	
Independent Nationalists.....	10	
Unionists.....	273	
Government majority.....	124	

The General Elections of December, 1910, effected very little change in the political complexion of the House of Commons. At the completion of the elections the parties stood as follows:—

Liberals.....	272	} 398
Labor Party.....	42	
Nationalists.....	76	
Independent Nationalists.....	8	
Unionists.....	272	
Total.....	670	
Government majority.....	126	

Mr. Speaker Lowther was of the Tory party when he was elected to the Chair in 1905. As has now long been the usage at Westminster, he was re-elected at the opening of the Parliament in 1906, again in 1910, and again when Parliament assembled on January 31st, 1911. In the foregoing enumeration the Speaker, although he takes no sides in the House of Commons is reckoned as belonging to the Conservative party.

The only parties whose strength was distinctly increased at the general election were the Labor Party which gained two members, and the Irish Nationalists. These two parties hold the balance of power in the present Parliament.

Between the General Election of December, 1910, and the reassembling of Parliament in October, 1914, the Asquith Government, as a result of the by-elections had lost eleven seats; the Labor party had lost five seats; and the Unionists had gained sixteen seats, and had lost eight seats to the Conservatives. At the reassembling of Parliament in October 22, 1914, the position of the parties in the House of Commons was:—

Liberals.....	261	} 670
Labor.....	37	
Nationalists.....	76	
Independent Nationalists.....	8	
Unionists.....	288	

The number of members of the House of Lords at the opening of the Parliamentary session in 1914 was 649, made up as follows:—

Hereditary Peers of the United Kingdom	573
Life Peers.....	6
Archbishops and Bishops.....	26
Scottish Representative Peers.....	16
Irish Representative Peers.....	28

Of the 573 peers of the United Kingdom 12 were then minors, and there was one case of contested succession, leaving the voting strength of the House of Lords when Parliament opened, 636.

Only in so far as concerns Scotland is the House of Lords affected by a general election. After a dissolution of Parliament, the Scotch Lords meet at Holyrood Palace, and in accordance with the terms of the Act of Union elect sixteen peers to represent them in the House of Lords. At the election in December, 1910, the sixteen peers chosen to represent Scotland were all of the Unionist Party. At the final division in the House of Lords on the Veto Act, which was taken on the question of whether or not the peers would adhere to the amendments to the Bill, concurrence in which was refused by the House of Commons, 131 peers voted with the Government and 114 voted against. These 131 votes did not, however, represent the Liberal strength in the House of Lords, for a number of the peers and eleven of the bishops voted with the Government in order to avoid the swamping of the House of Lords by the creation of Liberal peers. "I did not vote for the Bill," said the Archbishop of York on this occasion, "I voted against the creation of from 450 to 500 new peers." These votes and those of 30 Unionist peers gave the Government in this final division a majority of 17.

BRITISH IMPORT DUTIES.

British import duties are levied exclusively for revenue. There have been no protective duties since about 1850. The revenue duties imposed up to the reassembling of Parliament on October 22, 1914, were as follows:—

THE POPULATION OF THE UNITED KINGDOM.

The census of the inhabitants of England and Wales, Scotland and Ireland, the Isle of Man and the Channel Islands is taken in the first year of each decade. The enumeration is carried out by means of household schedules—a plan first adopted in 1841. In taking the census for England and Wales in 1911 the enumerators worked under the direction of the 2,009 local registrars, and these again under the direction of the 635 superintendent registrars. The 2,009 registration districts were subdivided into 35,000 enumeration districts.

By means of this machinery the total number of persons returned as living in England and Wales at midnight of Sunday, April 2nd, 1911, was 36,075,269. For Scotland, the total population was returned as 4,759,521; for Ireland, 4,381,951; and for the islands of the British seas—the Isle of Man and the Channel Islands—148,934, making a total population for the United Kingdom of 45,365,675. The following table gives the actual population and the rate of increase in England and Wales for the last 110 years:—

Year.	Population.	Rate of Increase.
1801.....	8,892,536
1811.....	10,164,256	14'00
1821.....	12,000,236	18'06
1831.....	13,896,797	15'80
1841.....	15,914,148	14'27
1851.....	17,927,609	12'65
1861.....	20,066,224	11'90
1871.....	22,712,266	13'21
1881.....	25,974,439	14'36
1891.....	29,002,525	11'65
1901.....	32,527,843	12'17
1911.....	36,075,269	10'91

During the 110 years it will thus be seen that the population of England and Wales has more than quadrupled, and that, roughly speaking, there are now four persons to every one inhabiting the country at the opening of the nineteenth century.

Ireland is the only part of the United Kingdom in which a religious census is taken. According to the returns of the enumerators at the census of 1911, out of the 4,381,951 inhabitants of Ireland, 3,238,056 are of the

Roman Catholic Church; 575,489 are of the Episcopal Church; 439,876 are Presbyterians, and 61,806 are Methodists. In the decrease of population, the Roman Catholics have lost the most, both in actual numbers and proportionately. The loss of the Roman Catholics is reckoned at 2'1 per cent.; of the Episcopalians, 1 per cent.; of the Presbyterians, 0'8 per cent.; and of the Methodists, 0'3 per cent. Of the total population the percentages are:—

Roman Catholics.....	73'9 per cent.
Episcopalians.....	13'1 “
Presbyterians.....	10'0 “
Methodists.....	1'4 “
Scattering.....	1'6 “

POPULATION OF THE OVERSEA DOMINIONS.

The Commonwealth of Australia, the Dominion of New Zealand, and the Union of South Africa took their census in 1911. The figures for Australia were:—

	Males.	Females.	Total.
New South Wales..	857,719	790,491	1,648,210
Victoria.....	654,523	660,477	1,315,000
Queensland.....	329,043	276,000	605,043
South Australia..	207,358	201,200	408,558
Western Australia..	165,373	120,613	285,986
North Australia....	2,748	562	3,310
Tasmania.....	97,336	93,562	190,878

Total population for the Dominion of Australia, 4,455,005. The population of Australia in 1901 was 3,773,801.

The population of the Dominion of New Zealand in 1911 was 531,910 males, 476,658 females; total 1,008,468.

For the Union of South Africa the total population of all races was 5,938,499, as compared with 5,185,824 in 1904. Of these there are 1,278,025 Europeans, compared with 1,116,806; and 4,061,082 natives, as compared with 3,495,104. The other colored inhabitants number 619,392, as compared with 563,914. The feature of the returns for South Africa is the shrinkage in the population of the coast towns with the exception of Durban, and the great growth of Johannesburg, the Reef and Pretoria.

SUCCESSION DUTIES UNDER THE SUCCESSION DUTIES ACT OF ONTARIO.

Property consisting of real and personal property of every description and every estate and interest therein capable of being devised or bequeathed by will or of passing on the death of the owner to his heirs and representatives is subject to Succession Duty, and the value thereof is taken on the basis of the fair market value as on the date of the death of the deceased, less an allowance for reasonable funeral expenses, debts and encumbrances and Surrogate Court Fees.

No duty shall be leviable;—

(a) On any estate the aggregate value of which does not exceed \$10,000.

(b) On property passing by will, intestacy or otherwise to or for the benefit of the grandfather, grandmother, father, mother, husband, wife, child, daughter-in-law, or son-in-law of the deceased where the aggregate value of the property of the deceased does not exceed \$50,000.

(c) Where the whole value of any property passing to any one person does not exceed \$500.

(d) On property devised or bequeathed for religious, charitable or educational purposes to be carried out in Ontario or by a corporation or a person resident in Ontario or on the amount of any unpaid subscription for any like purpose made by any person in his lifetime to any corporation or person mentioned in this subsection for which his estate is liable.

No duty shall be payable in respect of any property:—

(a) Given absolutely more than three years before the death of the donor to a child, son-in-law or daughter-in-law, or to the father or mother of the donor which does not exceed in the case of any one person the sum of \$20,000 in value or amount.

(b) Given by the donor where the gift is proved to have been absolute and to have taken effect in the lifetime of the donor and to have been part of his ordinary and normal expenditure and to have been reasonable, having regard to the amount of his income and the circumstances under which the gift was made; of which property actual and *bona fide* possession and enjoyment shall have been assumed by the donee immediately upon the gift and thenceforward retained to the entire exclusion of the donor or of any benefit to him, whether voluntary or by contract or otherwise.

Nor in respect of property:—

(c) Given by the donor in his lifetime and not exceeding in value the sum of \$500 in the case of any one donee, or

(d) Actually and *bona fide* transferred for a consideration in money or money's worth paid to the transferor for his own use and benefit, except to the extent, if any, to which the value of the property transferred exceeds that of the consideration so paid.

Subject to the above the following duties are payable:—

1. Where the aggregate value of the property exceeds \$50,000, and any property passes in manner hereinbefore mentioned, either in whole or in part to or for the benefit of the grandfather, grandmother, father, mother, husband, wife, child, son-in-law, or daughter-in-law of the deceased, the same or so much thereof as so passes, shall be subject to a duty at the rate and on the scale as follows:—

Where the aggregate value

(a) Exceeds \$50,000 and does not exceed \$75,000, $1\frac{1}{2}$ per cent.

(b) Exceeds \$75,000 and does not exceed \$100,000, 3 per cent.

(c) Exceeds \$100,000 and does not exceed \$150,000, $4\frac{1}{2}$ per cent.

(d) Exceeds \$150,000 and does not exceed \$300,000, $5\frac{1}{2}$ per cent.

(e) Exceeds \$300,000 and does not exceed \$500,000, $6\frac{1}{2}$ per cent.

(f) Exceeds \$500,000 and does not exceed \$750,000, $7\frac{1}{2}$ per cent.

(g) Exceeds \$750,000 and does not exceed \$1,000,000, $8\frac{1}{2}$ per cent.

(h) Exceeds \$1,000,000, 10 per cent.

2. Where the aggregate value of the property exceeds \$100,000 and the value of the property passing in manner hereinbefore mentioned to any one of the persons mentioned in the next preceding subsection exceeds the amount hereinafter mentioned, a further duty shall be paid on the amount so passing in addition to the rates in the next preceding subsection mentioned as follows:—

Where the whole amount so passing to one person

- (a) Exceeds \$100,000 and does not exceed \$200,000, 1 per cent.
- (b) Exceeds \$200,000 and does not exceed \$400,000, 1½ per cent.
- (c) Exceeds \$400,000 and does not exceed \$600,000, 2 per cent.
- (d) Exceeds \$600,000 and does not exceed \$800,000, 2½ per cent.
- (e) Exceeds \$800,000 and does not exceed \$1,000,000, 3 per cent.
- (f) Exceeds \$1,000,000 and does not exceed \$1,200,000, 4 per cent.
- (g) Exceeds \$1,200,000, 5 per cent.

3. Where the aggregate value of the property exceeds \$10,000 and any property passes in manner hereinbefore mentioned, either in whole or in part to or for the benefit of any lineal ancestor of the deceased, except the grandfather, grandmother, father and mother, or to any brother or sister of the deceased or to any descendant of such brother or sister or to a brother or sister of the father or mother of the deceased or to any descendant of such last mentioned brother or sister, the same or so much thereof as so passes shall be subject to a duty at the rate and on the scale as follows:—

Where the aggregate value

- (a) Exceeds \$10,000 and does not exceed \$50,000, 5 per cent.
- (b) Exceeds \$50,000 and does not exceed \$100,000, 10 per cent.
- (c) Exceeds \$100,000, 12½ per cent.

4. Where the aggregate value of the property exceeds \$50,000, and the value of the property passing in manner hereinbefore mentioned to any one of the persons mentioned in the next preceding subsection, except the grandfather, grandmother, father and mother exceeds the amount hereinafter mentioned, a further duty shall be paid on the amount so passing in addition to the duty in the next preceding subsection mentioned as follows:—

Where the whole amount so passing to one person

- (a) Exceeds \$50,000 and does not exceed \$100,000, 1 per cent.
- (b) Exceeds \$100,000 and does not exceed \$150,000, 1½ per cent.
- (c) Exceeds \$150,000 and does not exceed \$200,000, 2 per cent.
- (d) Exceeds \$200,000 and does not exceed \$250,000, 2½ per cent.
- (e) Exceeds \$250,000 and does not exceed \$300,000, 3 per cent.
- (f) Exceeds \$300,000 and does not exceed \$350,000, 3½ per cent.
- (g) Exceeds \$350,000 and does not exceed \$400,000, 4 per cent.
- (h) Exceeds \$400,000 and does not exceed \$450,000, 4½ per cent.
- (i) Exceeds \$450,000, 5 per cent.

5. The additional duty provided for by subsections 2 and 4 shall be payable on the property in Ontario, where the deceased dies domiciled elsewhere than in Ontario,

but for the purpose of fixing the rate of such duty the beneficial interest in property out of Ontario passing to the successor or other person on the same death shall be added to the value of the property in Ontario, and nothing in this Act shall be construed to impose any duty, directly or otherwise, on property out of Ontario owned by any deceased person so domiciled.

6. Where the aggregate value of the property exceeds \$10,000 and any property passes in manner hereinbefore mentioned either in whole or in part, to or for the benefit of any person in any other degree of collateral consanguinity to the deceased than is above mentioned or to or for the benefit of any stranger in blood to the deceased, the same or so much thereof as so passes shall be subject to a duty at the rate and on the scale as follows:—

Where the aggregate value

- (a) Exceeds \$10,000 and does not exceed \$50,000, 10 per cent.
- (b) Exceeds \$50,000 and does not exceed \$1,000,000, 15 per cent.
- (c) Exceeds \$1,000,000, 20 per cent.

Every person applying for Letters Probate or Letters of Administration to the estate of the deceased person must file with the Surrogate Registrar within six months after the death of the deceased or such later time as may be allowed by the Provincial Treasurer, a statement duly verified containing a full inventory in detail of all the property of the deceased and the fair market value thereof at the date of his death as well as showing every person to whom the same passed with their places or residence and degree of relationship in which they stand to the deceased. Provision is also made for subsequent collection of duty on any property not disclosed therein.

Property outside as well as that within Ontario must be set out and if Succession Duties are payable to any other Province or Country with which Ontario has a reciprocal arrangement for so doing, a rebate of the duty on such outside property will be allowed.

No foreign executor can assign or transfer any bond, debenture, stock or share in any bank or other corporation having its head office in Ontario, standing in the name of the deceased person until the duty has been paid and if such bank or corporation permits same it shall be liable for said duty.

The duty may be paid within eighteen months after the death of the deceased without interest, but if not then paid, interest at five per cent per annum will be charged from date of death until the duty is paid. Instead of paying duty security may be given therefor to the satisfaction of the Provincial Treasurer. The executor is prohibited from paying or handing over any property to any of the beneficiaries until payment of duties, but should he do so the duty thereon with an additional rate of fifty per cent. is recoverable against him. Each beneficiary is liable for the duty upon the property passing to him.

There are a number of provisions in the Statute as to the mode of ascertaining the value of property, the amount of duty thereon and the payments thereof and it would be generally advisable to consult a Solicitor to prevent complication and delay.

THE LAW OF INTESTATES ESTATES, PROVINCE OF ONTARIO.

DESCENT AND DISTRIBUTION OF PROPERTY.

As to all persons who died before the first day of January, 1852, the rules of descent are substantially the same as in England at that date.

Real estate of persons who died intestate (*i.e.*, who have left no will) after that date and prior to the first day of July, 1886, descends first to lineal descendants and those claiming by or under them *per stirpes*, second to father, third to mother, and fourth to collateral relatives, subject to certain rules and regulations prescribed in the statute.

The surplus personal estate of intestates who died prior to the first day of July, 1886, is, after the expiration of one full year from the death of the intestate, to be distributed in the following manner: One-third shall go to the widow of the intestate, and the residue in equal proportions to his children, or if dead, to their lineal descendants; if there are no children or legal representatives subsisting, then where the net value of the real and personal estate does not exceed \$1,000, same belongs absolutely to the widow, and as to any excess over and above said amount after payments of debts, etc., the widow takes a moiety, and the other moiety goes to the next of kindred, in equal degree, and their representatives; if no widow, all to children; if neither widow nor children, all to next of kin, in equal degree, and their representatives. But no representation is admitted among collaterals further than children of intestate's brothers and sisters.

All real and personal property of persons dying on or after the 1st day of July, 1886, devolves upon and becomes vested in the legal personal representatives for the period of three years (which may be extended in a prescribed manner) subject to the payment of debts and to the effectual dispositions of deceased. The real and personal property of a married woman, in respect of which she has died intestate, shall be distributed as follows: One-third to her husband, if she leaves issue, and one-half if she leaves none, and subject thereto, shall go as if her husband had predeceased her. The realty and personalty comprised in a residuary devise or bequest is (unless the will otherwise directs) applicable ratably according to their respective value to the payment of the debts.

TABLE SHOWING THE DISTRIBUTION OF PERSONAL PROPERTY OF INTESTATES IN ONTARIO SINCE JULY 1ST, 1886.

<i>If the Intestate die leaving:</i>	<i>His representatives take in the following proportions:</i>
Wife and child or children.....	One-third to wife, rest to child or children; if children dead, then to their representatives (that is, their lineal descendants), except such child or children (not heirs-at-law) who had estate by settlement of intestate or were advanced by him in his lifetime equal to the other shares.
Wife only	Net value of estate not exceeding \$1,000 to wife absolutely. Excess over \$1,000, half to wife; and half to next of kin, in equal degree to intestate, or their legal representatives, or if no next of kin, to the Crown.
No wife or child	All to the next of kin, and to their legal representatives.

Child, children or their representatives.....	All to him, her or them.
Children by two wives.	Equally to all.

Collegiate Institutes and High Schools.

Each of the High Schools (which form the intermediate link between the Public Schools and the Universities) is managed by a Board of Trustees, appointed jointly by the County and Town Councils. In cities the Trustees may be appointed by the City Councils, or may be elected by general vote of qualified electors. Separate School Boards of Trustees have also the right to appoint trustees. The Principal of the High School or Collegiate Institute must be a graduate of a British or Colonial University, and certified as experienced in teaching. Assistants must also have received the prescribed training. Fees are charged in many cases, and local rates must be raised. Every High School should have a Principal and at least two assistant teachers. Each Collegiate Institute receives a fixed amount of \$250, and each High School with fewer than four teachers \$300, other schools \$275, and also a certain sum on salaries of teachers, general equipment and suitability of school premises. High Schools which have complied with certain conditions as to equipment, special teachers, etc., may be made Collegiate Institutes, and receive an additional grant. Special grants ranging from \$40 to \$180 are also given to "Approved Schools." Pupils attending Continuation and High Schools, and Collegiate Institutes may receive training fitting them for business life or the academic standing required of school teachers, or may be prepared for Matriculation to the Universities. There were 48 Collegiate Institutes, 112 High Schools, and 127 Continuation Schools doing the same grade of teaching in connection mainly with the Public and Separate Schools, in Ontario in 1914.

Public Schools.—Each Township is divided into School Sections of a suitable extent for one school; and in each of these Sections three Trustees are elected to manage its school affairs. In Cities, Towns and Villages, the Schools are managed by a Board of School Trustees elected from the Municipality.

TECHNICAL AND INDUSTRIAL SCHOOLS.

The Industrial Education Act of 1911, amended in 1913, provides for the organization of a system of Technical and Industrial Schools for Ontario. These schools are (1) *Day Schools*, as follows:—(a) General Industrial Schools and Courses for instruction in such subjects as may form a basal preparation for the trades, including workshop practice; (b) Special Industrial Schools and Courses, for instruction in the theoretical and practical work of particular trades; (c) Technical High Schools and High School Courses; (d) Part-time co-operative Industrial Courses in which apprentices employed in the workshops may receive instruction bearing upon their trades; (e) Schools and Courses for instruction in the fine and applied arts. (2) *Evening Schools*, in which workmen and workwomen employed during the day may receive theoretical and practical instruction in their trades or callings. Each school is under the control of an Advisory Industrial Committee

appointed by the High School Board of the municipality. This committee consists of an equal number of representatives of the Board and of the manufacturing or other industries of the place. The representatives of the industries are made up equally of employers and employees. The schools are liberally supported by Government grants, based upon the amount paid for the salaries of the teachers, and upon the accommodations and equipment provided. Schools have been established under this Act as follows:—*Day Schools* at Brantford, Haileybury, Hamilton, London, Sault Ste. Marie, Sudbury, Toronto; *Evening Schools* at Berlin, Brantford, Brockville, Collingwood, Cornwall, Drayton, Fort William, Galt, Guelph, Hamilton, Ingersoll, Kingston, London, Oshawa, Ottawa, Owen Sound, Paris, Pembroke, Peterborough, Port Arthur, Port Credit, Renfrew, St. Thomas, Stratford, Smith's Falls, Toronto, Windsor, Woodstock.

DEBENTURES AND BONDS.

In view of the increasing interest taken by all classes of investors in Canadian bonds and debentures, the following elementary notes have been set down in the expectation that they may prove serviceable and helpful:

DEBENTURE OR BOND.

The terms "Debenture" and "Bond" are now used so interchangeably that in financial practice the difference in meaning may be said to be almost technical. Theoretically a bond differs from a debenture in that the former is secured by a mortgage deed of trust containing a charge upon certain specific property, while the latter is merely an acknowledgment of a debt. Both forms of contract covenant to repay the principal amount of the debt at a specified time, with interest thereon in the meantime at a fixed rate.

In Canada we speak of municipal debentures, government bonds and corporation bonds. In the United States the term "debenture" is seldom employed. Municipal, government and corporation securities (debentures or bonds) are invariably referred to as "bonds." There is very little significance to be attached to the mere name of the security, the chief thing which we should be concerned about is the manner in which the obligation is secured, what is behind it, etc.

Let us briefly refer to some of the bonds and debentures which are common to this country.

GOVERNMENT BONDS.

These are the securities issued by the Dominion and Provincial Governments. They, of course, constitute the highest grade of security obtainable, but the rate of interest yielded to the investor is, as might be expected, comparatively low. The bonds of the Dominion rank ahead of those of the Provinces, while those of the older settled Provinces are held in higher esteem than those of the newer ones. London heretofore has been the principal place where our Governments have marketed their bonds, although recently Ontario and Alberta bonds have been successfully offered in Canada and the United States. They carry interest, payable half-yearly, from 4 to 5 per cent., mature in from five to fifty years, and are issued usually in amounts of \$1,000.

MUNICIPAL DEBENTURES.

As this class of investment is most highly regarded by an important and increasing body of investors—large and small—somewhat greater details are given in respect to it. We will include in this classification a reference to School District and Rural Telephone debentures.

Definition—It is an absolute promise of a county, city, town or township to pay a definite amount on a specified date, and also to pay, periodically throughout the term, interest at a stated rate.

Form—In form, it is self-contained. It states the exact amount that the municipality will pay

the holder, and the exact date when it will be paid. When it matures, usually from one to fifty years from date of issue, it is only necessary to deposit it in the bank for collection, or present it to the issuing municipality for payment.

Interest—Attached to each debenture are coupons representing the exact amount of the interest due at the time. Each year or half-year, when an instalment of interest falls due, a coupon is cut off and either presented for payment to the municipality or it may be deposited in the bank. The rate of interest which the debentures of the various municipalities bear differs materially. The large and wealthy cities can, of course, borrow money at a lower rate than that which would have to be paid by relatively small and newer places. The rates are also affected by the monetary conditions at the time the loan is sought. Lately the debentures of the important municipalities have carried interest at $4\frac{1}{2}$ per cent, while those of less importance have been issued with rates at 5, $5\frac{1}{2}$ and 6 per cent.

Validity—The contract is very simple. It resembles, somewhat, a promissory note. It is, however, much more formal and binding, in that, in addition to bearing the signatures of the officials of the municipality and the seal of the corporation, certain formal procedures are required to be taken which absolutely ensure its validity. The investor's rights, therefore, are thoroughly safeguarded.

Purpose—Debentures are issued by cities, towns, etc., to raise money for such useful and essential purposes as schools, sewers, parks, water systems, roads, fire departments, etc. They are, therefore, issued for the betterment of the municipality.

Security—They are secured by the credit of the issuing city or town, etc., and its right and power to levy taxes on all of its taxable property, such taxes being a first charge on all the property in the municipality.

SCHOOL DISTRICT DEBENTURES.

In the Provinces of Manitoba, Saskatchewan and Alberta the school sections of the different municipalities are separate and distinct, and have power, apart from the municipalities, to issue debentures and borrow money for school purposes.

Rural districts in these provinces are divided into small school sections, and are under the supervision of the Commissioner of Education for the Province. Each school section may issue its own debentures. All school debentures issued must be approved and countersigned by the Commissioner of Education or his deputy and when

so signed are a valid and binding obligation of the issuing section and are not open to contest in any court.

RURAL TELEPHONE DEBENTURES.

In the Provinces of Manitoba, Saskatchewan and Alberta provision has been made for the issue of Rural Telephone Debentures, under the supervision of the Minister of Telephones. These debentures are usually issued for small amounts, are secured by a tax levied on the sections served by the telephone, and when countersigned by the Minister of Telephones are a valid and binding obligation of the telephone section served and are not open to contest in any court.

PAYMENT OF DEBENTURES.

There are several ways in which debentures are payable:

- (1) Payable at the end of a specified term commonly called "straight term" debentures. With this form an annual sinking fund is usually provided, so calculated as to be sufficient to pay off the debt at maturity.
- (2) Payable in equal annual instalments of principal, commonly called an "instalment" or "serial" debenture.
- (3) Payable in equal annual instalments of principal and interest, commonly called an "annuity" debenture.

In the case of classes 2 and 3 no sinking fund is necessary, as the debt is being paid off yearly, as the instalments fall due. This method is usually employed by the smaller towns, school sections, rural telephones, etc.

Form (1) is usually employed by the larger cities and municipalities which have adequate machinery to look after a sinking fund.

LOAN AND MORTGAGE COMPANY DEBENTURES.

Loan, Investment and Mortgage Companies have power to borrow money by means of debentures. These are issued in the form of a simple promise to repay money borrowed, at a specified time, with interest in the meantime, payable by coupons attached. They are secured by the covenant or promise to pay of the issuing company, generally run for a term of from two to five years, and carry interest from 4 to 5 per cent. The loan companies have been quite successful for many years past in placing large amounts of their debentures with investors in Great Britain.

RAILWAY, ELECTRIC RAILWAY, GAS COMPANY, POWER COMPANY, WATER COMPANY, INDUSTRIAL COMPANY AND OTHER BONDS.

Bonds are issued by practically all classes of companies and corporations. They may be said to be mortgages divided into many portions. In this way, when a corporation would find it difficult or impossible to borrow sufficient money from one individual, by using bonds the money can be secured from many individuals, while the

property is transferred as security to a trustee for the bondholders, usually a recognized trust company. When all the bonds have been paid off, with interest, and cancelled, the mortgage can then be discharged. The trust company also looks after the interests of the bondholders, by seeing that the sinking funds are properly kept up and administered and in case of default in payment of interest or principal arranges for foreclosure proceedings, etc. Each bond of an issue ranks equally with every other bond of the same amount, and no bond of the same issue has preference in any way over any other bond.

Such bonds are usually issued in denominations of \$100, \$500 and \$1,000. Most bonds bear interest coupons, although some are issued as fully registered bonds, when interest is paid to the owner by cheque.

TYPES OF BONDS.

First Mortgage Bond is always secured by a deed of trust, and directly covers the property on which it is secured, without being subject to any other lien. There may be other bond issues secured on the same property, but their lien is entirely subsequent to the first mortgage. Because a bond is a "first mortgage" bond one should not necessarily assume that it is a "gilt-edged" security.

Second Mortgage Bond is, as its name indicates, always secured subsidiary to the prior, or first mortgage. If the first mortgage completely covers the value of the property, then, of course, the second mortgage has an inferior standing only. But many first mortgages amount to only a portion of the value of a property, and in these cases a second mortgage is frequently well secured and attractive as an investment.

Third, Fourth and Fifth Mortgage Bonds are, as their names indicate, secured subsequent to the several preceding issues and require no separate comment, except that the mere fact of their being subsidiary to several issues does not of itself make them inferior in value. Other things being equal, the title of a bond signifies very little.

Consolidated Mortgage Bond is generally created as a result of a reorganization, a readjustment of finances, or for the purpose of providing new capital where a property is already mortgaged to some extent, and a second or third mortgage would not be well enough secured to warrant a ready sale.

General Mortgage Bond is of the same class as a consolidated mortgage. This is sometimes called a "blanket" mortgage, and is frequently issued when there is but a single first mortgage on the property. It is sometimes partly secured by second mortgage and partly by first mortgage but usually it is merely subsequent to two or more first and sometimes even consolidated or less well secured liens. When this is the case a sufficient amount is generally reserved to take care of the other bonds as they mature.

Prior Lien Bond is not necessarily a bond of prior security at all, except in a qualified sense. The term "prior lien," as applied to railroad bonds nowadays, connotes something entirely different from what would naturally be supposed.

Debenture Bond is not a mortgage, but simply a promissory note, or promise to pay. It is usually issued in the same form as other bonds. While both principal and interest are an obligation of the issuing company, yet in the case of default the holder cannot foreclose as he can in the case of a mortgage bond. In this respect the debenture is in very much the same position as a cumulative preferred stock, with the important exception that the latter usually carries a voting power, while the former does not. But debenture bonds, like all the rest, get their investment status largely through the character of the corporation issuing them.

Collateral Trust Bond is an indirect mortgage on a piece of property, made through the deposit with a trustee of other securities which are usually directly secured. Sometimes, however, the collateral so deposited consists of both stocks and bonds, and, in some cases, of stocks only. Like other kinds of bonds, there are "all sorts and conditions" of collateral issues, some being secured by one collateral only and others being secured by a heterogeneous variety of good, bad, and indifferent stocks and bonds. In some cases bonds are secured partly by deposit of collateral and partly by mortgage on some property. In such instances they are described as "mortgage-collateral trust bonds," etc.

Convertible Bond is an issue which carries a right or privilege for conversion into some other issue of bonds or stocks. There are many kinds of convertible bonds, and they carry convertible clauses for many and diverse reasons.

Guaranteed Bond is one the payment of which is specifically "guaranteed" by endorsement or otherwise by another corporation. There are many guaranteed bond issues in the railroad field, carrying guarantees of various kinds. In some cases the interest only is guaranteed, in others, both the principal and interest.

Assumed Bond is in some respects similar to a guaranteed bond, being an issue, the payment of which, both principal and interest, is "assumed" by the controlling company. The effect is in some sense the same as a guaranty and the bond becomes, as a result, a direct obligation of the assuming corporation.

Income Bond is one on which the payment of the interest is dependent on income. That is to say, while the principal is a mortgage and legally must be taken care of at maturity, the interest rate is not a "fixed charge," and no foreclosure proceedings can be instituted in case the interest is not paid. The payment of the latter is entirely dependent on the earnings of the company, it being generally agreed that if the interest is earned it shall be paid; otherwise, not. There are several classes of income bonds. Some are

not a mortgage. These are usually known as "debenture incomes." Others bear a cumulative clause, which provides that interest when unpaid shall accrue, and all accrued interest be paid or satisfied before the current interest is paid. These are known as cumulative income bonds. Still others are convertible into securities of another class, such as preferred stock, and are known as convertible incomes. Others have preference over inferior issues and are known as preference incomes.

Sinking Fund Bond is one which carries a provision setting aside a portion of earnings year by year for the purpose of retiring the bonds at or before maturity. There are many kinds of sinking fund clauses in bonds and they act in several different ways. The best known form is a provision requiring the company to deposit with the trustee periodically a certain sum of money, sometimes a percentage of the gross or net earnings, sometimes a percentage of the outstanding issue, and sometimes simply a fixed sum of money each year; the trustee then either calling in by lot a sufficient number of the issue to exhaust the amount of money he has received, or, if more are offered at the callable price (this price is usually a premium figure, 102, 105, 110, etc.), then buying the bonds in the open market at the lowest prices offered. The bonds so acquired are then cancelled and thus the issue is gradually reduced. Other forms of sinking funds are where the bonds so acquired by the trustee are "kept alive," the interest which is paid thereon being added to the fund and used for the purpose of buying still more bonds. Still other funds require that the bond issue itself be allowed to run until maturity and that the money set aside in the fund be invested in other securities, and thus the whole fund is held intact until the entire bond issue actually matures.

Underlying Bond is a general term describing any issue which precedes or is prior in mortgage security to some subsequent issue.

Refunding Mortgage Bond is an issue especially created for taking care of maturing issues, supplying additional capital, etc., and for reducing fixed charges.

Participating Bond is a modern term describing an issue which is entitled to participate in income or profits, under certain conditions, beyond its fixed rate of interest.

Equipment Bond is an issue created to acquire equipment, and is secured directly upon locomotives, cars and so forth. It frequently happens that a railroad finds it necessary to increase its equipment rapidly in order to handle a growing business in the most economical way. In most cases, large purchases of this kind involve the borrowing of money, as railroads do not always have funds available for such purposes. In view of this situation, "equipment trusts" or equipment bonds have been invented. These usually run for short periods only, generally being paid off in instalments or serially, ranging over several years.

LIFE ASSURANCE IN CANADA.

The business of life assurance in Canada during the year, 1913, was conducted by 45 active companies—27 Canadian, 7 British, 10 American and 1 Colonial.

NEW ASSURANCES EFFECTED.

In the year under review, the new policies effected amounted to \$231,608,546, an increase over those taken out in the preceding year of \$12,403,443. The respective amounts effected in each of the three classes of companies were:

Canadian Companies, \$131,493,582, or 57% of the whole British and Colonial
Companies..... 6,950,695, " 3% " "
United States Co's... 93,164,269, " 40% " "

It will be observed that the business of the Canadian companies exceeded that of the British and United States together by over \$31,378,618.

TOTAL ASSURANCE IN FORCE.

The aggregate of life assurance in force December 31st, 1913, amounted to \$1,168,590,027, an increase over that of the previous year of no less than \$98,281,358. The distribution is shown as follows:

Companies.	Amount in Force.	Increase.
	\$	\$
Canadian.....	750,637,902	43,981,785
British and Colonial....	58,176,795	3,639,070
United States.....	359,775,330	50,660,503
Total.....	\$1,168,590,027	\$98,281,358

The progress of the business, from the standpoint of the aggregate volume of life assurance carried by the several classes of companies, is evidenced when a comparison is instituted with the figures applicable at the close of the three previous decades:

AGGREGATE LIFE ASSURANCE IN FORCE AT CLOSE OF

Year.	Canadian Companies.	United States Companies.	British Companies.	Total.
	\$	\$	\$	\$
1880	37,838,518	33,643,745	19,789,863	91,272,126
1890	135,218,990	81,599,847	31,613,730	248,424,567
1900	267,151,086	124,433,416	39,485,344	431,069,846
1913	750,637,902	359,775,330	58,176,795	1,168,590,027

From \$91,000,000 in 1880 to \$1,168,000,000 in 1913, represents the large increase of over 1,184% in thirty-three years.

DEATH RATE.

The death rate in the several classes of companies was determined approximately by a comparison of the mean number of policies in force with the number of policies which became claims by death. The death rate thus ascertained for 1913 was 8·692 per 1,000, a rate lower than that experienced in any one of the preceding four years. The following table gives the rate for each of the years 1909-10-11-12-13:

	1913.	1912.	1911.	1910.	1909.
Active Companies (ordinary)	7·341	7·980	7·860	7·830	8·231
Active Companies (industrial)	9·286	10·001	10·897	12·561	12·086
Assessment and Fraternal Societies	9·644	9·873	9·631	8·904	9·089
Non-active and retired companies...	36·342	35·498	30·839	39·216	36·766
All Companies....	8·692	9·337	9·730	10·419	10·260

BENEFITS TO POLICYHOLDERS.

During 1913 the amount disbursed on behalf of policyholders by way of death claims, endowments, dividends, was greater than in the previous year, the whole aggregating \$25,287,203·99. The details are as follows:

For Death Claims	\$10,978,183·45
For Matured Endowments.....	4,898,145·00
For Annuities	1,036,977·61
For Cash Surrender Values.....	4,955,033·08
For Dividends and Profits	3,418,844·85

\$25,287,203·99

ASSETS, LIABILITIES, NEW ASSURANCES, CANADIAN COMPANIES.

In determining the relative merits of life assurance companies, a number of factors must be considered. The expense rate, interest rate, rate of mortality experienced, class of investments, character of the men who compose the directorate, and the officers should be considered, etc. Because a company's assets, new assurances, or total assurances in force may run into large figures, these in themselves would not necessarily determine the superiority of the company. As a matter of reference, however, the following items are given for Canadian companies for the year ending December 31st, 1913:

Law Society of Ontario.

The Law Society was first established in 1797, by the Act 37, Geo. III., c. 13, which enabled the then practitioners of the law to form themselves into a society, and make rules for its government. By the Act of 1822, 2 Geo. IV., c. 5, "the Treasurers and Benchers of the Law Society" were formally incorporated; and under these and other statutes the Society has continued to be governed by a Board of Benchers, in the same manner as the various Law Societies of England. Under c. 157 (1914), the Benchers are elected by the Bar, writes *ex-officio* members, consisting of the Minister of Justice, the Solicitor-General of the Dominion, and all members of the Bar of Ontario who have at any time held the office of Minister of Justice or Solicitor-General of the Dominion or of Ontario, or the Attorney-General of Ontario, and every person who has held this office. Every person, treasurer of this Society for seven consecutive years, every person who has been elected for four quinquennial elections, every retired Judge of the Supreme Court of Canada or of the Exchequer Court of Canada who was a member of the Bar of Ontario, and any retired Judge of the Supreme Court for Ontario; the *elected*, thirty in number, being chosen by ballot, for a term of five years, by the members of the Bar, in manner prescribed by the Act. Vacancies during the term are filled by the remaining Benchers. On the first day of Easter Term, annually, the Benchers appoint one of their body to be Treasurer, who is also President of the Society. The Benchers sit in Convocation every term for the call of Barristers, the admission of Solicitors to Practice, and of Students to enter the Society. Osgoode Hall, appropriately named after the first Chief Justice, is the Ontario "Inn of Court," or headquarters of the Society, in which is provided accommodation for the Court of Appeal and the High Court of Justice for Ontario; with a valuable and extensive library.

[MILITIA FORM B 53].

THE ROYAL MILITARY COLLEGE

THERE are few national institutions of more value and interest to the country than the Royal Military College of Canada. Notwithstanding this, its object and the work it is accomplishing are not sufficiently understood by the general public.

The College is a Government institution, designed primarily for the purpose of giving instruction in all branches of military science to cadets and officers of the Canadian Militia. In fact, it corresponds to Woolwich and Sandhurst.

The Commandant and military instructors are all officers on the active list of the Imperial army, lent for the purpose, and there is in addition a complete staff of professors for the civil subjects which form such an important part of the College course. Medical attendance is also provided.

Whilst the College is organized on a strictly military basis, the cadets receive a practical and scientific training in subjects essential to a sound modern education.

The course includes a thorough grounding in Mathematics, Civil Engineering, Surveying, Physics, Chemistry, French and English.

The strict discipline maintained at the College is one of the most valuable features of the course, and, in addition, the constant practice of gymnastics, drills and outdoor exercises of all kinds, ensures health and excellent physical condition.

Commissions in all branches of the Imperial service and Canadian Permanent Force are offered annually.

The diploma of graduation is considered by the authorities conducting the examination for Dominion Land Surveyor to be equivalent to a university degree, and by the Regulations of the Law Society of Ontario it obtains the same exemptions as a B.A. degree.

The length of the course is three years, in three terms of $9\frac{1}{2}$ months each.

The total cost of the course, including board, uniform, instructional material, and all extras, is about \$800.

The annual competitive examination for admission to the College takes place in May of each year, at the headquarters of the several military divisional areas and districts.

For full particulars regarding this examination and for any other information, application should be made to the Secretary of the Militia Council, Ottawa, Ont., or to the Commandant, Royal Military College, Kingston, Ont.
